2026-27 AP® Coordinator's Manual

Part 1

INCLUDES:

- Important Information for 2026-27
- Exam ordering policies and deadlines
- Instructions about exam registration and ordering

About College Board

College Board reaches more than 7 million students a year, helping them navigate the path from high school to college and career. Our not-for-profit membership organization was founded more than 120 years ago. We pioneered programs like the SAT® and AP® to expand opportunities for students and help them develop the skills they need. Our BigFuture® program helps students plan for college, pay for college, and explore careers. Learn more at **cb.org**.

About AP

College Board's Advanced Placement® Program enables willing and academically prepared students to pursue college-level studies—with the opportunity to earn college credit, advanced placement, or both—while still in high school. Through AP courses in 42 subjects, each culminating in a challenging exam, students learn to think critically, construct solid arguments, and see many sides of an issue—skills that prepare them for college and beyond. Taking AP courses demonstrates to college admissions officers that students have sought the most challenging curriculum available to them, and research indicates that students who score a 3 or higher on an AP Exam typically experience greater academic success in college and are more likely to earn a college degree than non-AP students. Each AP teacher's syllabus is evaluated and approved by faculty from some of the nation's leading colleges and universities, and AP Exams are developed and scored by college faculty and experienced AP teachers. Most four-year colleges and universities in the United States grant credit, advanced placement, or both on the basis of successful AP Exam scores; more than 3,300 institutions worldwide annually receive AP scores.

Enrolling Students: Access, Opportunity, and Readiness

The AP Program welcomes all students willing to challenge themselves with college-level coursework and career preparation. We strongly encourage educators to invite students into AP classes, including students from ethnic, racial, socioeconomic, geographic, or other groups not broadly participating in a school's AP program. We believe that readiness for AP is attainable, and that educators can expand readiness by opening access to Pre-AP coursework. We commit to support educators and communities in their efforts to make AP courses widely available, advancing students in their plans for college and careers.

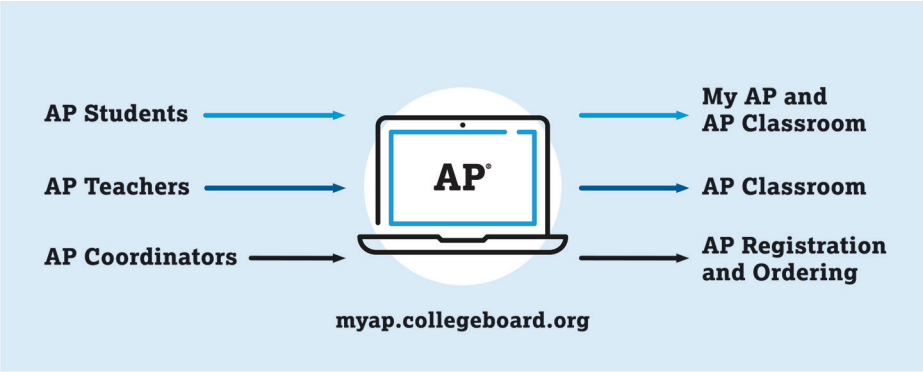
AP Processes and Resources

The Advanced Placement® (AP®) 2026-27 school year runs from the opening of AP Classroom on July 1 and AP Registration and Ordering beginning in August, through the exam administration in May and score reporting in July. Schools order exams by the ordering deadlines in November (for exams for first-semester or full-year AP courses) and March (for exams for any courses that begin after the November ordering deadline). This year's ordering deadlines are November 13, 2026 (11:59 p.m. ET) and March 12, 2027 (11:59 p.m. ET). Schools administer exams in May.

Schools are responsible for collecting exam payment from students using their own payment collection method; schools send payment to College Board by the June 15 exam payment deadline.

AP Exam registration takes place in the fall (August – November). At schools that offer AP courses, students enroll in their class sections online, teachers can begin assigning instructional resources to them through AP Classroom, and students can be registered for their AP Exams beginning on August 1. Students who are only taking the exam at a school will enroll in sections called "exam only" sections.

At the beginning of the school year, all AP coordinators, teachers, and students go to **myap.collegeboard.org**. After signing in, they'll arrive at their personalized homepage, which has specific AP information, resources, and tools. From their homepage, AP coordinators can access **AP Registration and Ordering**, and both AP coordinators and AP teachers can access **AP Classroom**.



For AP Coordinators

AP coordinators use **AP Registration and Ordering**, which they access from their homepage, to organize student exam registrations and manage and submit the AP Exam order. The AP Registration and Ordering access code for the current school year is generated in July and emailed to AP coordinators and principals on August 3. AP coordinators use this code to verify their access for the year. The deadline for AP coordinators to submit exam orders is **November 13, 2026, 11:59 p.m. ET**. See the **AP Exam Ordering Deadlines, Fees, and Policies** and the **How to Use AP Registration and Ordering** sections of this manual for details.

© 2026 College Board

For AP Teachers

Teachers use **AP Classroom** to access and assign free instructional resources. See the **Resources and Tools for AP Teachers and Students** section of this manual for details.

NOTE: Available AP Classroom resources vary by course. They can include the following:

Unit Guides outline all required course content and skills covered on the AP Exam, organized into commonly taught units. Each unit guide suggests a sequencing and pacing of content, scaffolds skill instruction across units, and provides tips on taking the exam.

The **AP Videos** are a series of on-demand, short videos that cover selected content and skills from the AP Course and Exam Description and are available in AP Classroom for students to watch anytime, anywhere.

Topic Questions are formative assessment questions that help teachers check understanding as they teach each topic (or skill, task model, or required reading, depending on the structure of the AP course). They include rationales to explain correct and incorrect answers to students.

Progress Checks are unit-based formative assessments that provide feedback on student progress with course content and skills as they complete each unit throughout the year. Teachers also have the flexibility to include Progress Check questions in quizzes they assemble from the Question Bank.

The **Question Bank** is a searchable library of all AP questions that teachers use to build customized practice for their students. Teachers can create and assign assessments with formative topic questions or questions from official practice or released AP Exams.

The **Reports** section of AP Classroom provides teachers with a one-stop shop for student performance on all assignment types, including Progress Checks, and by specific course components. From this section, teachers can also auto-generate practice quizzes based on student performance to provide students with additional preparation and support.

The **Archive of Exam FRQs** contains FRQ resources in PDF format from previously administered AP Exams, including the Free-Response Questions, Scoring Guidelines, and Sample Resources.

Additional **instructional resources** are available in AP Classroom and vary by course. These resources may include labs, practice opportunities, instructional activities, project supports, and source materials.

For AP Students

Students sign in to **My AP** to access AP Classroom and to register for exams. At the beginning of the school year (or semester, for second-semester courses), each student joins the class sections online for the AP courses or exams they're taking. Students receive performance feedback on completed quizzes and assessments assigned by their teachers and can review their cumulative performance by course components—such as unit, topic, and skill—as they progress through their course using the Content & Skills Performance Report. Depending on the course, they may receive Topic Questions and Progress Checks, which include rationales and scoring guidelines, and have access to AP videos, if available, that help them learn about course content and skills.

See the **Resources and Tools for AP Teachers and Students** section of this manual for details.

© 2026 College Board

Setup, Enrollment, and Ordering

Schools complete four steps to access AP Classroom resources and register students for AP Exams. See the **How to Use AP Registration and Ordering** section of this manual for details about these steps, as well as details for schools that only administer exams or schools that don't administer exams at all.

Before classes begin

1. Access AP Registration and Ordering and AP Classroom

Teachers	access AP Classroom for the new school year beginning July 1 and can begin setting up class sections and accessing resources for their AP Course Audit–approved courses. If teaching a new AP course, teachers submit the AP Course Audit form for AP Course Audit administrator approval.
AP Coordinators and Principals	receive the access code by email on August 3. (If neither the AP coordinator nor principal can locate the access code, call AP Services to have the code sent to your principal.)
AP Coordinator	signs in to **myap.collegeboard.org** using their College Board login information and enters the access code for AP Registration and Ordering. AP coordinators receive a new access code each year.
AP Coordinator	completes the initial setup steps in AP Registration and Ordering.
AP Coordinator	makes sure new AP teachers have added their courses in the AP Course Audit and had their completed course audit forms approved by the school's AP Course Audit administrator. (Skip if your school doesn't offer any courses.)

By the first day of class

2. Creating AP Class Sections and Exam Only Sections

AP Coordinator	creates any remaining necessary class sections for AP classes at their school (and exam only sections, if applicable).
AP Coordinator	reminds teachers that class section and join codes are available; gives join codes to exam only students. (Skip if your school doesn't offer any courses.)

First day of class

3. Helping Students Enroll in Their AP Class Sections

Teachers	sign in to **myap.collegeboard.org** using their College Board login information and get the unique join code for each class section they teach. AP coordinators can view the join code as well.
Teachers	share the join code with the students in their class along with instructions for signing in and joining the class section: **collegeboard.org/joinapclass**. AP coordinators can share the join code as well.
Students	sign in to **myap.collegeboard.org** and enroll in their AP class sections or exam only sections using the unique join code for each. Students who don't already have a College Board account should create one.
Teachers	begin using AP Classroom resources with their students.

Before the second day of class

Second day of class

By November 13, 11:59 p.m. ET (October 2 preferred)

4. Ordering AP Exams

AP Coordinator	organizes the exam roster and submits the exam order by the November 13 final exam ordering deadline. (Spring course orders and fall order changes must be submitted no later than March 12, 2027, 11:59 p.m. ET.)

© 2026 College Board

AP Exam Ordering Dates

The following are the key dates related to exam ordering. For information about all important dates and deadlines, see the **2026-27 AP Coordinator Planning Calendar** in this manual.

AUG 3

Beginning August 3, 2026:

Access myap.collegeboard.org.

- AP coordinator receives AP Registration and Ordering access code and completes initial setup. *(See pages 47–58.)*
- AP coordinator **creates class sections in myap.collegeboard.org**. *(See pages 64–70.)*
- Students sign in to My AP and enroll in class sections. *(See pages 73, 110.)*
- Teachers and students begin using AP Classroom resources. *(See pages 107–109, 115.)*

OCT 2

By October 2, 2026:

Preferred ordering deadline

- Recommended deadline for the AP coordinator to submit the exam order. New exams can be added, and changes to your order may be submitted without additional fees until November 13, 11:59 p.m. ET.

NOV 13

By November 13, 2026, 11:59 p.m. ET:

Final ordering deadline

- Deadline for the AP coordinator to submit the exam order. No payment is due until June 15, 2027.
- Each exam ordered after this date (and until March 12, 2027, 11:59 p.m. ET) will incur an additional $40 late order fee; some exceptions apply. *(See pages 23–28.)*
- Exams may be canceled after this date, but $40 will be charged per exam; some exceptions apply. *(See pages 23–28.)*

MAR 12

By March 12, 2027, 11:59 p.m. ET:

Spring course orders and fall order changes deadline

- Deadline for the AP coordinator to update the exam order with any late orders and known cancellations (fees may apply).
- Deadline to submit the exam order for courses that start after November 13. *(See page 23.)*

© 2026 College Board

Frequently Requested Information

Ordering Deadlines and Fees

- When do I need to submit my exam order? *Page 23*
- How do I order exams for courses that start after the November 13 final ordering deadline? *Page 35*
- How much do exams cost? *Page 24*
- What are the fee policies for late exam orders, unused/canceled exams, and late-testing exams? *Pages 25–28*
- When is payment due to College Board? *Page 29*

Accessing AP Registration and Ordering; Initial Setup

- What are the updates to the setup process this year? *Page 47*
- How do I access and use AP Registration and Ordering? *Pages 47–99*
- How and when will I get my AP Registration and Ordering access code? *Pages 4, 47*
- What's the difference between the default and advanced settings for the student exam decision indicator? *Pages 60–63*
- NEW What's BigFuture® School and Connections™? What does an AP coordinator need to do during setup to enable access for students at their school? *Page 56*

Class Sections and Join Codes

- What are class sections? What are exam only sections? How do I create them? *Pages 64–70*
- What steps do teachers need to take in AP Course Audit so that class sections can be created for them? *Pages 65–66*
- What are join codes? Can I download a list of the join codes for my school? *Pages 70–72*

Ordering Exams

- How do I organize and submit my exam order? *Pages 84–99*
- How do I order exams for students who are testing at my school but don't attend my school, i.e., homeschooled students and virtual school students? *Pages 38–40*
- What are the policies for late testing? How do I order exams for late testing? *Pages 33–34, 90–92*

Managing Student Enrollment

- How do students join class sections? *Pages 73, 110, 119–120*
- My school has students who transfer to or out of our school throughout the year. How do I account for them in my exam order? *Pages 38, 81–83*
- How do I get the transfer code for a class section for a student who has transferred to my school? *Pages 81–82*
- Does a student need to be transferred out of class sections at their previous school before I can give them the transfer code for class sections at my school? / Does a student need to be enrolled in class sections at their new school before I can transfer them out of sections at my school? *Pages 81–83*
- A student needs to move from one class section to a different class section for the same course. What do I need to do in AP Registration and Ordering? *Pages 80–81*

© 2026 College Board

- A student has withdrawn from an AP class but is still attending my school. I already submitted my exam order. What do I need to do? *Pages **78–80***
- Can I search for specific students in the roster in AP Registration and Ordering? *Page **76***
- Can I download a list with all student information, including each student's AP ID? *Page **77***

Fee Reductions

- What are the fee reduction eligibility criteria? *Pages **29–32***
- My school has students who are eligible for College Board fee reductions. How do I indicate that? *Pages **29–30**, **97***
- How do I get information about my state's AP Exam funding policy for 2027? *Page **32***

Accommodations

- How do I order exams for students with accommodations? *Pages **93–96***
- Can I order an exam if a student's accommodation request hasn't yet been approved by the College Board SSD office? *Pages **36–37***
- What's the difference between submitting accommodations requests and ordering the exams? *Pages **36–37***
- What special format materials can be ordered through AP Registration and Ordering? *Pages **93–95***

Preparing Your School for the AP Year

All schools will need to take a few key steps at the beginning of the school year to access AP Classroom resources and enable students to register for AP Exams.

Three guides are available to assist you:

- **Setup, Enrollment, and Ordering** (p. **4**), for AP coordinators, provides an overview and timeline of the steps coordinators, teachers, and students need to take.
- **Helping Students Join Your AP Class Section** (pp. **117–118**), for AP teachers, has instructions for getting class join codes and ensuring that students have joined class sections.
- **Joining Your AP Class Section** (pp. **119–120**), for AP students, is an assignment students receive from their AP teacher on the first day of class. It includes step-by-step instructions for joining their teacher's class section online.

Review this information, and plan how your school will ensure that all AP students enroll online when classes begin. These guides can be downloaded at **cb.org/apresourcelibrary**.

© 2026 College Board

Important Information for 2026-27

2027 AP Exam Schedule

2027 AP Exams will be administered May 3–14 for the regularly scheduled exam administration and May 17–21 for the late-testing exam administration. The complete exam schedule, including details about exam start times, is at **cb.org/apexamdates**.

2026-27 Deadlines

Please make note of these deadlines, which are different from last year:

- Preferred ordering deadline: October 2, 2026
- Final ordering deadline: November 13, 2026
- SSD accommodations request deadline: January 22, 2027
- Spring course orders and fall order changes deadline: March 12, 2027

Changes to Setup in AP Registration and Ordering

NEW Starting this year, there are a few updates to the set up process in AP Registration and Ordering. Details are in the **Setting Up AP Registration and Ordering** section.

- Instead of a separate AP Participation Form to be signed after setup, AP coordinators will see a new **AP Exam Ordering and Administration Terms** screen during setup which they'll read and accept on behalf of their school.
- There is a new screen where AP coordinators at eligible schools can enable access to **BigFuture School** and **Connections** for AP students at their school. To learn more about BigFuture School and Connections, including a link to review the BigFuture School and Connections for AP Terms, visit **cb.org/bigfutureschool-ap**.
  - BigFuture School is a free mobile app that's available starting in the 2026-27 school year to AP students to help them explore college and career opportunities and how the skills they may be developing in AP courses connect to postsecondary pathways.
  - Connections helps students discover nonprofit colleges, scholarship providers, and educational programs that may be a good fit and are actively looking for students like them.

2027 AP ID Label Sheets

NEW Beginning with the 2027 AP Exam administration, students registered for hybrid digital or accommodated paper AP Exams will receive a separate AP ID label sheet for each exam they are taking. In previous years, a single AP ID label sheet included the labels for all of their registered exams.

AP ID label sheets will no longer include a student's exam schedule. Additionally, AP coordinators will no longer select the sort order. All AP ID label sheets will be sorted alphabetically by student last name. More details about the updated AP ID label sheets will be in the *2026-27 AP Coordinator's Manual, Part 2*.

© 2026 College Board

New AP Services Phone Number

NEW To simplify the calling experience to AP Services, there is now a single phone number for educators and students. For the United States and Canada, call 866-630-9305. For international, call 1-212-713-8000.

Student Exam Decision Indicator Setting

NEW Beginning in the 2026-27 school year, AP coordinators now have 30 days to change the student exam decision indicator in AP Registration and Ordering after completing setup. Previously, this step needed to be completed within 7 days after completing setup. For details about the two options for the student exam decision indicator, see page 60.

New AP Courses Launching

NEW **AP Cybersecurity** and **AP Business with Personal Finance** launch for the 2026-27 school year. Learn more about these Career Kickstart™ courses at **apcentral.collegeboard.org/courses/ap-career-kickstart**.

Unused/Canceled Exam Fees Update for Newly Launched Courses

NEW Beginning in the 2026-27 school year, the AP Program will waive unused/canceled exam fees for a new AP course in the year the AP Program launches it. No action is required from AP coordinators. In subsequent years, unused/canceled exam fees will apply.

For 2026-27, this waiver applies to AP Business with Personal Finance and AP Cybersecurity.

AP World Language Exams and AP Music Theory Exams

NEW Beginning with the 2027 AP Exam administration, the exams for the six AP world language and culture exams (AP Chinese, French, German, Italian, Japanese, and Spanish), and AP Spanish Literature and Culture are fully digital exams administered in Bluebook™. AP Music Theory is a hybrid digital AP Exam. All audio recording and submission will be done through Bluebook.

- **AP Chinese, French, German, Italian, Japanese, and Spanish Language and Culture Exams:**
  - Students will complete a course project ahead of exam day and submit a Personalized Project Reference (PPR) through AP Digital Portfolio by April 30. AP coordinators will need to print each student's PPR before exam day for students to reference while completing their exam.
  - These courses have been revised for 2026-27 so students can use sources in the target language to prepare for authentic speaking tasks on exam day. The revisions also streamline and reorganize exam items to ensure a smooth digital exam-taking experience in Bluebook while maintaining the core tasks and objectives of each course.

For details, go to **AP World Languages and Cultures**.

© 2026 College Board

AP Statistics

NEW Beginning with the 2027 AP Exam administration, AP Statistics will move from hybrid digital to a fully digital AP Exam. Students will complete both the multiple-choice and free-response sections in Bluebook.

To support the transition to fully digital testing, Bluebook's symbols menu will be updated to include commonly used statistical symbols, and free-response questions will be designed to minimize symbolic entry.

AP Art and Design

NEW Beginning with the 2027 AP Exam administration, the submission deadline time for AP Art and Design will be 11:59 p.m. ET rather than 8 p.m. ET.

© 2026 College Board

2027 AP Exams: How Are They Administered?

NEW Starting this year, all AP Exams are administered either as fully digital AP Exams or hybrid digital AP Exams. Changes this year are:

- All AP world language exams are fully digital
- AP Music Theory is a hybrid digital AP Exam
- AP Statistics is now a fully digital AP Exam
- AP Cybersecurity and AP Business with Personal Finance officially launch. They are fully digital AP Exams.

Students take digital AP Exams through the Bluebook digital testing application, which must be installed on devices before exam day. AP coordinators use Test Day Toolkit to prepare for testing and oversee exam day. Proctors use Test Day Toolkit to read the script, provide students with codes to access the exam, monitor testing, and dismiss students.

Fully Digital AP Exams in Bluebook

Students complete multiple-choice and free-response questions in Bluebook, with all responses automatically submitted at the end of the exam.

AP African American Studies

AP Art History

NEW AP Business with Personal Finance

NEW AP Chinese Language and Culture

AP Comparative Government and Politics

AP Computer Science A

AP Computer Science Principles*

NEW AP Cybersecurity

AP English Language and Composition

AP English Literature and Composition

AP Environmental Science

AP European History

NEW AP French Language and Culture

NEW AP German Language and Culture

AP Human Geography

NEW AP Italian Language and Culture

NEW AP Japanese Language and Culture

AP Latin

AP Psychology

AP Seminar*

NEW AP Spanish Language and Culture

NEW AP Spanish Literature and Culture

NEW AP Statistics

AP United States Government and Politics

AP United States History

AP World History: Modern

*For these exams, students complete a fully digital end-of-course exam. AP Computer Science Principles and AP Seminar students submit performance tasks through the AP Digital Portfolio for scoring. World language and culture students submit a Personalized Project Reference (PPR) through the Digital Portfolio.

© 2026 College Board

Hybrid Digital AP Exams in Bluebook

Students complete multiple-choice questions and view free-response questions in Bluebook. They handwrite their free-response answers in paper exam booklets that are returned for scoring.

AP Biology

AP Calculus AB

AP Calculus BC

AP Chemistry

AP Macroeconomics

AP Microeconomics

NEW AP Music Theory

AP Physics 1: Algebra-Based

AP Physics 2: Algebra-Based

AP Physics C: Electricity and Magnetism

AP Physics C: Mechanics

AP Precalculus

AP Digital Portfolio Only Exams

For more information about how each of these exams are administered or submitted, visit **cb.org/apexamadmin-specialsubjects**:

- **Art and Design (AP 2-D Art and Design, AP 3-D Art and Design, and AP Drawing):** Students submit all work (three portfolio components) for scoring through the AP Digital Portfolio.
- **AP Research:** There's no end-of-course written exam for AP Research. Students are assessed on a performance task based on a yearlong research project: an academic paper (submitted for scoring through the AP Digital Portfolio), a presentation, and an oral defense of research.

© 2026 College Board

Role of the AP Coordinator

As your school's AP coordinator, you have an important role. You'll manage the exam registration and ordering process; the preparation for the AP Exam administration; the receipt, storage, distribution, and return of AP Exam materials; the following of all exam security policies and procedures; and the collection of fees and submission of final payment to the AP Program.

The AP coordinator can be a full- or part-time administrator, counselor, faculty member, or other school staff member who doesn't teach an AP course. The AP coordinator can also designate an additional authorized staff person who must meet the same eligibility requirements and follow the same policies and procedures as the AP coordinator, as detailed in both parts of the *2026-27 AP Coordinator's Manual*.

If a new AP coordinator takes over during the academic year or there's a new alternate coordinator, promptly update the coordinator information in the School Information section in AP Registration and Ordering. (See page **58** for details.)

The new AP coordinator must meet all AP coordinator eligibility requirements. The incoming AP coordinator will also need to create a College Board account, if they don't already have one. Additionally, the coordinator will need the AP Registration and Ordering access code, which they can ask their school's principal for or contact AP Services.

A conflict of interest may result in score cancellation. To avoid any conflict of interest, the AP coordinator **cannot**:

- Be the AP coordinator in the year they're an AP teacher.
- **Update for 2026–27:** Be the AP coordinator in the year an immediate family or household member may be taking an AP Exam at the school where the coordinator works. Starting in 2026-27, a coordinator is permitted to serve if the immediate family or household member is testing at a different school. Immediate family includes one's parents, siblings, children, grandparents, and spouse. This applies even if they don't reside in the same household. If this affects a student's ability to test, contact AP Services.
- Be employed part time or full time at a test preparation company.
- Participate in any coaching activity that addresses the content of secure College Board tests.
- Proctor an AP Exam in a subject area they currently teach or have taught.

The AP coordinator is responsible for safeguarding the content of AP Exams before, during, and after testing. Unreleased content may never be discussed regardless of how the exam was delivered (e.g., fully digital, hybrid digital, or other).

Learning Opportunities and Resources for AP Coordinators

Bookmark and frequently visit **cb.org/apcoordinatorexperience** for information about the latest learning opportunities and resources available for AP coordinators.

- Choose Your Experience in the **2026-27 AP Coordinator: Back-to-School Workshop**. This year's workshop is tailored to support the needs of New and Experienced coordinators with two distinct experiences. Online workshops launch in early July and continue through September. **Register now**.
  - **New Coordinators.** This pathway is for New AP coordinators who want to learn about updates and resources for the upcoming school year, as well as an overview of the AP Program, the role of the AP coordinator, and the

© 2026 College Board

must-dos at the start of the school year. Engage with experienced colleagues and view live demonstrations in AP Registration and Ordering. Enjoy frequent opportunities to ask for guidance from those who have years of experience as AP coordinators.

- **Experienced Coordinators.** This pathway is for Experienced AP coordinators who are confident with the process and required actions from the start of the school year. Conversations focus on helpful resources and updates to AP policies and timelines for the upcoming school year. We collaboratively focus on how different schools set up and manage their AP programs, while sharing best practices and discussing a wide range of topics related to AP.

- **Coordinated Podcast.** AP coordinators, this is our podcast! Don't miss out. Follow the show. Listen in for the latest and greatest in the world of AP coordinators. Hosts engage in lively, informative conversations with superstars and unsung heroes in education. There's a new episode every month, so be sure to catch up on everything **Coordinated** is talking about today! (**YouTube Playlist**)
- **Chat with a Coordinator.** Join fellow AP coordinators for this popular series of real-time support. Each small group Zoom chat is led by experienced AP coordinators. Review best practices, collaborate with peers, and share lessons learned. Discussions in the spring often focus on preparation and creating optimal testing experiences for students in May. As always, you drive the conversation. Come with questions or just join to hear what others are talking about. Attend as often as you'd like! **Register** for the live sessions.
- Participate in the **online AP Coordinator Community**. Using this forum, you can post questions, get answers, download resources, network, and interact with thousands of other AP coordinators. To register, visit **cb.org/ap-coordinator-community**.

Using the *AP Coordinator's Manual*

As AP coordinator, you'll ensure that you, AP teachers, AP proctors, and AP students follow all policies and procedures in the *AP Coordinator's Manual*. You'll receive the manual in two parts. This is Part 1 of the manual, available as a PDF. It will support you through the activities leading up to the November 13 final exam ordering deadline. Part 2, which will be sent to schools early in 2027, will cover exam administration and post-administration procedures.

Part 1

Topics included in this manual are:

- Exam ordering deadlines and policies.
- Exam fees.
- Fee reductions.
- Ordering late-testing exams.
- Ordering exams for students with testing accommodations.
- Ordering exams for homeschooled students, independent study students, students not from your school, or students taking courses through a virtual school.
- Subject-specific details (AP African American Studies, AP Art and Design, AP Computer Science Principles, AP Latin, AP Seminar, AP Research, and AP world language and culture subjects) that impact class section setup, enrollment, and exam ordering.
- Initial setup in AP Registration and Ordering, including details about the access code.
- Class section creation and student enrollment.
- Reviewing, updating, and submitting the exam order.
- An overview of AP Classroom resources for AP teachers and students.

© 2026 College Board

Part 2

Topics included in the *AP Coordinator's Manual, Part 2* are:

- Ongoing exam order management.
- Preparing and ensuring readiness for all exams.
- Exam security.
- Checking and storing exam materials.
- Proctor eligibility and preparing proctors.
- Preparing students for exam day.
- Exam administration procedures.
- Administration incidents.
- Post-exam activities.
- Returning exam materials.
- Accessing and paying your invoice.
- Score reporting services.

© 2026 College Board

2026-27 AP Coordinator Planning Calendar

The following is an overview of the AP deadlines and milestones through the year. Review the checklists on the following pages for details.

July 1, 2026	AP Classroom opens for teachers for the 2026-27 school year.
August 3, 2026	AP coordinators and principals receive an email with the 2026-27 AP Registration and Ordering access code. Students can begin enrolling in class sections or exam only sections, which gives access to AP Classroom and the AP Digital Portfolio (when applicable).
October 2, 2026	Preferred ordering deadline.
November 13, 2026 (11:59 p.m. ET)	Final ordering deadline.
January 22, 2027	Deadline for SSD coordinators to submit accommodations requests and supporting documentation if needed for AP Exams through SSD Online.
January 31, 2027	Final deadline for initial AP Course Audit submissions, all renewals, removal of teachers and courses, addition of online/distance learning courses, and AP Course Audit form approvals for 2026-27 courses. **Learn more about the AP Course Audit.**
March 1, 2027	AP Course Audit website begins accepting submissions for new courses offered in the 2027-28 school year.
March 12, 2027 (11:59 p.m. ET)	Spring course orders and fall order changes deadline.
April 30, 2027 (11:59 p.m. ET)	Deadline to indicate students' fee reduction status in AP Registration and Ordering.
April 30, 2027 (11:59 p.m. ET)	Deadline for AP Seminar, AP Research, and AP Computer Science Principles students to submit performance tasks as final in the AP Digital Portfolio. NEW Deadline for students in all AP world language and culture courses to submit their Personalized Project References (PPR) as final in the AP Digital Portfolio. Deadline for AP Computer Science Principles students to submit their PPR as final.
May 3–7 and May 10–14, 2027	Regularly scheduled AP Exam administration.
May 4, 2027	Deadline for schools in U.S. Territories, Canada, and elsewhere outside the United States to order late testing exams.
May 7, 2027 (11:59 p.m. ET)	Deadline for AP Art and Design students to submit their three portfolio components as final in the AP Digital Portfolio. NEW This deadline now aligns with other courses that have Digital Portfolio deadlines.
May 10, 2027 (11:59 p.m. ET)	Deadline for AP Capstone™ (Seminar and Research) teachers to score student presentation components of performance tasks and complete checkpoint affirmations in the AP Digital Portfolio.
May 14, 2027	Deadline to order late-testing exams in the United States.
May 17–21, 2027	Late-testing AP Exam administration.
May 31, 2027 (11:59 p.m. ET)	Deadline for AP African American Studies teachers to score student presentation component of the Individual Student Project in the AP Digital Portfolio. Deadline for AP Latin teachers to score student checkpoints in the AP Digital Portfolio.
June 1, 2027	Deadline for all exam materials to be received by AP Program. Schools are billed twice the fee for each exam in shipments received after this date.
June 15, 2027	Postmark deadline for exam payment to the AP Program.
June 15, 2027	Deadline to indicate intended use for large-volume rebate in AP Registration and Ordering.
June 20, 2027	Deadline for students to indicate or change the recipient of their free score report.

© 2026 College Board

2026-27 AP Coordinator Checklist

The following checklists outline the steps an AP coordinator needs to complete before, during, and after the exam administration, including key deadlines.

Start of the School Year (August–December)

Take the following critical steps early in the school year and by no later than the **November 13 AP Exam final ordering deadline**.

- ☐ **Complete setup in AP Registration and Ordering.** On August 3, returning principals and AP coordinators receive an email with the access code that the AP coordinator needs to log in to AP Registration and Ordering. Once logged in, AP coordinators need to complete initial setup, which includes the new AP Exam Ordering and Administration Terms and BigFuture School and Connections page. These steps need to be completed to be able to order AP Exams. See **Setting Up AP Registration and Ordering** in this manual for details.
  - NEW During setup, AP coordinators at eligible schools can enable access to BigFuture School and Connections for AP students at their school. See **Setting Up AP Registration and Ordering** for more details.
- ☐ **Ensure new AP teachers and teachers of revised courses have completed AP Course Audit steps and that administrators know the AP Course Audit renewal deadlines:**
  - New teachers and teachers of revised courses need to (1) add their course(s) in AP Course Audit; and (2) complete the AP Course Audit form and have the form approved by their school's AP Course Audit administrator. New AP teachers need to complete these steps before class sections can be created for their courses and to be able to access AP Classroom.
  - **October 15** is the preferred deadline for administrators to renew previously authorized courses for the 2026-27 school year. This ensures courses are included in the release of the AP Course Ledger on November 1. (Administrators should also correct any inaccuracies or omissions before the release date.)
- ☐ **Create Class Sections or Exam Only Sections:** If your school offers AP courses, class sections must be created. If your school only administers AP Exams or you have any students who are only taking an AP Exam without taking the corresponding course, you must also create exam only sections. See **Creating AP Class Sections and Exam Only Sections** in this manual for details.
- ☐ **Ensure students join class sections in My AP.** Students use the join code(s) they get from their AP teachers or the AP coordinator to join their class or exam only sections. Students should join sections by the next day after receiving the join code. See **Helping Students Enroll in their AP Class Sections** in this manual for details.
- ☐ **Complete the AP Participation Survey.** AP coordinators will be emailed a link to the AP Participation Survey, to be completed on behalf of their schools.
- ☐ SSD **Meet with the SSD coordinator.** Discuss the eligibility process and AP students who have approved or expected accommodations for AP Exams. You'll need this information to order any necessary special exam formats for approved students.
- ☐ **Submit 2027 AP Exam orders in AP Registration and Ordering by no later than November 13 (11:59 p.m. ET):**
  - **October 2: Preferred AP Exam Ordering Deadline.** It's recommended that student enrollments are completed and AP coordinators submit AP Exam orders by this date.
  - **November 13, 11:59 p.m. ET: Final ordering deadline for all full-year and fall-semester AP courses and all exam only sections.** Exam orders submitted after this date will incur an additional $40 per exam late order fee, with some exceptions.

© 2026 College Board

Early in your school year, it's also recommended you do the following:

- ☐ Join the **AP Coordinator Community** and visit **cb.org/apcoordinatorexperience** to review and register for available AP coordinator learning opportunities.
- ☐ Print or make copies of the 2027 AP Exam schedule and distribute to teachers and administrators. Confirm that the exam dates and start times are noted on the school calendar, and check for any known conflicts (academic and/or athletic) to identify which students may need late-testing exams. For the 2027 AP Exam schedule, go to **cb.org/apexamdates**.
- ☐ Review 2026-27 processes with your principal, AP teachers, and AP students.
- ☐ Share AP Exam information, including exam ordering deadlines and fees, with students and parents at AP information sessions.
- ☐ Make a plan for how and when fees will be collected this year, if applicable. The deadline for exam payments to College Board is **June 15, 2027**.
  - Make sure to communicate fee collection deadlines and policies to students from outside your school who will be taking exams at your school.
- ☐ Determine when information will be available to identify students who are eligible for College Board fee reductions. You'll need to indicate eligible students for College Board AP Exam fee reductions in AP Registration and Ordering by **April 30, 2027**.
- ☐ Confirm your school's policy for allowing students who don't attend your school (e.g., homeschooled students) to take AP Exams at your school. It's recommended that these students contact the AP coordinator at schools near them as early in the school year as possible to determine if one of them can arrange testing. See **Students Who Don't Attend Your School and Independent Study Students** in this manual for details.
- ☐ **SSD** Plan to meet with the SSD coordinator regularly to review accommodations approvals that have changed or still need to be submitted.
- ☐ Meet with your technology coordinator to to discuss your school's network and device requirements. Go to **bluebook.org/tech-conversation-guide** to support your conversation.
- ☐ Recruit proctors and technology monitors who meet proctor eligibility criteria. Schedule proctor and technology monitor training for April.
- ☐ Encourage students and teachers to download the **Bluebook testing app** to explore the testing experience for fully digital and hybrid digital AP Exams and try test previews. (Test previews for the AP world language and culture exams and AP Music Theory will be available in January.)
- ☐ Determine if you'll need off-site testing. Ensure compliance with exam administration and security procedures. Begin securing facilities.

Other Milestones

- ☐ **In October,** AP Potential™ is available for the latest PSAT/NMSQT® administration.
- ☐ **In November,** the 2026 AP Exam large-volume rebate checks are mailed to AP coordinators who administered at least 150 exams and who indicated their intended use of the rebate in AP Registration and Ordering.
- ☐ **In November,** the AP Course Ledger of authorized 2026-27 AP courses is available.

© 2026 College Board

Before the AP Exam Administration (January–April)

Important: The *2026-27 AP Coordinator's Manual, Part 2*, available in January 2027, will provide more details about the tasks you'll need to complete in 2027 leading up to the AP Exam administration, including technical readiness and exam day tasks. For all details about accommodations, reference the *2026-27 AP Accommodations Guide*, available in mid-December. These high-level checklists are to help you prepare.

Manage Your AP Exam Order

- ☐ SSD **January 22** is the deadline to submit accommodations requests and supporting documentation (if needed) through SSD Online.
- ☐ **March 12 (11:59 p.m. ET)** is the deadline to submit new AP Exam orders and known exam order updates in AP Registration and Ordering.
- ☐ **April 30 (11:59 p.m. ET)** is the deadline to indicate fee reductions for eligible students. For your invoice to accurately reflect any fee reductions, you must indicate in AP Registration and Ordering each student who qualifies for a fee reduction by this deadline.

Get Ready for the AP Exam Administration (January–April)

- ☐ Confirm your school's technology coordinator contact information in AP Registration and Ordering. Go to **Settings/School Information and Participation Contacts** to find the current technology coordinator. Your technology coordinator is responsible for configuring the school network and installing apps on school-managed devices.
- ☐ Check in with your technology coordinator regularly for help selecting testing rooms with strong Wi-Fi and to make sure they're completing the technical readiness steps listed at **bluebook.org/tech-tasks**.
- ☐ If students are testing on their own devices, send them to **bluebook.org/device-prep** for requirements and readiness instructions.
- ☐ Select and reserve testing rooms with the best possible conditions for student performance, and ensure compliance with exam administration and security procedures. If your school needs off-site testing, work with your technology coordinator to secure locations.
- ☐ AP coordinators will receive an email from College Board in the spring with a link to access Test Day Toolkit. When you receive the link, you'll be able to set up Test Day Toolkit and grant access to testing staff. **Learn more about accessing and setting up Test Day Toolkit**.
- ☐ Review and reserve the equipment needed for each exam:
  - Testing devices, if students are taking digital AP Exams on school-managed devices, and external keyboards and mice if students are taking these exams on tablets. See the requirements at **bluebook.collegeboard.org/technology/devices/requirements/overview**.
  - NEW **For AP world language and culture, AP Spanish Literature, and AP Music Theory Exams:** Beginning in the 2026-27 school year, these AP Exams will be administered in Bluebook and require wired headsets and microphones. For more details, go to **cb.org/ap-headsets**.
- ☐ SSD Review the *2026-27 AP Accommodations Guide* (available in mid-December 2026), and make sure you have the necessary equipment for exams administered with accommodations.
- ☐ For exam-only students, ensure:
  - They can access the AP Digital Portfolio and are on track to submit their Personal Project Reference (PPR) by April 30, if they are taking the AP Computer Science Principles Exam.
  - NEW They can access the AP Digital Portfolio and the Course Project Packet that will be released in January 2027, if they are taking an AP Chinese, French, German, Japanese, Italian, and Spanish Language Exam. Also ensure these students are on track to submit their PPR by April 30.

Go to **bluebook.org/test-admin** for technical readiness guidance and Test Day Toolkit best practices.

© 2026 College Board

- ☐ Receive and check exam materials (late March/April): Exam materials and AP ID label sheets will arrive for the applicable exams in separate shipments.
- ☐ NEW For AP Capstone courses, AP coordinators should check the final submission status of students' performance tasks and the status of teacher score entries and checkpoint affirmations in AP Digital Portfolio.

Prepare Proctors and Testing Staff (March–April)

- ☐ Make sure you have the necessary number of proctors who meet the AP proctor eligibility criteria to administer AP Exams. There must be a proctor in the exam room at all times, including during the break. See the *2026-27 AP Coordinator's Manual, Part 2* for details.
- ☐ Confirm that all proctors and testing staff who will be using Test Day Toolkit on exam day have their own College Board professional account and can sign in to it, and have an appropriate personal or school-managed device.
- ☐ In April, hold a proctor training session for all AP Exam testing staff (proctors, room monitors, and technology monitors and coordinators). Proctor training resources will be available at **cb.org/apresourcelibrary** and the **YouTube playlist** in the spring.
- ☐ Review the exam administration procedures for fully digital exams and hybrid digital exams with proctors.
- ☐ Share and remind proctors and testing staff to read all information needed ahead of each exam they're proctoring or supporting:
  - **For Digital AP Exams:** *2027 AP Proctor Exam Day Guide* for proctors, and the *AP Technical Troubleshooting Guide* for technology monitors.
  - **For Exams Taken with Accommodations:** *2026-27 AP Accommodations Guide* for proctors.

Prepare Students (March–April)

- ☐ Before exam day, encourage students to sign in to Bluebook with their College Board student account. They'll need to remember and manually enter their account information (email and password) to access their digital AP Exam in Bluebook on exam day. Saving their password on their device won't work.
- ☐ Before exam day, students should also **try a test preview** in Bluebook and the appropriate testing tools (including any **assistive technology** they're approved for) to become familiar with the Bluebook testing experience. Encourage teachers to make this a class assignment for their students.
- ☐ Tell students when and where to arrive for exams, and what they should and shouldn't bring to exams. If you're testing homeschooled students or students from other schools, remind them to bring a valid photo ID to the administration.
- ☐ Ensure students have read the 2027 AP Exam Terms and Conditions (**cb.org/apexamterms**). On exam day, students will need to acknowledge that they've read and agree to the terms before taking their exam.
- ☐ Send a strong message to students that cell phones and other prohibited electronic devices aren't allowed in the testing room. Students can review exam policies and guidelines at **apstudents.org/exampolicies**.
- ☐ For AP Exams that allow or require the use of calculators, ask teachers to remind students to review the calculator policy for their exam at **apstudents.org/calculators**.
- ☐ Remind students that **June 20** is the deadline to indicate or change their free score report recipient.

© 2026 College Board

Final Technical Readiness Before Exam Day

Two Weeks Before Testing:

- ☐ Confirm all testing staff who will be using Test Day Toolkit on exam day have an appropriate personal or school-managed device, and that they can connect to Wi-Fi in the testing room and access their assigned AP Exam in Test Day Toolkit.

One Week Before Testing:

- ☐ Confirm that relevant testing staff have signed in to Test Day Toolkit and selected their assigned AP Exams from the dropdown menu.
- ☐ Students using a personal device or a school-managed device assigned to them one-to-one will also need to complete last-minute readiness steps before exam day. See **bluebook.org/device-prep**.
- ☐ SSD If any students will be testing with assistive technology, review details with them about **using and configuring assistive technology with Bluebook**.
- ☐ SSD Confirm or waive accommodations for students through AP Registration and Ordering. This must be done no later than 48 hours before the scheduled exam date.

AP Digital Portfolio Deadlines for Students and Teachers

- ☐ NEW **All AP World Language and Culture Exams:** April 30, 11:59 p.m. ET is the deadline for students to submit their Personalized Project Reference (PPR) in the AP Digital Portfolio.
- ☐ **AP Computer Science Principles:** April 30, 11:59 p.m. ET is the deadline for students to submit all three components of their Create performance task as final in the AP Digital Portfolio.
- ☐ **AP Seminar and AP Research:** April 30, 11:59 p.m. ET is the deadline for students to submit performance tasks as final in the AP Digital Portfolio. May 10, 11:59 p.m. ET is the deadline for AP Seminar and Research teachers to score student presentation components of performance tasks and complete checkpoint affirmations in the AP Digital Portfolio.
- ☐ **AP Art and Design:** May 7, 11:59 p.m. ET is the deadline for students (2-D, 3-D, and Drawing) to submit their three portfolio components as final in the AP Digital Portfolio.
- ☐ **AP African American Studies:** May 31, 11:59 p.m. ET is the deadline for teachers to submit scores for the presentation component of the Individual Student Project in the AP Digital Portfolio.
- ☐ **AP Latin:** May 31, 11:59 p.m. ET is the deadline for teachers to submit student checkpoint scores in the AP Digital Portfolio.

The Exam Administration

- ☐ **For digital AP Exams:** In Test Day Toolkit, use the Action dropdown on the All Staff page to grant full access to staff.
- ☐ **For AP Computer Science Principles:** AP coordinators need to sign in to the AP Digital Portfolio and print the Personalized Project Reference for each student taking the exam and provide them to the proctor to distribute to students on exam day.
- ☐ NEW **AP World Language and Culture Exams:** AP coordinators need to sign in to the AP Digital Portfolio and print the Personalized Project Reference for each student taking the exam and provide it to the proctor to distribute to students on exam day.
- ☐ **Administer the 2027 AP Exams following the official testing schedule.**
  - No exam may begin before or after the official starting times. See **cb.org/apexamdates**.
  - More details about exam day tasks will be in the *AP Coordinator's Manual, Part 2*.

© 2026 College Board

After the Exam Tasks and Deadlines

- ☐ **For digital AP Exams**, help students with an unsubmitted answers status. If submission is still incomplete after 24 hours, you'll receive an email with instructions.
- ☐ Complete and submit incident reports (IRs) through AP Registration and Ordering, if necessary.
- ☐ Schedule and arrange for any late-testing exams.
- ☐ Return materials for hybrid exams by the next business day after the final exam of each testing window.
- ☐ Complete the post-administration survey, which is emailed to AP coordinators after the exam administration.
- ☐ **June 1:** Deadline for all exam materials to be received by the AP Program. Schools are billed twice the fee for each exam in shipments returned after this date.
- ☐ **June 15:** Postmark deadline to submit payment for 2027 AP Exams to the AP Program. A $225 late payment fee will be assessed for any payment returned after this date.
- ☐ **June 15:** Deadline to indicate the intended use for the large-volume rebate if your school administered 150 or more AP Exams this year.
- ☐ **June 20:** Deadline for students to indicate or change the recipient of their free score report through My AP.

Accommodations for AP Exams

SSD Review the *2026-27 AP Accommodations Guide* (available in mid-December 2026 at **cb.org/apresourcelibrary**) for complete details about administering AP Exams with accommodations, including an SSD-specific checklist. Below are high-level reminders.

Accommodations Requests and Updating AP Registration and Ordering:

- ☐ To ensure all accommodations for eligible students are approved and in place by the exam date, accommodation requests and complete documentation (when necessary) must be submitted through SSD Online by **January 22, 2027**.
- ☐ If a student's accommodations change due to approval or denial of their accommodations requests, update your exam order in AP Registration and Ordering with any changes to required special exam formats or materials (braille, accommodated paper, or multiple-day testing AP Exams) for the student, as applicable, and submit the change to your order.
- ☐ You must order special-format exams through AP Registration and Ordering in addition to the student receiving approval for the accommodation from the College Board SSD office.

© 2026 College Board

AP Exam Ordering Deadlines, Fees, and Policies

This section provides details about exam ordering deadlines, exam fees, and policies related to ordering.

AP coordinators will submit AP Exam orders through AP Registration and Ordering, which they access by signing in at **myap.collegeboard.org** or through AP Central.

Parents and students can't order AP Exams directly.

Important:

Please make sure information about exam ordering deadlines and fees is explained clearly at parent nights, counselor sessions, or other informational events or sessions where your school's AP program is discussed and in any other materials your school may provide about your AP program.

AP Exam Ordering Deadlines

AP Exam orders must be submitted by the AP coordinator in the fall.

The following ordering deadlines apply to **all** schools, including schools and test centers outside the United States, U.S. territories, and Canada.

The **How to Use AP Registration and Ordering** section of this manual provides step-by-step instructions for organizing and submitting the exam order.

2027 AP EXAM ORDERING DEADLINES

October 2, 2026 **Preferred ordering deadline**	This is the recommended deadline to review exam registration rosters in AP Registration and Ordering, make needed changes, and confirm and submit your exam order.* Orders may be updated and changes submitted without additional fees until the final ordering deadline. It's recommended that student enrollments are completed by this date.
November 13, 2026 (11:59 p.m. ET) **Final ordering deadline**	Final deadline to submit your exam order for all full-year and fall-semester AP courses, and all exam only sections, without incurring additional fees. Exams can be ordered or canceled after this date, although a fee applies in some cases (see page 25).
March 12, 2027 (11:59 p.m. ET) **Spring course orders and fall order changes deadline**	Deadline to order all exams for AP courses that begin after November 13 and to update fall orders (fees may apply for changes made to fall orders). Schools are encouraged to submit any known cancellations by this date to ensure timely processing and accuracy of your exam shipment.

* **NOTE:** If your school is using the **advanced option** for the student exam decision indicator setting (you're choosing to have students directly indicate their exam registration in My AP), review page 62 for important details about the student decision deadline in relation to the preferred ordering deadline.

© 2026 College Board

Exam Fees

The cost per AP Exam remains the same as last year.

Exam fee for on-time exam orders (by November 13, 2026, for full-year and fall-semester courses, and exam only sections; by March 12, 2027, for courses that start after November 13)	▪ **$99 per exam** at schools in the U.S., U.S. territories, Canada, and all DoWEA schools ▪ **$129 per exam** at schools everywhere else (**Note:** Fees may vary for exams at College Board–authorized test centers outside the U.S.)
School rebate	**$9 per exam**
College Board fee reduction for eligible students	**$37 per exam**

NOTE: All exam fee amounts are shown in U.S. dollars.

The cost for exams shown in AP Registration and Ordering and invoiced per exam is the base exam fee ($99, $129), minus the school rebate ($9).

- **Regular exams:** $99 − $9 = **$90** *(amount due from the school to College Board per exam)*
- **International exams:** $129 − $9 = **$120** *(amount due from the school to College Board per exam)*

When applicable, the final invoice also reflects College Board and state fee reductions for eligible students. (See **AP Fee Reduction Policy** in this manual for details.)

Fees may apply to exams ordered after the November 13 final ordering deadline.

© 2026 College Board

2026-27 OTHER FEES

Late order fee **Additional fee applied to each exam ordered between November 14, 2026, and March 12, 2027, 11:59 p.m. ET.**	**$40 per exam** in addition to base exam fee (**Note:** This fee won't apply to exams for courses that start after the November 13 exam ordering deadline—for example, spring-semester or spring block courses—or to exams for students who transfer to your school and use a transfer code.)
Unused/canceled exam fee	**$40 per exam** for: ▪ Exams canceled in AP Registration and Ordering after November 13 and by March 12 (11:59 p.m. ET) ▪ Exams that aren't taken and are indicated as unused in AP Registration and Ordering before your school's invoice is generated. (Invoices are generated after late testing ends.) The original exam fee is removed from the invoice.
Late-testing fee	**$40 per exam** in addition to base exam fee as applicable for late-testing exams (**Note:** Most reasons for late testing don't incur an additional late-testing fee. See **Late-Testing Exams** in this manual for late-testing reasons with no additional fee.)

NOTE: The fees listed above apply to **all** schools, including those outside the United States, U.S. territories, and Canada. Late order, unused/canceled exam, and late-testing fees are applied in the same way to all students, including those eligible for a College Board fee reduction.

Note the following about costs:

- Applicable late order, unused/canceled exam, and late-testing fees are reflected in your exam cost shown in AP Registration and Ordering.
- Late order, unused/canceled exam, and late-testing fees are applied per exam, not per order.
- NEW Beginning in the 2026-27 school year, the AP Program will waive unused/canceled exam fees for a new AP course in the year the AP Program launches it. No action is required from AP coordinators. In subsequent years, unused/canceled exam fees will apply. For 2026-27, this waiver applies to AP Business with Personal Finance and AP Cybersecurity.
- College Board fee reductions are available for students with financial need. Many states provide funding to further reduce the exam fee for these students. However, College Board fee reductions don't apply to the late order, unused/canceled exam, or late-testing fees. (See **AP Fee Reduction Policy** in this manual.)
- After a state finalizes its 2027 funding policy, the information will be posted on AP Central (**cb.org/apexamfeeassistance**), and applicable state subsidies will be reflected in the cost shown in AP Registration and Ordering.
- Fees and refund/cancellation policies may vary for exams at College Board–authorized test centers outside the U.S.

© 2026 College Board

Whether or Not Fees Apply

The tables below summarize common situations in which the late order and/or unused/canceled exam fees are and aren't applied.

Fees Aren't Applied

School Schedule

Late order fee not applied: The course doesn't begin until after the November 13 final ordering deadline (e.g., spring-semester, trimester, or spring block schedule course). Exams for these courses must be ordered by 11:59 p.m. ET on March 12, 2027.

Transfer Student Out Of or To Your School

See **Indicating Transfer Students To or Out of Your School** for details:

- **Unused/canceled exam fee not applied:** Indicate the student as **Transfer Out** or the student's new school adds them to section(s) in AP Registration and Ordering using the transfer code.
- **Late order fee not applied:** Exams ordered for a student who transfers **to** your school; student enrolls in class sections or exam only sections using the **transfer code** for each.

Accommodations Change

Unused/canceled exam fee not applied: A change is submitted to an **existing exam order** by March 12, 2027, (11:59 p.m. ET) due to a change in a student's accommodations approval status from the College Board SSD office. (See **Exams for Students with Accommodations**.) Contact AP Services to have the fee waived.

State Subsidy Eliminated

Unused/canceled exam fee not applied: Exams for students eligible for College Board fee reductions are canceled or indicated as unused due to the elimination of state funding for AP Exams for low-income students. (See **AP Exam Fee Reduction Policy**.) Contact AP Services to have the fee waived.

Exam Ordered After November 13 for Homeschooled Student or Student Whose School Doesn't Administer Their AP Exam

If you add a homeschooled student or a student whose school doesn't administer the AP Exam(s) they're planning to take to your order after November 13 because the student couldn't find a school before the fall ordering deadline, you can contact AP Services to have the late order fee waived for that student. The student must be added to your order by March 12. Contacting AP Services is the only way to have the late order fee waived. See **Students Who Don't Attend Your School and Independent Study Students** in this manual for details.

Student Emergency

Student emergency or unexpected medical situation. If the student is unable to test, schedule the student for the late-testing AP Exam administration, and order that exam.

NEW AP Course Launches

Unused/canceled exam fee not applied: Only in the year the AP Program launches a new AP course, the unused/canceled exam fee will not be applied. In subsequent years, the unused/canceled exam fee will be applicable. For 2026-27, this waiver applies to AP Business with Personal Finance and AP Cybersecurity.

© 2026 College Board

Fees Are Applied

Student Decides Not to Take the Exam

Unused/canceled exam fee applied: Student decides not to take the exam after exam order is submitted, and November 13 final ordering deadline has passed. Reasons include:

- Student's college of choice doesn't award credit for the exam.
- Student who is performing poorly in the class decides after November 13 not to take the exam.
- There are conflicts with regularly scheduled exam administration dates, and student doesn't want to test on any other available scheduled testing dates.

Student Joins or Drops a Class After November 13

Late order or unused/canceled exam fee applied: Student joins or drops* a class after the November 13 final exam ordering deadline. (Late or unused/canceled exam fees aren't applied only if a student transfers to or out of the **school**.)

School Issue

Late order fee applied: Exam orders placed after November 13 due to an outstanding balance hold or a security hold.

School Policy

- **Late order fee applied:** Any local policy that prevents submission of the exam order (in full or for an individual student) by the November 13 final ordering deadline.
- **Late order or unused/canceled exam fee applied:** School decides to move a student into or out* of a full-year AP class after the November 13 final ordering deadline has passed.

*If the student is undergoing circumstances where it's in their best interest to drop their AP class, AP coordinators can call AP Services to request a waiver of the canceled exam fee.

© 2026 College Board

Example Fee Scenarios

This table shows examples of how fees would be applied in certain circumstances. You may find it helpful to refer to these examples if members of your school community have questions about how fees are applied.

Example Scenario	Student Cost
On-Time Exam Order: ▪ By November 13, 2026 (11:59 p.m. ET), for all fall-semester and full-year courses, and exam only sections ▪ By March 12, 2027 (11:59 p.m. ET), for all courses that begin after November 13	Base exam fee ($99, $129), less any applicable fee reductions
Late Order: Student in a full-year course decides after the November 13 final ordering deadline to take an exam; exam is ordered after November 13. **Reminder:** The late order fee is **per exam per student**.	Base exam fee (less any applicable fee reductions), plus $40 per exam late order fee For example: ▪ Schools in the U.S., U.S. territories, and Canada, or DoWEA schools: $99 + $40 *(late order fee)* = **$139** ▪ Schools everywhere else: $129 + $40 = **$169** For students eligible for a College Board fee reduction: ▪ Schools in the U.S., U.S. territories, and Canada, or DoWEA schools: $99 (base exam fee) − $37 (fee reduction) − $9 (school forgoes their rebate) + $40 (late order fee) = **$93** ▪ Schools everywhere else: $129 − $37 − $9 + $40 = **$123**
Canceled or Unused Exam: Student decides not to take an exam, cancellation is submitted by coordinator in AP Registration and Ordering by March 12; or student doesn't take an exam that was ordered for them, coordinator indicates the exam as unused in AP Registration and Ordering. **Note:** Digital exams (including hybrid digital) do not need to be marked as unused by the AP coordinator. This will be automatically updated after the exam for any students who didn't test.	**$40** The base exam fee is removed from the invoice, only the $40 **unused/canceled** exam fee is owed. For example: ▪ $99 − $99 (base exam fee) + $40 (unused/canceled exam fee) = **$40** This fee will be owed even if a student is eligible for College Board fee reductions. NEW Only in the year the AP Program launches a new AP course, the unused/canceled exam fee will not be applied.
Student Transfers Out of Your School: Exam is ordered for a student, student transfers out of the school after November 13. Coordinator indicates the student as **transfer out.** (See page 38 for details.)	The exam fee for the student is removed from the school's invoice. No additional charge is applied. ▪ $99 − $99 = **$0**
Student Transfers To Your School: Student transfers to a school after November 13 exam order is submitted, enrolls using the **transfer code** for a class section or exam only section. (See page 38 for details.)	The student is charged the base exam fee; the late order fee **isn't** applied when they enroll using the transfer code. ▪ $99, $129

© 2026 College Board

Payment Collection and Deadline

Payment is due to College Board by **June 15** (postmark deadline)—not at the time of ordering. Schools determine how and when to collect and track exam payment. Schools are responsible for sending payment to College Board; students do not pay College Board directly for their exams.

If your school collects exam fees:

- Confirm how your school and district plan on collecting other school fees, how you track payments, and how/if you'll issue refunds to students who might decide to cancel their exams.
- Communicate your school's fee collection policies with students and parents early.
- Indicate students who are eligible for the College Board fee reduction in AP Registration and Ordering by **April 30** (see **AP Fee Reduction Policy** below).
- Consider reaching out to AP coordinators on the AP coordinator online community to learn how other schools manage fee collection.

Information is available on AP Central about providers in the AP Exam fee collection providers program. The providers offer a range of payment collection solutions, and all offer fundamental capabilities such as accepting payment and transferring funds. Visit **cb.org/apfeecollection**, and go to the **AP Exam Fee Collection Providers Program** section.

AP Fee Reduction Policy

College Board provides a $37 fee reduction per AP Exam for eligible students with financial need. Schools are expected to forgo their $9 rebate for these students, resulting in a cost of $53 per exam (for international: $83 per exam).

Note the following requirements:

- The College Board fee reduction applies **only** to the base exam cost, not to any other fees (late order fee, unused/canceled exam fee, late-testing fee). For example, if an exam order for a full-year or fall-semester course is submitted for a student after November 13, the late order fee of $40 per exam is applied for that student.
- For your invoice to accurately reflect any fee reductions, you must indicate the fee reduction status for each eligible student in AP Registration and Ordering.
  - For each student who is eligible for the College Board fee reduction, check the box for reduced fee next to their name in the student roster.
  - For students who aren't eligible for the fee reduction, no action is needed.
- Fee reduction status is indicated only once per student, not for each exam.
- Fee reduction status must be indicated each year, even for students who have taken AP Exams in the past and have been marked as eligible for fee reductions. Their fee reduction status **doesn't** carry over in AP Registration and Ordering from year to year, nor does it carry over from other College Board assessments (PSAT-related assessments or SAT®).

See **Indicating Student Fee Reduction Status** in the How to Use AP Registration and Ordering section of this manual for instructions.

© 2026 College Board

Deadline to Indicate Fee Reduction Status

To be properly credited, the fee reduction status for each eligible student must be indicated in AP Registration and Ordering by **April 30, 2027 (11:59 p.m. ET)**.

Include all students who intend to take AP Exams in your exam order by the ordering deadline, even if you haven't yet confirmed students' fee reduction status. A best practice is to indicate fee reduction status for each student by the time you submit your exam order. However, if you need more time to verify this information, you can update students' fee reduction status through AP Registration and Ordering after submitting your exam order, but no later than **April 30**.

After April 30 11:59 p.m. ET, you won't be able to make changes to fee reduction status.

Fee Reduction Eligibility Criteria

College Board has different eligibility criteria for AP Exam fee reductions depending on whether a school or district participates in the Community Eligibility Provision (CEP), a program that enables high-poverty U.S. schools and districts to offer breakfast and lunch at no charge to all students.

Schools and districts that meet the criteria and choose to participate in CEP can't use a student's enrollment in CEP to determine eligibility for AP Exam fee reductions, because all students in these schools or districts, regardless of family income, are automatically eligible for free meals. Accordingly, CEP schools and districts must determine each student's eligibility for AP Exam fee reductions.

The AP coordinator must determine eligibility using the criteria below and on the next page. The AP Program reserves the right to audit fee reductions indicated by a school.

Primary Criteria for Schools/Districts Not Participating in the Community Eligibility Provision

Schools and districts that **don't** participate in the Community Eligibility Provision can still use enrollment in or eligibility to participate in the **National School Lunch Program (NSLP)** as a proxy to determine eligibility for AP Exam fee reductions. For these schools/districts, use the following primary criteria:

Students who are either enrolled in or eligible to participate in the NSLP qualify for the AP Exam fee reduction on all AP Exams they take in a given year. Students are eligible for free or reduced-price meals if:

- Their family's annual income falls within the Income Eligibility Guidelines set by the United States Department of Agriculture (USDA) Food and Nutrition Service, or
- The students are categorically eligible to be directly certified without application for free school meals because they are:
  - In households participating in the Supplemental Nutrition Assistance Program (SNAP), Temporary Assistance for Needy Families (TANF), the Food Distribution Program on Indian Reservations (FDPIR), or in some states, Medicaid benefits, or
  - Unhoused, migrant, runaway, or in foster care, or
  - Enrolled in a federally funded Head Start program.

© 2026 College Board

Primary Criteria for Schools/Districts Participating in the Community Eligibility Provision

Students are eligible for the AP Exam fee reduction on all AP Exams they take in a given year if:

- Their family's annual income falls within the Income Eligibility Guidelines set by the United States Department of Agriculture (USDA) Food and Nutrition Service, or
- They qualify as an "identified student" because they are:
  - In households participating in the Supplemental Nutrition Assistance Program (SNAP), Temporary Assistance for Needy Families (TANF), the Food Distribution Program on Indian Reservations (FDPIR), or in some states, Medicaid benefits, or
  - Unhoused, migrant, runaway, or in foster care, or
  - Enrolled in a federally funded Head Start program.

Alternative Criteria for All Schools/Districts

If your school prefers to use another method for determining which students qualify for AP Exam fee reductions, **any** of the following criteria are allowed:

- The student is enrolled in a federal, state, or local program that aids students from low-income families (e.g., Federal TRIO programs such as Upward Bound).
- The student's family receives public assistance.
- The student is unhoused or resides in federally subsidized public housing or a foster home.
- The student is a ward of the state or an orphan.

USDA Food and Nutrition Service Income Eligibility Guidelines for 2026-27

The following table lists annual family income, by family size, at 185% of the poverty level. If the student's annual family income falls within the amount listed in the relevant row and column, that student qualifies for an AP Exam fee reduction.

Size of Family Unit	Annual Family Income* for 48 Contiguous States, Washington, D.C., Guam, and U.S. Territories	Annual Family Income* for Alaska	Annual Family Income* for Hawaii
1	$29,526	$36,908	$33,966
2	$40,034	$50,043	$46,047
3	$50,542	$63,178	$58,127
4	$61,050	$76,313	$70,208
5	$71,558	$89,448	$82,288
6	$82,066	$102,583	$94,369
7	$92,574	$115,718	$106,449
8	$103,082	$128,853	$118,530
For each additional family member, add:	$10,508	$13,135	$12,081

*The figures shown under annual family income represent amounts equal to 185% of the 2026 federal income poverty guidelines issued by the U.S. Department of Health and Human Services. These levels were published by the USDA Food and Nutrition Service in the Federal Register, Vol. 91, No. 68, 4/9/2026, p. 17932–17935. These Income Eligibility Guidelines are effective from July 1, 2026 through June 30, 2027.

© 2026 College Board

Schools Outside the United States

College Board provides a fee reduction of $37 per AP Exam for qualifying low-income students in schools outside the United States. Student eligibility for fee reductions is determined by the AP coordinator. The AP Program reserves the right to audit fee reductions indicated by a school. AP coordinators should be able to produce documentation verifying fee reduction claims.

The fee reduction is available for any student whose annual family income falls within the Income Eligibility Guidelines set by the United States Department of Agriculture (USDA) Food and Nutrition Service. To determine if your students meet these guidelines, refer to the "Annual Family Income for 48 Contiguous States, Washington, D.C., Guam, and U.S. Territories" column in the USDA Food and Nutrition Service Income Eligibility Guidelines for 2026-27 table (see the previous page), and convert American dollars into your country's currency.

State Subsidies

Many states provide funding to reduce the exam fee for students. Updates about state fee assistance for 2027 will be posted on **cb.org/apexamfeeassistance** as soon as each state's funding plan is finalized.

College Board and states are working together to provide information about 2027 subsidies in advance of the November 13 final ordering deadline wherever possible, but in some cases states won't be able to finalize their subsidies until later in the school year.

If Your State Requires Students to Be Enrolled in a Course

Some states require students taking an AP Exam to be enrolled in the corresponding course in order for those students to receive state funding for their exam. Students solely enrolled in an exam only section for a given AP subject won't receive state funding in this case. For example, students taking AP courses at a virtual school must be enrolled in both the exam only section at the school where they'll be taking the exam and a class section for the corresponding course through their virtual school.

If Your State Eliminates Its Subsidy

If your state provided a subsidy for low-income students' AP Exams in 2026 and the subsidy is eliminated after you've submitted your exam order, the AP Program will waive any canceled or unused exam fees incurred for students eligible for a College Board fee reduction who decide not to test. If students choose to take their exams, the amount that will be calculated on your invoice for these exams will reflect your state's available funding as of the time the invoice is generated.

Students' fee reduction status must be accurately indicated in AP Registration and Ordering in order for fees to be waived.

Subsidy Filter for Schools That Receive State Financial Assistance

A subsidy filter is available in AP Registration and Ordering for schools that receive state subsidies. It's located with the other filters on the **Students** page. Coordinators can use this filter to view their anticipated invoice once state subsidies are applied. Schools that don't receive state subsidies won't see this filter.

© 2026 College Board

Late-Testing Exams

Some circumstances may make it necessary for students to test late. To preserve the security of AP Exams, College Board develops alternate versions of each exam for late testing. **Regularly scheduled exams can't be used for late testing.** If administering late testing, your school must order a late exam.

If a school administers late-testing exams, students must test on the **scheduled late-testing dates (May 17–21, 2027)** at the **scheduled times**. See the complete late-testing exam schedule at **cb.org/apexamdates**. If a school fails to follow AP security procedures and doesn't administer the late-testing exams on the specified dates at the specified times, scores for those exams will be canceled.

Inform students testing late that their scores for late-testing exams may be reported later than for regularly scheduled exams.

The AP Program works to provide testing opportunities for all schools and students who want to test. When circumstances beyond the control of the school and student won't allow for testing on the regularly scheduled or late-testing dates, schools may be eligible to administer exams immediately following the late-testing window. For more information, contact AP Services.

Ordering Late-Testing Exams

Late-testing exams must be ordered through AP Registration and Ordering.

See pages **90–91** for instructions on indicating late-testing orders in AP Registration and Ordering.

If you know in advance that a student will need to take an exam on the late-testing date, account for this in the order you submit by November 13, 2026 (or by March 12, 2027, for courses that start after the November ordering deadline).

New exam orders for full-year courses submitted after November 13, 2026, will incur a $40 per exam late order fee (except in the situations listed on page **34**). If applicable, the late-testing fee would be in addition to the late order fee. However, most reasons for late testing don't incur the additional late-testing fee. (See the list on the next page for details.)

As part of your exam order management, switch exam orders from standard to late testing by the March 12 spring course orders and fall order changes deadline for any students who you know will need to take exams during the late testing exam administration. After March 12, if unanticipated events arise, you can still switch existing exam orders for students from regular to late testing if needed.

Late-Testing and Accommodations

SSD If a student with extended time accommodations is scheduled to take two exams on the same day due to the 2027 AP Exam Schedule, the student should instead plan to take a late-testing exam for one of the subjects. Work with the student to determine which late-testing exam to order.

If you know before the ordering deadlines that a student with accommodations will need a late-testing braille or large-print format exam, you may order these exams through AP Registration and Ordering.* (See **Ordering Exams for Students with Accommodations** in this manual for details.) However, if an unanticipated event occurs during the regularly scheduled AP Exam administration that requires you to order a late-testing braille or large-print format exam, call the College Board SSD office immediately.

* For fully digital and hybrid digital AP Exams, paper format exams can be ordered only if the student has been approved for paper testing by the College Board SSD office. See page **93** for details.

© 2026 College Board

Late-Testing Reasons

When the cause of late testing is beyond the control of the school and the student, there's no additional fee. See the list below for late-testing reasons that don't incur an additional fee.

Among the reasons schools may be charged the $40 per exam fee for late testing is when retesting is necessary due to security violations.

If a reason for late testing incurs the late-testing fee, the fee is applicable even if the student is eligible for a College Board fee reduction.

If a school provides late testing, they must follow the late-testing policies described in this manual.

NOTE: If your school has lost a significant number of net instructional days, contact AP Services before March 12, 2027 for information about late testing options.

Below are circumstances when late testing is allowed without incurring an additional fee. AP coordinators indicate the late-testing reason in AP Registration and Ordering.

NOTE: The late-testing fee is applied if "Reason Not Listed" is selected.

Late-Testing Reasons: No Additional Fee
Academic contest/event
Athletic contest/event
Conflict with IB or Cambridge exam
Conflict with nationally, province-, or state-mandated test
Delayed shipment
Digital testing logistics
Disabilities accommodations issue
Emergency: bomb scare or fire alarm
High school graduation
Language lab scheduling conflict
Makeup AP Exam due to an incident during the initial exam
Religious/holiday observance
School closing: election, national holiday, natural disaster, or regional crisis.
Serious injury, illness, or family tragedy
Strike/labor conflict
Student court appearance
Two or more AP Exams on the same date at the same time

© 2026 College Board

Specific Ordering Policies

This section provides details about exam ordering policies. All details about how to manage and submit your exam order are in the **How to Use AP Registration and Ordering** section of this manual.

Eligibility to Test: Students Must Be in High School

Only high school-affiliated students can take exams, at either their own enrolled high school or at other AP-authorized high schools and test centers. "High school-affiliated" means: students actively enrolled at a high school, or high school-level students who are homeschooled, participate in independent study, and/or attend virtual schools; and any actively enrolled students who may be prepared to take an AP Exam prior to the ninth grade, or recent high school graduates who need a specific AP Exam for university admission.

Exams Are Ordered per Student

When you submit your exam order, you'll be ordering the exact number of exam(s) for each student included in your roster in AP Registration and Ordering. This means:

- Schools can't give an exam ordered for one student to another student who wasn't part of the exam order. This is applicable for all exams (fully digital, hybrid digital, or other).
- If a student takes an exam that wasn't ordered for them, the student's exam score may not be reported.

Students may take as many AP Exams as they want, with the following qualifications:

- A student may not take an exam more than once in the same year. However, a student may repeat an exam in a subsequent year. In such cases, both scores will be reported unless the student requests that one be withheld or canceled.
- **AP Calculus:** Students **may not** take both AP Calculus AB and AP Calculus BC within the same year.
- **AP Art and Design:** A student may submit more than one AP Art and Design Exam, but each must be a different type of portfolio. For example, a student can't submit two AP Drawing Exams in the same year. A student may not duplicate images or works when submitting multiple portfolios. A student must be enrolled in an AP Art and Design class section in order to submit through the AP Digital Portfolio for scoring.
- **AP Capstone courses – Seminar and Research:** A student must be enrolled in an AP Seminar or AP Research class section in order to take the end-of-course exam (AP Seminar) or submit performance tasks (AP Seminar or AP Research). **Note:** AP Research doesn't have an end-of-course exam, but an exam must be ordered for a student to submit their performance task through the AP Digital Portfolio for scoring.

Courses That Begin After November 13

Exam orders for courses that start after the November 13 final ordering deadline—i.e., spring-semester, trimester, or some block schedule courses—**don't** incur the late order fee. For courses that start after November 13, you'll create "spring-semester only" class sections in AP Registration and Ordering. The exam orders for courses that start after the final ordering deadline must be submitted by **March 12, 2027 (11:59 p.m. ET)**.

There's not an option in AP Registration and Ordering to create a spring-semester exam only section. However, you can order exams for students who may be taking a spring-semester course at another school and taking the exam at your school without incurring a late order fee. (See page 69 for details.)

See pages 66–69 for instructions about creating class sections for courses that begin after November 13.

© 2026 College Board

SSD Exams for Students with Accommodations

See pages **93–95** for details about ordering exams for students with accommodations.

Students with documented disabilities and College Board–approved accommodations may require special exam formats or materials, such as braille, large-print, or multiple-day testing. At the beginning of the school year, work with your school's SSD coordinator to identify all students with approved or expected accommodations and confirm what their approved or expected accommodations are.

In AP Registration and Ordering, you'll be able to indicate or confirm per student any special exam formats or materials needed.

- You'll be able to search for students with an SSD ID and view the status of accommodations requested for students, which will help to inform your exam order.
- It's still important to work with your school's SSD coordinator to account for students who will likely need accommodations, but whose requests either haven't yet been submitted or haven't yet been approved by College Board.

Important Details About Exams for Students with Accommodations

To learn more about how accommodations work, review the **AP Accommodations Guide**. The 2026-27 guide will be released in mid-December.

Include students in your exam order by the November 13 final ordering deadline even if they've not yet been approved for accommodations. You'll be able to update existing orders as needed once a student has received approval for accommodations from the College Board SSD office. See pages **93–95** for details about ordering exams for students with accommodations.

Submitting Requests for Accommodations

Students with documented disabilities may be eligible for accommodations on AP Exams. However, to take an AP Exam with accommodations, a student must be approved for accommodations by the College Board SSD office (**collegeboard.org/ssdonline**). **Providing accommodations to students without College Board approval will result in cancellation of these students' scores**.

Once approved for accommodations, with some exceptions, a student remains approved across all College Board programs (AP, PSAT™ 10, PSAT/NMSQT, and SAT) and doesn't need to submit another accommodations request. However, it's critical that students and schools clearly identify the accommodations needed for each test as additional accommodations may be needed. These tests have different components and testing conditions, and what may be appropriate for one test may not apply to another test.

- For example, a student approved for extended time for math only wouldn't receive extended time for AP English Literature and Composition.

© 2026 College Board

Additionally, some accommodations are administered differently across College Board programs.

- For example, for AP, a student approved for extended time won't automatically be provided extra breaks. A student requiring extra breaks must apply for that specific accommodation for AP Exams.

NOTE: If a student who was previously approved for accommodations by College Board changes schools, the SSD coordinator at the new school can use SSD Online to request the student be moved to their SSD Online Dashboard. The student and parent are responsible for informing the new school of the student's prior approved accommodations. If the SSD coordinator confirms there are no changes to the student's accommodations, nothing further is required. If a student's accommodations needs have changed, the school should submit a request in SSD Online to add new accommodation(s) or request for an accommodation to be removed from the student's profile.

Submit Accommodations Requests Through SSD Online

Requests for accommodations and complete documentation (if required) must be submitted to College Board by **January 22, 2027**, to ensure that decisions are made in time for exam orders to be finalized and exam materials to be shipped. Schools use SSD Online to submit requests.

Requests should be submitted as early in the school year as possible. Visit **collegeboard.org/ssdonline** for more information about submitting, tracking, and managing requests for accommodations.

Temporary assistance for a student who has a temporary medical or physical condition (e.g., a broken hand) is also requested through SSD Online. Review the **AP Accommodations Guide** for details.

If a student needs to submit the request on their own—for instance, a homeschooled student—the student or their family can go to **Requesting Without Going Through the School**.

SSD Online is a **separate** system from AP Registration and Ordering. Requests for accommodations aren't submitted through AP Registration and Ordering.

© 2026 College Board

See pages **81–83** for details about updating your order to account for transfer students—including obtaining the **transfer code** and indicating students as **transfer out**.

Transfer Students To or Out of Your School

You'll be able to adjust orders for students who transfer to or out of your school without incurring additional fees regardless of when they enter or leave your school. This policy applies only to students who transfer to or out of your **school**; this doesn't apply to students at your school who join or drop an AP class after the November 13 final ordering deadline.

Specific actions need to be taken to accurately account for transfer students:

- Students who transfer **to** your school need to enroll using a unique **transfer code** (not the join code) for each of their class sections or exam only sections. They also need to update their school code in their AP Profile in My AP (**myap.collegeboard.org**).
- Students who transfer **out** need to be indicated as **transfer out** in AP Registration and Ordering. Your ability to do this isn't dependent on the student being enrolled in their new school.

Students Who Don't Attend Your School and Independent Study Students

Parents and students cannot order AP Exams directly. Students who are homeschooled, are independent study students, attend virtual schools, or attend schools that don't administer AP Exams will need to find a school where they can test. The AP Program encourages AP coordinators to assist these students.

In the descriptions in this publication:

- "Virtual schools" are those that exclusively offer online learning.
- Similarly, "homeschooled students" are those who regularly and exclusively learn through a designated homeschool.

Homeschooled students and students whose schools don't offer their AP subjects need to do the following **as early in the school year as possible**:

- Use the AP Course Ledger (**cb.org/apcourseledger**) to look up nearby schools that offer the AP courses for the exam subjects they want to take and where they might be able to test.
- Contact the nearby schools, and ask to speak with the AP coordinator to see if one of them can arrange testing. Students should remember that schools may have their own local deadlines and policies regarding testing outside students.

If your school agrees to order and administer exams to these students:

- ☐ Inform the students of exam fees and your school's ordering deadline.
- ☐ Create an exam only section for each exam subject being taken at your school by a homeschooled student, independent study student, or student from another school (including a virtual school).
- ☐ Let students know if they need to bring a testing device or if one will be provided. They can learn what else to bring at **bluebook.org/guest-students**.
- ☐ Provide the join code for the exam only section to the student, so the student can enroll in the section in My AP. Only the AP coordinator can create and provide the join code for an exam only section.
- ☐ Review the student's information in your exam roster, and order the necessary exams.
- ☐ Inform the students when and where to take the exams.
- ☐ Plan to collect and submit their exam fees with those from your school. Schools may charge students a higher fee to recover additional proctoring or administration costs.

See pages **68–69** for details about creating an exam only section.

BEST PRACTICE: *It's recommended that you create a separate exam only section specifically for each exam subject being taken at your school by these students, so you can easily track them in your student roster.*

© 2026 College Board

Exam Ordering Deadline

Include homeschooled students, independent study students, or students from other schools in your order by **November 13**.

If a homeschooled student or a student whose school doesn't administer AP Exam(s) contacts you after the November ordering deadline, you can add them to your exam order. If the reason you're adding the student to your order after November 13 is because they couldn't find a school before the fall ordering deadline to order and administer their 2027 AP Exam(s), you can contact AP Services no later than March 12 to request the late order fee be waived. This applies only for homeschooled students and students whose school doesn't administer the AP Exam(s) they're planning to take. These students must be included in your exam order by March 12.

AP Classroom Access

All students—including those in exam only sections—will have access to select course resources in AP Classroom once they go to My AP and enter a join code to enroll in a class section. Students enrolled in exam only sections **won't** have access to AP Classroom resources that can only become available when assigned by the class section teacher. However, if a student is enrolled in both an exam only section and a teacher-led class section, the student will have access to assignments from the teacher of the teacher-led class section.

For example, if a student taking an AP Biology class through a virtual school is enrolled in a class section for the course through the virtual school, and enrolled in an exam only section for the school where they'll be taking the exam, the student will have access to the AP Biology resources that the virtual school teacher assigns through AP Classroom.

Some resources are available by default and do not need to be assigned by a teacher. For example, students enrolled in AP Chinese, French, German, Italian, Japanese and Spanish Language and Culture will have automatic access to course project preparation materials in AP Classroom without the need for a teacher to assign them.

Additional Class Section Information for Virtual School Students

In addition to being able to access AP Classroom assignments from teachers, there are several other reasons why students from virtual schools may need to be enrolled in both a class section through their course provider and the exam only section through your school.

- **Score Reports:** For the virtual school to receive the student's score report, the student needs to be enrolled in the class section for the course through their virtual school in addition to the exam only section at your school.
- **State Subsidies:** If a state requires students taking an AP Exam to be enrolled in the corresponding course in order to receive state funding for their exam, students need to be enrolled in a class section through their virtual school to be eligible for state funding.
- **Spring-Semester Courses:** If a student is taking a spring-semester course through their virtual school, you may need to submit their exam order after November 13. In this case, the student needs to be enrolled in **both** an exam only section at your school and a spring-semester only class section through their provider so that the late order fee won't be applied. You'll need to submit the exam order by March 12.

See **AP Fee Reduction Policy** in this manual for state subsidy details.

See **Creating AP Class Sections and Exam Only Sections** for details.

© 2026 College Board

Homeschool, Independent Study, and Online Providers

When a student provides their registration information in My AP, they can search for their state or country plus "home school" (e.g., New Jersey Home School) and select this entry.

An education provider will receive a student's score report as long as the student joins a class section in My AP through the provider.

The *2026-27 AP Coordinator's Manual, Part 2* will have details about administering exams to homeschooled students and students from other schools.

Multischool Exam Centers

Schools near each other may administer AP Exams together by forming a multischool exam center. Such a center requires only one AP coordinator, who is designated in AP Registration and Ordering. **This designated coordinator is responsible for ordering all AP Exams for all of the schools in their multischool exam center. All paper exam materials (e.g., hybrid digital exam free-response booklets) must be placed in secure storage at the designated coordinator's school until exam day.**

If you're the AP coordinator for a multischool exam center:

- ☐ Make sure you're indicated as the AP coordinator for each school you represent.
- ☐ For each school in the multischool exam center, the designated coordinator should create an exam only section at the designated coordinator's school for each course for which students will be testing. (See pages **68–69** for details about creating exam only sections.)
- ☐ Share the join code for each exam only section with the appropriate students.
- ☐ Organize the exam order for each school you represent.
- ☐ Submit the multischool exam center order by the November 13 final ordering deadline (or by March 12, 11:59 p.m. ET for courses that begin after November 13). Refer to **For Students Taking Courses That Begin After November 13** for details about ordering exam only exams for spring semester courses without incurring the late order fee.

The *2026-27 AP Coordinator's Manual, Part 2* will have details about how multischool exam centers administer exams.

© 2026 College Board

Subject-Specific Information

A few subjects have specific details that impact class section setup, enrollment, and exam ordering.

AP African American Studies

The AP African American Studies Exam consists of an end-of-course fully digital AP Exam and a student presentation which is scored by the teacher. The AP African American Studies teachers use the AP Digital Portfolio to enter student presentation scores.

For Homeschooled or Virtual School Students

Homeschooled and virtual school students who wish to participate in AP African American Studies have the opportunity to do so through a virtual or local brick-and-mortar school.

Your school must provide the student with a teacher who will score their presentation. This teacher must score the presentation using the AP African American Studies Individual Student Project Rubric.

- If the teacher identified for project scoring is already course-audit approved for AP African American Studies: Create a full-year class section for the independent-study student by November 13 in AP Registration and Ordering, and assign this teacher.
- If the teacher isn't course-audit approved for AP African American Studies: You must contact AP Services at **cb.org/apeducatorcontact** (select the Exam Ordering topic) by March 12 to add this teacher as a replacement teacher.
- If you haven't identified a teacher by November 13, create an exam only section for the student so you can place the order by the November 13 deadline. Once the teacher has been added, create a full-year class section. Move the student to this section so they can have their presentation scored. A student without an assigned teacher won't be able to earn points for the presentation.

This course involves scoring of the student project presentation by the classroom teacher; therefore, to avoid any perceived conflict of interest, no AP African American Studies teacher should be the classroom teacher for any student who is an immediate family or household member and is enrolled in AP African American Studies because this would put the teacher in the position of scoring official AP assessments. To avoid a perceived conflict of interest, College Board recommends that the immediate family or household member who is enrolled in AP African American Studies should be transferred to another class section that's taught by another teacher who doesn't pose a conflict of interest.

AP Art and Design

AP Art and Design Exams are submitted by students through the AP Digital Portfolio. Details about the Art and Design submission process are available at **apstudents.org/artdesign**.

You'll order AP Art and Design Exams along with all other AP Exams in AP Registration and Ordering. Order an AP Art and Design Exam for each student enrolled in the course, even though there's no end-of-course exam. Without an exam order, students' portfolios won't be scored.

© 2026 College Board

If your school has combined Art and Design classes, you need to create class sections in AP Registration and Ordering for each portfolio type offered at your school to order the portfolios.

- For example, if Period 1 Art and Design has students studying AP 2-D Art and Design and students studying AP Drawing, you need to create two class sections: "Period 1, AP 2-D Art and Design" and "Period 1, AP Drawing."

As with all AP Exams, if you're ordering Art and Design Exams for students who are homeschooled or independent study students, you must create an **exam only section** for these students in AP Registration and Ordering and give them the appropriate join code.

See pages **88–89** for details about switching a student's exam order from one AP Art and Design Exam to a different AP Art and Design Exam.

Switching an AP Art and Design Exam for a Student

If you order an AP Art and Design Exam for a student, and they indicate after the November 13 ordering deadline that they want to switch to a different type of Art and Design Exam, you may switch the student's Art and Design Exam in AP Registration and Ordering by March 12, 2027 (11:59 p.m. ET) without incurring the late order or unused/canceled exam fee.

Important:

If a student isn't sure which type of AP Art and Design portfolio they'll ultimately want to submit in May, you should order only one AP Art and Design Exam for the student when you submit your initial exam order. Order the exam for the portfolio type they think they're most likely to submit. Then, if they change their mind later, you can switch their order to another type of Art and Design portfolio.

For example, if you ordered an AP 2-D Art and Design Exam for a student and the student later decides they want to instead submit an AP Drawing portfolio, the student must first enroll in the AP Drawing class section, then you may switch this student's existing order in AP Registration and Ordering from AP 2-D Art and Design to AP Drawing. After switching the exam, you need to submit the change to your exam order.

AP Capstone (AP Seminar and AP Research)

The AP Capstone Diploma™ program consists of AP Seminar and AP Research. For both exams, students submit through-course assessments for scoring through the AP Digital Portfolio as well as access Academic Search Ultimate, a database provided by EBSCO®, and Turnitin®. In AP Seminar, students also take a fully digital end-of-course AP Exam.

AP Seminar and AP Research teachers use the AP Digital Portfolio to enter student presentation scores and complete checkpoint affirmations. In addition, AP Seminar teachers publish stimulus materials to students and create student teams.

AP coordinators log in to the AP Digital Portfolio to check the final submission status of students' performance tasks and the status of teacher score entries and checkpoint affirmations. Details about the AP Digital Portfolio for AP Seminar and AP Research are available at **cb.org/apdigitalportfolio**.

REMINDER: Order an AP Research Exam for each student enrolled in the course, even though there's no end-of-course exam. Without an exam order, their performance task won't be scored.

As with all AP Exams, if you're ordering exams for students who are taking an AP Seminar or AP Research class through an online provider or for students who are homeschooled, you must create an **exam only section** for these students in AP Registration and Ordering and give them the appropriate join code.

© 2026 College Board

AP Seminar and AP Research students who are homeschooled or taking the class through an online provider must be enrolled in **both** an exam only section and a teacher-led class section so they can access resources assigned by the teacher, and the teacher can submit these students' presentation scores and checkpoint affirmations in the AP Digital Portfolio.

See pages **68–69** for instructions about creating an **exam only section.**

Required Training for AP Seminar and AP Research Teachers

All AP Seminar and Research teachers must attend a one-time, required AP Summer Institute in order to complete the AP Course Audit process and access the AP Digital Portfolio. In addition, all AP Seminar and AP Research teachers must take and pass online assessment scoring training during the school year in order to score their students' presentations—this is an annual requirement for all AP Capstone teachers that is separate from the AP Summer Institutes for new teachers.

The *2026-27 AP Coordinator's Manual, Part 2* will contain more information about AP Capstone, including details about the AP Digital Portfolio.

AP Computer Science Principles

The AP Computer Science Principles (CSP) Exam consists of an end-of-course fully digital AP Exam, as well as the through-course Create performance task, which students submit through the AP Digital Portfolio. Details about the AP Digital Portfolio for AP CSP are available at **cb.org/apdigitalportfolio**.

As with all AP Exams, if you're ordering exams for students who are taking an AP CSP class through an online provider, or for students who are homeschooled or virtual school students, you must create an **exam only section** for these students in AP Registration and Ordering, and give them the appropriate join code.

The *2026-27 AP Coordinator's Manual, Part 2* will contain more information about AP Computer Science Principles, including details about the AP Digital Portfolio.

AP Latin

The AP Latin Exam consists of an end-of-course fully digital AP Exam scored by AP Readers and two in-class checkpoint tasks scored by the teacher. AP Latin teachers use the AP Digital Portfolio to enter student checkpoint scores.

For Homeschooled or Virtual School Students

Your school must provide the student with a teacher who will score their checkpoint tasks. This teacher must review the checkpoint scoring guidelines (posted in AP Digital Portfolio and published in the **AP Latin Course and Exam Description**) and must score the checkpoints accordingly.

- If the teacher identified for scoring is already course-audit approved for AP Latin: By the November 13 AP Exam ordering deadline, create a full-year class section in AP Registration and Ordering with this teacher assigned to it, have the student enroll in the class section, and order the exam.
- If the teacher identified for scoring isn't course-audit approved for AP Latin: By March 12, contact AP Services (**cb.org/apeducatorcontact**) to add this teacher as a replacement teacher. Select "Exam Ordering" from the dropdown.

© 2026 College Board

- If you haven't identified a teacher by the November 13 exam ordering deadline, create an exam only section for the student so you can place the order by the deadline. Once the teacher has been added, create a full-year class section. Move the student to this section so they can have their checkpoint tasks scored. A student without an assigned teacher won't be able to earn points for the checkpoints.

This course involves scoring of the student's checkpoint tasks by the classroom teacher; therefore, to avoid any perceived conflict of interest, no AP Latin teacher should be the classroom teacher for any student who is an immediate family or household member and is enrolled in AP Latin because this would put the teacher in the position of scoring official AP assessments. To avoid a perceived conflict of interest, College Board recommends that the immediate family or household member who is enrolled in AP Latin should be transferred to another class section that's taught by another teacher who doesn't pose a conflict of interest.

AP World Languages and Cultures

NEW At the beginning of the school year AP coordinators create class sections in AP Registration and Ordering and students enroll in the sections. Once enrolled, students are added to AP Classroom and to the AP Digital Portfolio. No additional setup is required.

Important Changes:

- All six AP world language and culture exams and the AP Spanish Literature and Culture Exam will be delivered through Bluebook as fully digital exams, with responses to multiple-choice and free-response questions submitted automatically at the end of the exams. Paper exams, answer sheets, free-response booklets, CDs, CD players, the DAC app, and the DAS portal will no longer be used.
- The core Bluebook and Test Day Toolkit workflows will be familiar to schools already administering digital AP Exams, however for the six AP world language and culture exams, the free-response section now precedes the multiple-choice section. The sequence of the exam remains unchanged for AP Spanish Literature and Culture.
- For all six AP world language and culture exams, students need a wired headset with a microphone for both audio playback and spoken response recording. For AP Spanish Literature and Culture Exams, a wired headset is required for audio playback; a microphone is not required. Both school-owned and personal wired headsets are permitted. Personal headsets are not permitted at international test centers. Wireless headsets are not permitted. Detailed specifications are available at **cb.org/ap-headsets**. AP coordinators are responsible for ensuring students have compliant wired headsets and microphones before testing begins.
- The six AP world language and culture exams include a new project component in which students complete research during the year. The project prompt and source materials are released in January via the AP Digital Portfolio, and students work on their projects from January through April and submit a Personalized Project Reference (PPR) through the AP Digital Portfolio by April 30. On exam day, students reference their PPR when completing the Project Presentation free-response question.
- AP coordinators download and print each student's submitted PPR from the AP Digital Portfolio and ensure proctors distribute them to the correct students before testing begins. AP Spanish Literature and Culture does not have a PPR. All other exam content and responses are handled entirely in Bluebook.

© 2026 College Board

Exam Only Sections

Students not enrolled in a teacher-led course who are taking an exam require the AP coordinator to create an exam only section in AP Registration and Ordering. For additional information about exam only sections, see page **68**.

Exam only students taking the six AP world language and culture exams will require additional support from the AP coordinator:

- Exam-only students will participate in the AP world language and culture course project through the AP Digital Portfolio. As outlined in the course and exam description, all students are expected to engage with the project prompt and source materials, conduct independent research, and deliver their Project Presentation and Project Q&A on exam day in Bluebook.
- For students in exam-only sections, the AP coordinator will serve as the primary point of contact for support to help ensure access and completion of required components. Specifically, coordinators will confirm that students can access course project materials in the AP Digital Portfolio in January, ensure students submit their Personalized Project Reference (PPR) by April 30, and print and provide the PPR to the proctor for distribution on exam day. Schools may choose to assign this responsibility to another educator or staff member if that is a better fit for their local context.
- To support this process, College Board will publish structured guidance for coordinators and students, including instructions for accessing materials, submitting the PPR, and understanding project expectations, as well as communications to help keep students on track. These supports are designed to minimize administrative burden while enabling exam-only students to navigate project requirements independently.
- Exam-only students will also be encouraged to leverage available resources in AP Classroom, including the project manual and sample project, to carry out their project and prepare for the speaking free-response questions on exam day. This approach is intended to maintain equitable access to the assessment while allowing schools flexibility in how they provide local support.

Additional information about the PPR and administering these exams will be in the *2026–27 AP Coordinator's Manual, Part 2* and published on AP Central in early 2027.

© 2026 College Board

AP ID Label Sheets

You can download a student roster through AP Registration and Ordering that lists the AP ID for every student enrolled in a class section. See page **77**.

When a student provides their registration information in My AP when first enrolling in a class section, the student is assigned a unique, alphanumeric code known as an **AP ID**. Once an AP ID is assigned to a student, it remains their AP ID every year they take an AP course or exam.

NEW Beginning in 2027, students registered for hybrid digital or accommodated paper AP Exams will receive a separate AP ID label sheet for each exam they are taking, rather than a single sheet listing their full exam schedule. Each label sheet will display only the exam it corresponds to. Students place AP ID labels on paper exam materials, connecting their materials with the registration information they've provided.

More details about the updated AP ID label sheets—including information about tracking, receiving, checking, and storing your shipment of label sheets and how the label sheets are used on exam day—will be in the *2026-27 AP Coordinator's Manual, Part 2*.

© 2026 College Board

How to Use AP Registration and Ordering

This section provides details about the four key steps for your school leading up to the November 13 final ordering deadline:

1. Setting up AP registration and ordering
2. Creating AP class sections and exam only sections
3. Helping students enroll in their AP class sections
4. Ordering AP exams

SSD There are additional steps related to updating exam orders based on students' accommodations. To learn more, review the ***AP Accommodations Guide***, available in mid-December.

1. Setting Up AP Registration and Ordering

Learn how to:

- Access AP Registration and Ordering.
- Complete initial setup in AP Registration and Ordering.
- Set your student exam decision indicator setting preference.
- Update the AP coordinator or school information.

Updates to Setup

NEW Starting in 2026-27, the following updates are part of the setup process in AP Registration and Ordering:

- AP coordinators will review and accept the **AP Exam Ordering and Administration Terms** during setup (page 55). There is no longer a separate AP Participation Form generated after setup.
- On the **BigFuture School and Connections** step (page 56), AP coordinators at eligible schools can enable access for AP students at their school to the BigFuture School mobile app and Connections program, or to only BigFuture School. There's also an option to opt out of both. If AP coordinators opt in for their school, students can choose whether to participate when they complete registration in My AP.

AP Registration and Ordering Access Code

On **August 3, 2026**, AP coordinators and principals receive an email with their school's unique coordinator access code for the 2026-27 school year.

- The email is sent to the AP coordinator on record for your school. If you are a new AP coordinator or if you don't receive the email, check with your principal, or call AP Services to have the code sent to your principal.
- The access code is specific to the 2026-27 school year. You can't use last year's code.
- Access codes are active between August 3 and July 31 of the following year, to give coordinators time within the score reporting window to access their information from the past year.
- You'll need to enter this year's access code when you first sign in starting on August 3, even if you've already been using AP Registration and Ordering over the summer using access from last year's code.
- Entering the new code establishes your access for the year. If information was entered for 2026-27 before August 3—such as class sections created by you or teachers, or setup information—it will be preserved after you enter this year's access code.

This year's AP Registration and Ordering access code is emailed to AP coordinators and principals on **August 3**.

See the **Resources and Tools for AP Teachers and Students** section of this manual for details about student and teacher access.

© 2026 College Board

When you've received the AP Registration and Ordering access code:

1. Go to **myap.collegeboard.org** or to AP Central. Sign in with your College Board login information. (Note: If you don't already have an account, create a new one. Accounts must use school email addresses. Don't create multiple accounts. You may already have a College Board account if you've worked with PSAT-related assessments, SAT, or CLEP®.)
2. Select that you're signing in as a coordinator.
3. Enter the access code and your school name when prompted.
4. Review and accept the AP Terms of Service.

Administrator Access Code

On the personalized homepage that you'll see whenever you sign in, you'll also be able to view the **administrator access code** for your school (see page **59**).

- You can share this administrator access code with up to five staff members at your school who would like view-only access to AP Registration and Ordering.
- Staff who use this access code won't be able to add, delete, or change any information.

It's important to share the **administrator access code**—not the coordinator access code—with any staff members who need view-only and not ordering capabilities.

Technical Requirements

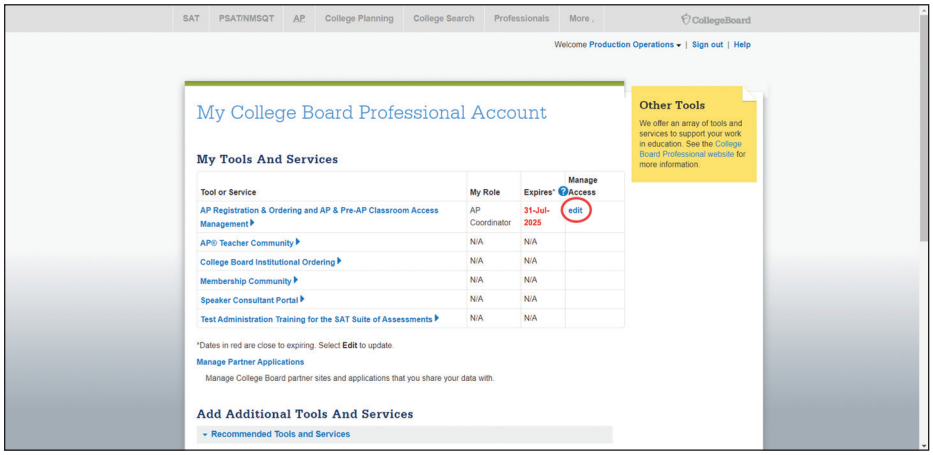
Use a computer that supports the latest versions of Chrome (preferred), Safari (preferred), Firefox, or Edge, and is connected to the internet.

Coordinators Representing Multiple Schools

If you're the AP coordinator for more than one school, you receive an access code for each school you represent. You'll initially sign in using one access code and will need to enter the access codes for the other schools because you'll need to submit a separate exam order for each school.

To enter additional access codes:

- Click your name in the upper right on your AP Registration and Ordering homepage.
- Go to **My Dashboard**.
- Under **My Tools and Services**, click **Edit** next to **AP Registration & Ordering and AP & Pre-AP® Classroom Access Management**.
- Enter the additional access code(s).



© 2026 College Board

Schools That Only Administer AP Exams and Don't Offer AP Courses

If you're the AP coordinator for a school or test center that only administers AP Exams, and doesn't offer AP courses, complete these steps:

- Complete initial setup in **AP Registration and Ordering**. Select the option indicating that your school plans to order and administer any AP Exams. (See pages **50–57**.)
  - NEW On the BigFuture School and Connections screen during setup, AP coordinators at eligible schools can enable access to these new opportunities for AP students. (See page **56**.)

    NOTE: BigFuture School and Connections are available only to students enrolled in class sections (not exam only sections) at eligible schools.
- Create an **exam only** section for each subject for which you'll be administering exams. (See pages **68–69**.)
- Provide students with the appropriate **join code** for each exam only section. (See pages **70–72**.)
- Be sure that students enroll in the exam only section for each AP Exam they'll be taking at your school. (See page **73**.)
- Ensure students enroll in exam only sections to gain access to AP Classroom and the AP Digital Portfolio (if applicable). (See page **110**.)
- Organize your exam roster, ensuring that exams for every student who plans to test this year are included in your exam order. (See pages **84–97**.)
- Submit your exam order by **November 13 (11:59 p.m. ET)**. (See page **98**.)
- Submit any changes to your initial exam order and exam orders for courses that started after the November ordering deadline by **March 12 (11:59 p.m. ET)**. (See pages **98–99**.)

Schools That Don't Administer AP Exams

If you're the AP coordinator for a school that offers AP courses but doesn't administer AP Exams (i.e., your students go to other schools to take their exams), complete these steps:

- Complete initial setup in **AP Registration and Ordering**, and select the option indicating that your students' AP Exams will be ordered by another school or your district office. (See pages **50–57**.)
  - NEW On the BigFuture School and Connections screen during setup, AP coordinators at eligible schools can enable access to these new opportunities for AP students. (See page **56**.)
- Create class sections for each AP class offered at your school (if teachers haven't already done so) so AP teachers can utilize AP Classroom resources with their students. (See pages **64–69**.)
- Students will need to enroll in **both** the applicable class sections at your school for the AP courses they're taking **and** in the exam only sections at the school where they'll take exams.
  - For class sections at your school: Each AP teacher should provide students with the appropriate join code to enroll in their class section. The **Order Exam?** status will be set as **No** for students in these class sections. (See page **87**.)

    NOTE: In addition to giving teachers and students access to AP Classroom resources, virtual schools also need to create class sections for students to join in order to receive students' score reports. (See page **39**.)
  - For exam only sections: The AP coordinator for the school where students will be taking AP Exams needs to provide the join code for each exam only section.

    NOTE: Test centers outside the United States may have additional local procedures for students to register to take AP Exams.

© 2026 College Board

The table below has a summary of the steps listed on the previous page.

Schools That Only Administer AP Exams	Schools That Don't Administer AP Exams
Create Exam Only sections	Create class sections
Distribute join codes to students	Distribute join codes to students
Students enroll	Students enroll
Order Exam? is automatically set to **Yes**	AP coordinator sets **Order Exam?** status to **No**
AP coordinator submits exam orders	Students access instructional resources assigned by AP teachers

Initial Setup

After you sign in to AP Registration and Ordering using your 2026-27 access code, if you haven't already completed setup for 2026-27, you'll be brought to the Setup section. You need to complete the information in the **School Information and Participation Contacts** and **Exam Administration** sections.

All required fields in these sections must be completed before you can take other actions in AP Registration and Ordering. If the answers don't apply to your school/test center, either skip the question (if not required), enter "0," "N/A," or select the first option. You also need to review the information on a few other setup screens.

Setup must be completed each year.

BEST PRACTICE: *Gather information needed for the Setup section in advance.*

The following are the information and decisions needed to complete setup. Information can be updated after completing setup if needed, except for the items noted below.

- ☐ Contact information, including school email address, for the AP coordinator, principal, additional authorized staff person (if applicable), and technology coordinator
- ☐ Your school's start and end dates for the academic year *(this item **can't** be updated after completing setup)*
- ☐ The number of total students (not just AP) in each grade level at your school
- ☐ The total percentage of students at your school (not just AP) who are Free and Reduced Price Lunch (FRPL) eligible
- ☐ Whether your school administers AP Exams (including AP Art and Design Exams) and whether the exam is required for students taking AP classes *(this item **can't** be updated after completing setup)*
- ☐ Whether your school is willing to administer exams to outside students
- ☐ The amount students pay, on average, for each AP Exam *(this item **can't** be updated after completing setup)*
- ☐ How your school weighs AP course grades in a student's GPA *(this item **can't** be updated after completing setup)*
- ☐ Whether you want AP teachers to have the ability to move or drop students from their class sections
- ☐ The percentage of AP students who use devices provided by your school to complete assignments *(this item **can't** be updated after completing setup)*
- ☐ The types of devices your school makes available to AP students, either one-to-one or via laptop carts *(this item **can't** be updated after completing setup)*
- ☐ NEW For eligible schools, your school's decision about whether to opt in enabling access for students to both BigFuture School and Connections, just BigFuture School, or neither. (See page 56 for details.)

© 2026 College Board

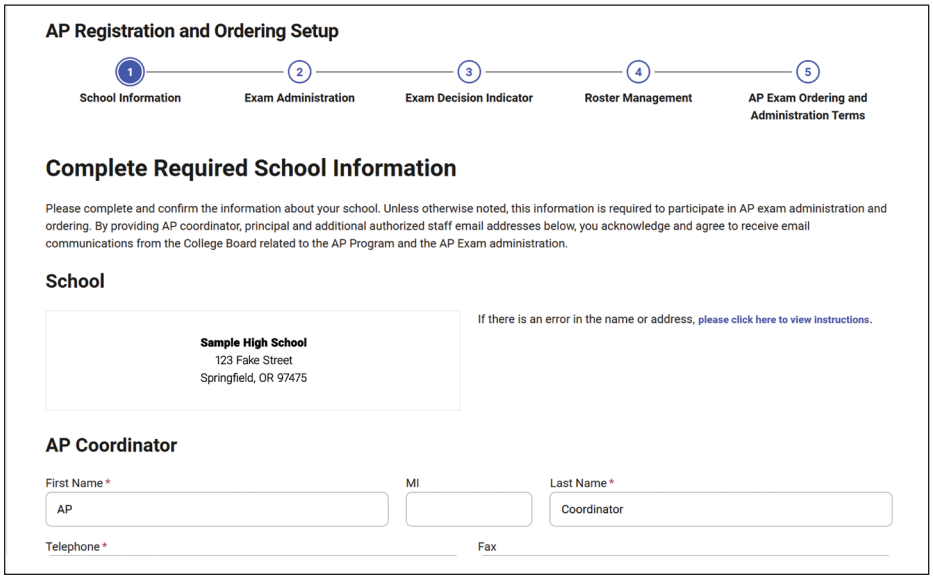
School Information and Exam Administration

First, you'll complete the **School Information** and **Exam Administration** screens.

Provide contact information for the AP coordinator, additional authorized staff person (if applicable), principal, and your school or district technology coordinator. Be sure to use school email addresses.

It's important to confirm that the **technology coordinator** listed for your school is correct. The designated technology coordinator is responsible for configuring the school network and installing apps on school-managed devices, and the AP Program will send them technology details and updates throughout the school year. See **Bluebook technology tasks**.

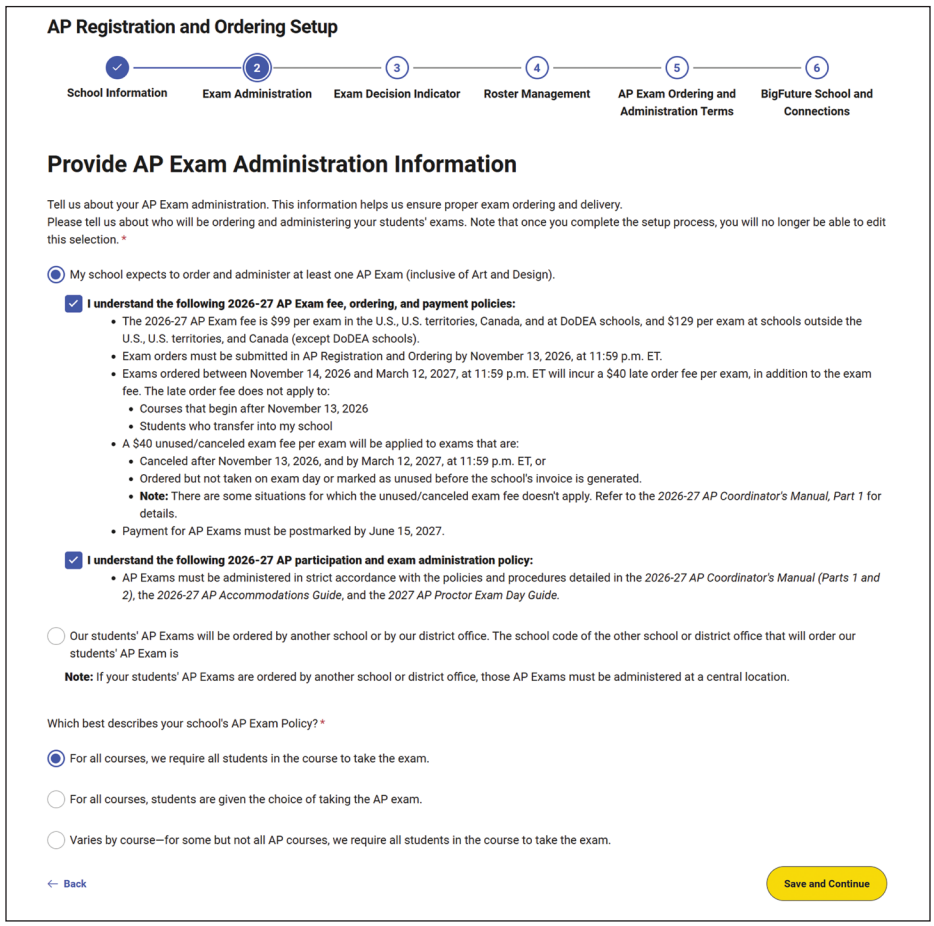
Provide **school population data** if your district wants or requires College Credit Reports. If you need to provide school population data at a later point, you may skip it now and come back to it later by going to **Settings**. Just be sure to complete all other fields.



© 2026 College Board

Confirm your understanding of 2026-27 AP Exam ordering deadlines and fees, and policies. Provide information about how exams will be ordered.

REMINDER: You need to indicate that your school orders and administers exams even if the only AP courses offered at your school are **AP Art and Design** and/or **AP Research**, so you can submit orders for these subjects.



Important:

If you know that your school will be ordering and administering AP Exams in **any** subject this school year (including AP Art and Design)—or even if you're not sure—select the option **My school expects to order and administer at least one AP Exam (inclusive of Art and Design).**

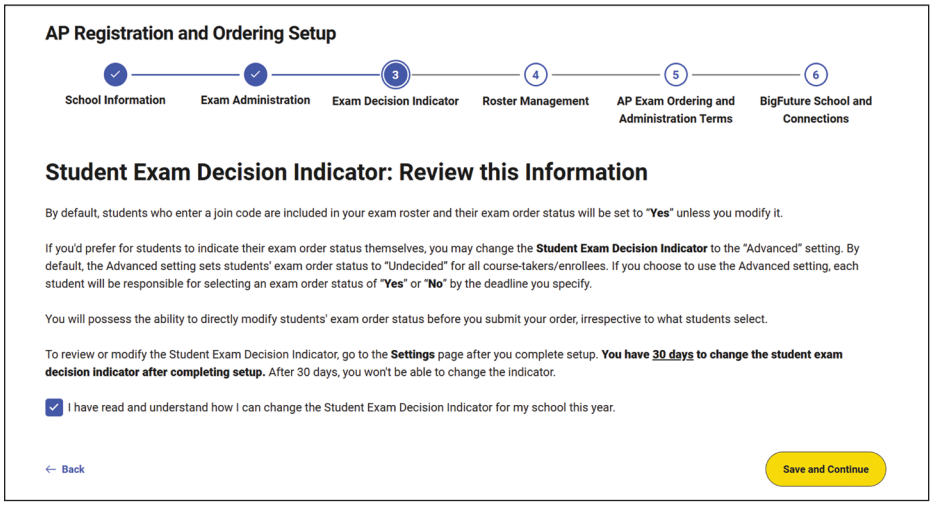
You won't be able to change your selection for Item 1 on the Exam Administration screen (whether your school administers exams) after you complete the setup process. Only select **Our students' AP Exams will be ordered by another school or by our district office** if you're certain your school won't be ordering or administering any AP Exams in 2027. If you have any uncertainty about this, then select the option that your school expects to administer exams. There's no penalty for selecting this even if your school ultimately doesn't order or administer AP Exams in 2027.

© 2026 College Board

Student Exam Decision Indicator Information

If you indicate on the **Exam Administration** screen that your school will administer exams, you'll next review and acknowledge information about the exam decision indicator.

By default, all students are set with an order exam status of **Yes** when they join a class section. The exam decision indicator is a setting you can adjust if you'd prefer for students to indicate whether they intend to take an exam rather than being automatically set as Yes.



The screen about the exam decision indicator in setup is only an acknowledgment screen. You can't change the indicator setting from here.

Important:

NEW You have **30 days** from the time you complete setup to change the student exam decision indicator. After 30 days, you won't be able to change the indicator.

See **Student Exam Decision Indicator Setting** for details about the student exam decision indicator setting and how to change it.

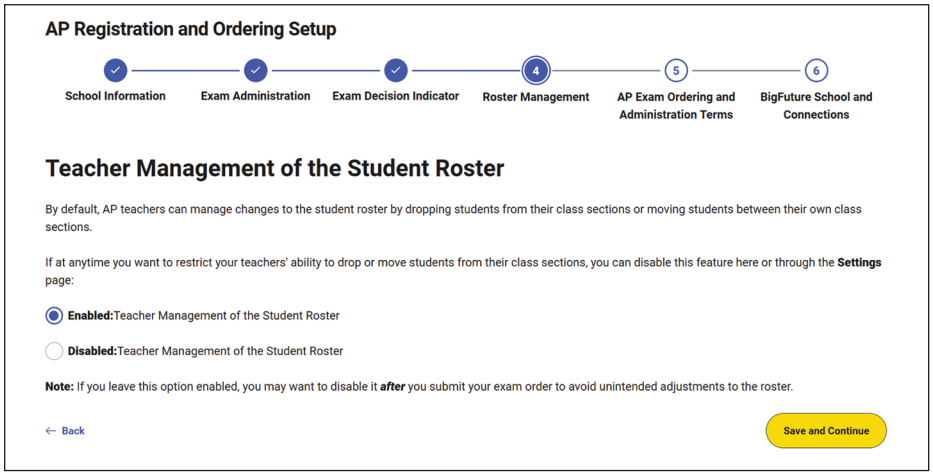
© 2026 College Board

Teacher Ability to Drop and Move Students

On the next screen—**Roster Management**—you'll review settings about teachers' ability to drop and move students from their class sections.

- By default, teachers can drop students from their class sections or move students between their own class sections. If you represent a school or test center that doesn't have any AP teachers, you may select this default setting. (There won't be any impact on the rest of your setup and use of AP Registration and Ordering.)
- If you'd prefer that teachers **not** be able to drop or move students from class sections, you can disable this setting. You can change this setting at any time, even after you complete the initial setup steps.

BEST PRACTICE: *If you leave the setting on (to allow teachers to drop or move students), work with teachers to determine a process to track changes to student enrollment in class sections.*

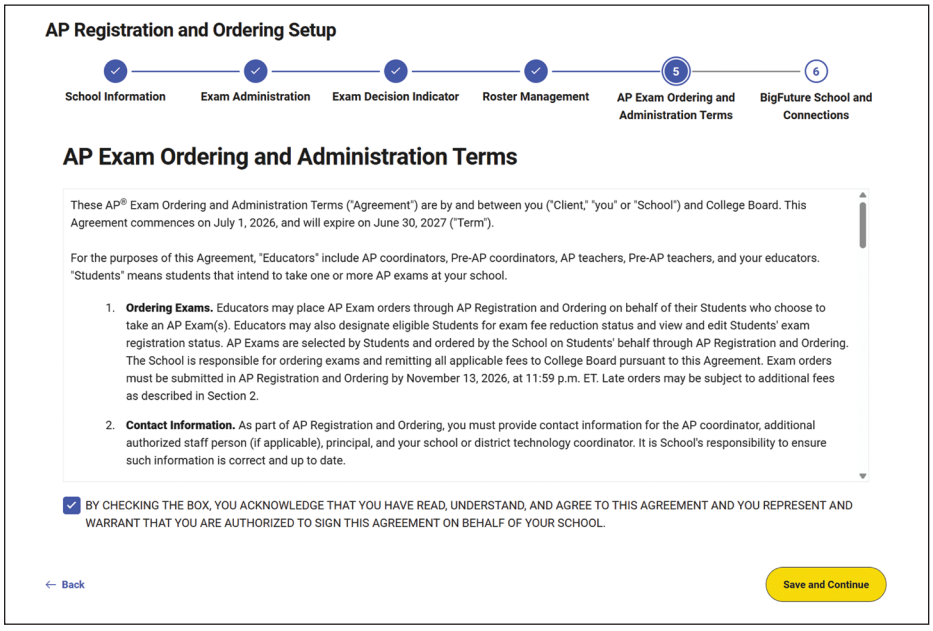


© 2026 College Board

AP Exam Ordering and Administration Terms

Review and Accept the AP Exam Ordering and Administration Terms

NEW In previous years, AP coordinators received a separate AP Participation Form via Docusign to sign after completing setup. Starting this year, AP coordinators review and accept the AP Exam Ordering and Administration Terms during setup. The Terms explain a school's responsibilities for ordering, administering, and paying for AP Exams following College Board policies and timelines.



© 2026 College Board

BigFuture School and Connections

NEW Starting in the 2026-27 school year, BigFuture School and Connections are available to eligible schools. AP coordinators will indicate whether their school opts in or opts out of offering. BigFuture School and Connections to students enrolled in AP courses at their school.

BigFuture School is a free app that helps students explore how the skills they may be developing in AP courses connect to postsecondary pathways. Connections helps students discover nonprofit colleges, scholarship providers, and educational programs that may be a good fit and are actively looking for students like them. Participation is optional for both schools and students.

NOTE: BigFuture School and Connections are available only to students enrolled in class sections (not exam only sections) at eligible schools.

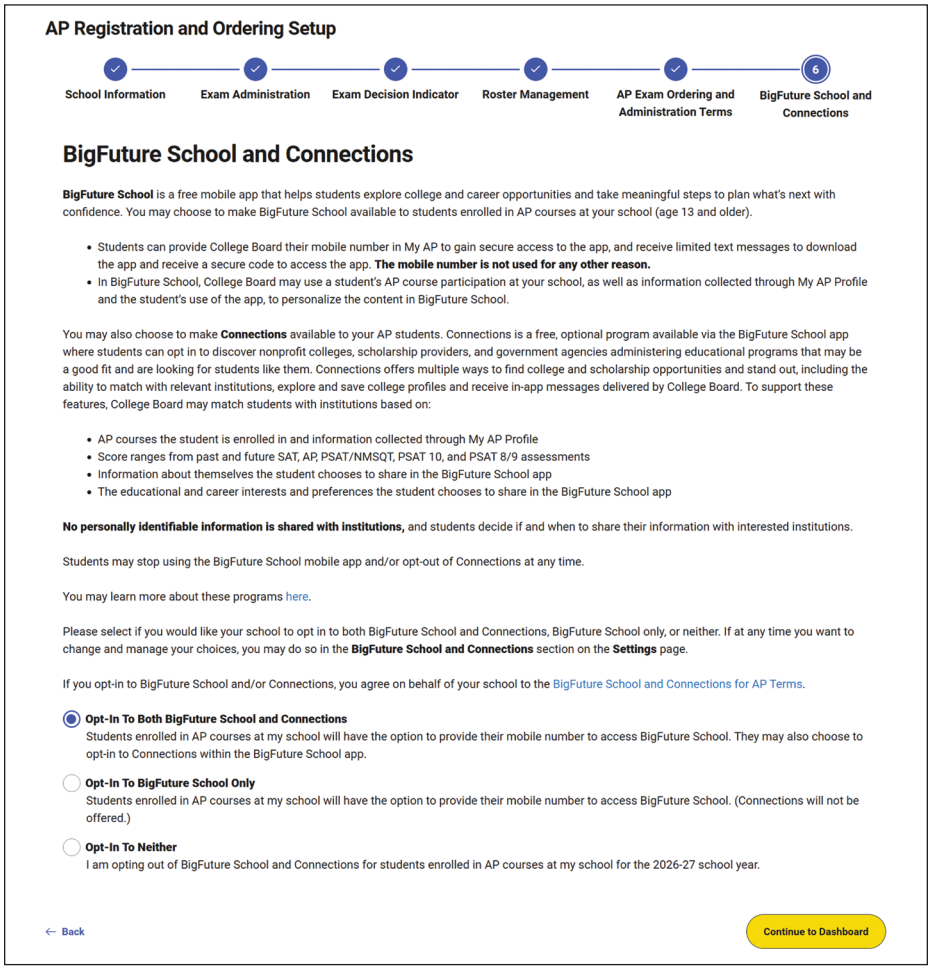
By a school opting in, when AP students complete their registration in My AP, they'll be given the option to provide a mobile number to securely access the BigFuture School app. If a student doesn't provide a mobile number during registration, they'll have the option to do so later in My AP. See page **74** for more details. More information about BigFutureSchool and Connections is available at **cb.org/bigfutureschool-ap**.

(Continued on next page.)

© 2026 College Board

On the BigFuture School and Connections screen, there are three options:

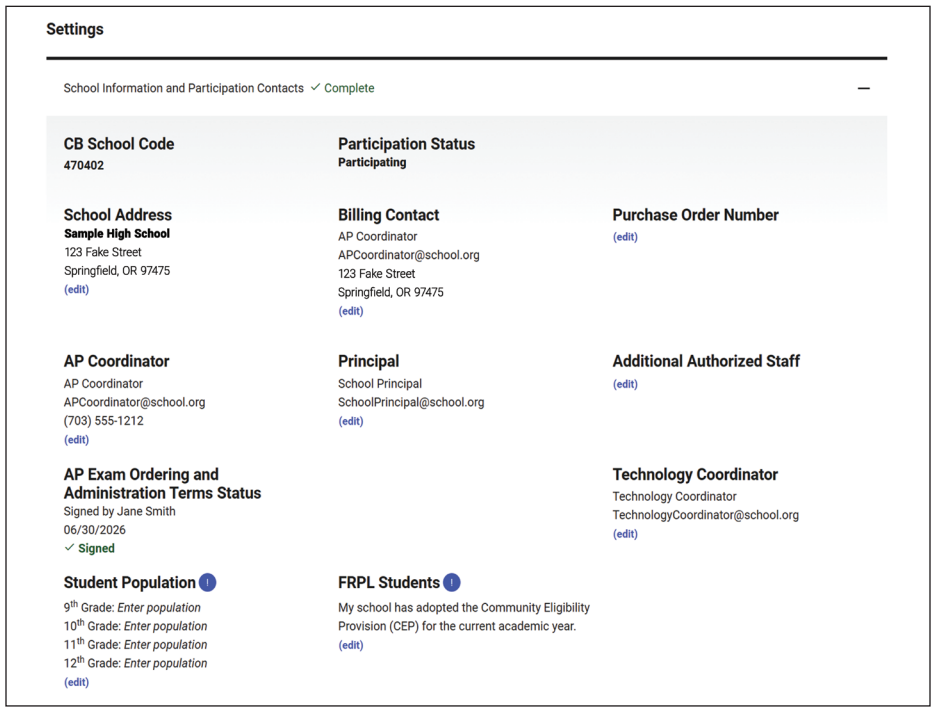
- The first option is to enable access for AP students at your school to BigFuture School and Connections.
- The second option is to enable access for AP students at your school to only BigFuture School, but not Connections.
- The third option is available if your school prefers that AP students don't see information about or have an opportunity to participate in BigFuture School or Connections.



© 2026 College Board

Viewing Completed Setup Information

After you've completed the setup screens, you can view a record of the information you provided. Go to **Settings** and then to **School Information and Participation Contacts**.



Updating AP School Honor Roll Data

To be considered for the 2027 AP School Honor Roll, AP coordinators should ensure their school's 2026-27 data for schoolwide 12th-grade enrollment is provided under the **Student Population** field. If a school does not wish to be considered for the AP School Honor Roll, the AP coordinator should leave this data field blank. If your school doesn't have a 12th grade, enter zero. This field can continue to be updated even after your information has been submitted.

Updating AP Coordinator Information

A new AP coordinator must meet all AP coordinator eligibility requirements. See page 13.

If a new AP coordinator (or other staff) takes over during the academic year, the information in the **School Information** section on the **Settings** page needs to be updated promptly.

The principal should give the new AP coordinator the 2026-27 Registration and Ordering access code and the instructions from the AP Program about signing in to AP Registration and Ordering for the first time. The new AP coordinator enters their information in the **School Information** section and should remove the information for the previous AP coordinator.

Important:

Any changes to staff entered in the **School Information** section on the **Settings** page should also be updated promptly.

AP Course Audit Process

Confirm information about your school's AP Course Audit.

- AP coordinators need to verify that their school's designated AP Course Audit administrator has confirmed that the 2026-27 AP Course Ledger accurately reflects their school's AP offerings.

© 2026 College Board

- If needed, confirm your school's AP Course Audit administrator with your principal. AP Course Audit administrators are identified to the AP Program through a different process than the AP coordinator.
- For more details about AP Course Audit, go to **collegeboard.org/apcourseaudit**.

Ensuring accurate and current information in AP Course Audit is important because your school's AP courses and teachers are listed in AP Registration and Ordering based on the information in AP Course Audit.

See pages **65–66** for details about the steps in AP Course Audit that new AP teachers, or those teaching a different AP course for the first time this year, must complete to enable class section creation for their courses.

AP Participation Survey

In September, you'll receive an email with a link to the 2026-27 AP Participation Survey, which must be completed for your school. You'll complete this brief survey online.

The feedback provided from AP coordinators through the survey helps the AP Program make important program decisions, informs the development of new AP-related initiatives, and identifies important state and regional trends that affect our policies related to exam funding and professional development offerings.

Managing Teacher Access

AP coordinators can view a list of all teachers at their school who currently have access to AP Classroom and who can be selected for class sections.

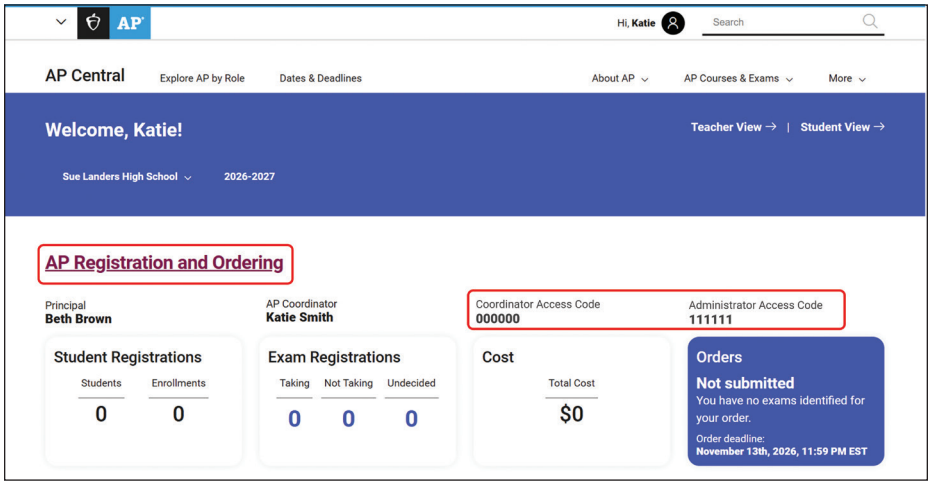
- Go to **Settings**.
- Select **Access Management**.

If any teachers are listed who are no longer at your school, you can disable their access from the Access Management page.

Accessing AP Registration and Ordering After Completing Setup

After you've completed setup, you'll have access to your personalized homepage. This is the first page you'll see anytime you sign in to **myap.collegeboard.org** or sign in from AP Central. To get to your personalized homepage, click the **Home** link at the top of the screen when you're signed in.

Your homepage is where you'll be able to access AP Registration and Ordering from the link at the top of the page.

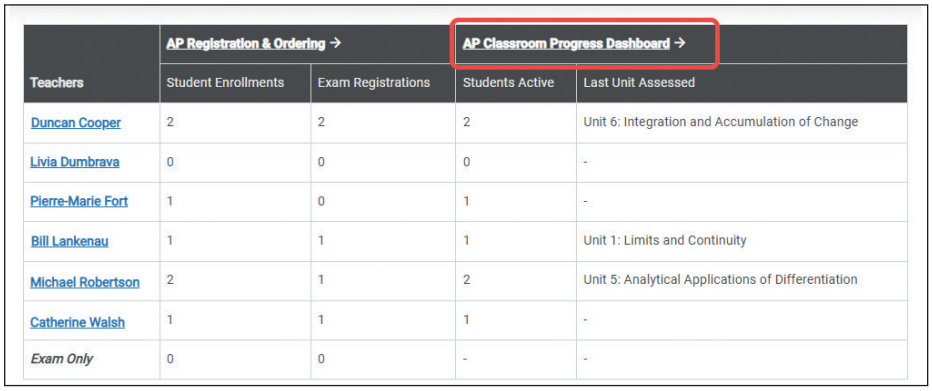


Your homepage after signing in is where you'll always be able to access AP Registration and Ordering.

© 2026 College Board

You can view reports and teacher resources for each course in AP Classroom. **Reports** provides a one-stop shop for student results on all assignment types, including Progress Checks, and summary information on AP Classroom usage. For details on how teachers use AP Classroom, see the **Resources and Tools for AP Teachers and Students** section of this manual.

You can view AP Classroom for each course to see the resources that teachers can access.



Teachers	AP Registration & Ordering →		AP Classroom Progress Dashboard →	
	Student Enrollments	Exam Registrations	Students Active	Last Unit Assessed
Duncan Cooper	2	2	2	Unit 6: Integration and Accumulation of Change
Livia Dumbrava	0	0	0	-

Student Exam Decision Indicator Setting

You can **view a video** about student exam decisions.

If you want to change the student exam decision indicator, do this **within the first 30 days** after you complete setup in AP Registration and Ordering. To change the student exam decision indicator, go to **Settings**.

If you're not ordering exams, you don't need to use the student exam decision indicator.

There are two options for the student exam decision indicator:

- **Default Setting:** All students have an **Order Exam?** status of **Yes** when they enroll in class sections. If this is the option you prefer, there's no further action.
- **Advanced Setting:** All students have an **Order Exam?** status of **Undecided** when they enroll in class sections. Each student is responsible for indicating their exam decision as **Yes** or **No** by a deadline that you specify. Even with this setting, you still have the ability to make final changes to your exam roster, including changes to students' exam registration as necessary. (Note: Students who enroll in exam only sections are always set to an **Order Exam?** status of **Yes**, even when the advanced setting is enabled.)

Important:

- NEW You may change the exam decision indicator setting **only within 30 days** of completing your initial AP Registration and Ordering setup. After 30 days, you won't be able to change this setting.
- You can only change the exam decision indicator setting **once**. If you select the advanced setting, you won't be able to switch back to the default setting.

© 2026 College Board

Default Setting

As the default setting, all students who enroll in class sections before November 13 are directly included in your exam roster. You'll likely prefer to leave the default setting if your school requires students in AP courses to take the corresponding exam or if your school only administers AP Exams without offering courses.

With the default setting, on the **Students** page, you'll see **Yes** listed in the **Order Exam?** column next to each student's name once the student has enrolled in a class section. Review the roster and each student's exam registration status.

- If there are students who **won't** be taking an AP Exam, change their status in the **Order Exam?** column from **Yes** to **No** for **each AP Exam the student isn't taking**.
- If a student is taking an AP Exam at a school other than yours, make sure the student's **Order Exam?** status is **No**.

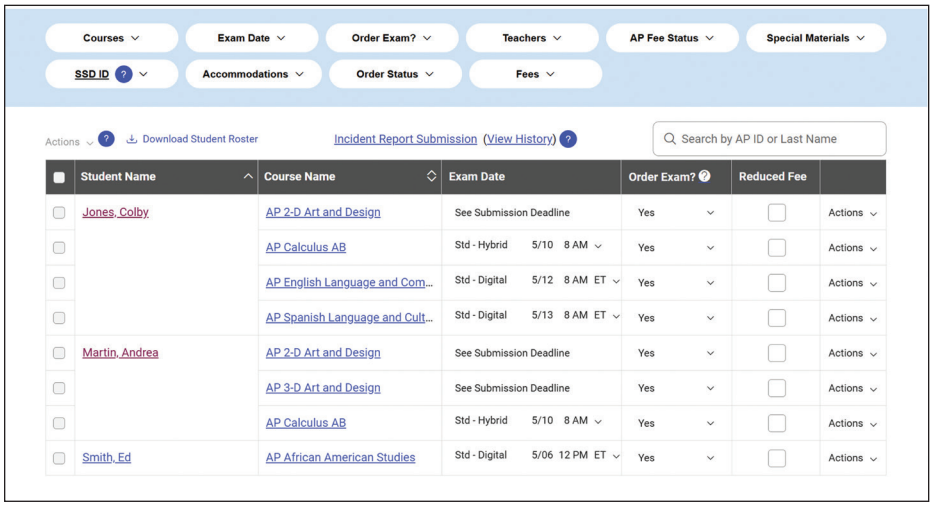
You must still review the exam roster and submit the exam order.

- You may change students' exam registration at any time until the final ordering deadline without incurring an additional fee.
- If you submit your initial exam order before November 13 and need to make changes, you'll need to submit the changes to the order.
- The late order fee is applied only to exams ordered for full-year or fall-semester courses after the November 13 final ordering deadline.

With the default setting, if a student enrolls in a full-year class section or spring-semester class section *after* November 13, that student's exam registration will be automatically set at **Yes**.

See page **87** for details on changing students' exam registration before finalizing your exam order.

The screenshot below shows the student roster after students have enrolled in class sections when the default setting is used.



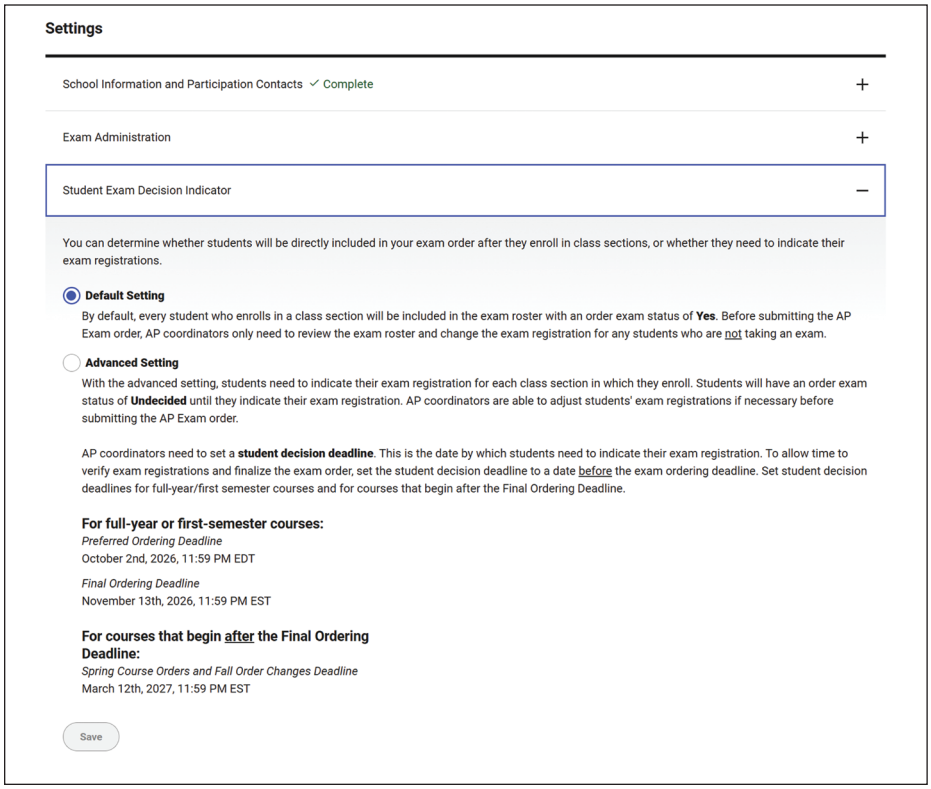
NOTE: The screenshot above is an example and doesn't reflect this year's current exam administration details.

© 2026 College Board

Advanced Setting

If you prefer, you may select an advanced setting to allow students to indicate their AP Exam registration themselves. Remember that even with the advanced setting, you still have the ability to make final changes to your exam roster, including changes to students' exam registration as necessary.

- To change the exam decision indicator setting within 30 days of completing setup, go to **Settings**. Select **Exam Decision Indicator: Advanced Setting**.
- If you prefer to use the advanced setting, change the setting **before** students begin enrolling in class sections.
  - If you change the setting *after* students have started enrolling in class sections, then all students who already enrolled will have an **Order Exam?** status of **Yes**, since that's the original default setting.
- If you select the advanced setting, students' exam decisions will be set as **Undecided** until the student indicates their AP Exam registration. Resolve any student decisions still set as **Undecided** before submitting your exam order.
- You may still change students' exam registration at any time before the November 13 final exam ordering deadline without incurring any additional fees (i.e., changing a student's exam decision from **No** to **Yes** or from **Undecided** to **Yes**).
- For exam only sections, the default **Order Exam?** status remains **Yes** even when the advanced student decision indicator setting is selected.



© 2026 College Board

If you opt to enable the advanced decision indicator setting, you need to set the student decision deadline, and you may choose to enable teacher confirmation.

Student Decision Deadline

This is the internal deadline for your students to indicate their exam registration. It's not an official ordering deadline. The student decision deadline gives you time to verify students' exam registrations and finalize the exam order before the preferred, final, and spring course orders and fall order changes deadlines. Students will see the decision deadline listed for their course(s) on their My AP homepage.

The student decision deadline is defaulted to one week before the November 13 final ordering deadline (for full-year or fall-semester courses) and one week before the March 12 spring course orders and fall order changes deadline (for courses that start after November 13). You can change the decision deadline to any date you prefer, but keep in mind:

- **You can't set the student decision deadline to the same date as an ordering deadline.**
- **It's important to set a student decision deadline that's earlier than the ordering deadline so you'll have enough time to finalize your exam order.**

Schools using the advanced setting should wait until the student decision deadline has passed before submitting the exam order. Once the exam order is submitted, students can no longer change their exam registration. **When using the advanced option, don't submit exam orders by the preferred ordering deadline (October 2) if you've set your student decision deadline to a date after October 2.**

BEST PRACTICE: *On the first day of school, let students and teachers know when the student decision deadline is.*

Teacher Confirmation (optional)

- If you'd prefer teachers only be able to view their students' exam registrations but not edit the information, leave the teacher confirmation disabled. (This is the default setting.)
- If you enable teacher confirmation, AP teachers will be able to review and edit their students' exam registrations.

Remember: Even when teacher confirmations are enabled, you can still make final changes to students' exam registrations.

© 2026 College Board

You can **view a video** about creating class sections.

2. Creating AP Class Sections and Exam Only Sections

Learn how to:

- Create class sections and exam only sections in AP Registration and Ordering.
- Confirm teachers have completed necessary AP Course Audit steps to enable class sections to be created.
- Advise teachers about sharing class section join codes with their students.
- Share exam only join codes with students.
- Download a list of join codes for all class sections.

Class Sections

After completing initial setup in AP Registration and Ordering, the AP coordinator needs to create class sections, if teachers haven't already done so. **Class sections must be created as soon as possible, before your school's classes or exam registration period begins.**

- **Class sections** need to be created in AP Registration and Ordering to associate students with the classes and exams they're taking. Each class section is associated with an AP teacher.
  - Once students enroll in their class section(s) through My AP, they are able to utilize AP Classroom assignments, and students are included in the AP coordinator's exam roster.
  - Class sections can only be created for AP teachers who teach a course authorized through the AP Course Audit. For example, if an instructor at your school is only authorized to teach AP United States History, you can only create class sections for that teacher for AP United States History.
- **Exam only sections:** If you have students who will be taking an AP Exam at your school without taking a teacher-led class for the AP course at your school, you'll need to create an **exam only section** for that subject. See **Exam Only Sections** for details.

Important:

If teachers at your school already created class sections, review the class section names to ensure they're consistent and align with the naming standard at your school. Remember that class section names are what appear in your school's AP score reports. If you need to make any changes, you can edit the class section names even if teachers created the sections. See page **69** for details about editing sections.

AP coordinators can download a list of all join codes. See page **72**.

Class sections need to be created to generate **join codes** (one unique join code per class section per school). Students use join codes to enroll in their class sections. (See **Join Codes** later in this section for details.) Class sections must be created for all AP courses.

If an instructor teaches multiple sections for a subject, separate class sections should be created for each class, as opposed to one section for the subject. By creating a class section for each class, teachers will be able to assign resources on a per-class basis and view the performance of their individual classes when they review AP Instructional Planning Reports.

© 2026 College Board

Students can't enroll in multiple class sections of a course at the same time. For example, if a student enrolls in one class section for AP Biology, they can't enroll in another AP Biology class section. However, a student can be enrolled in a class section associated with a teacher and an exam only section for a subject at the same time, which supports students who may be enrolled in a course at one school but taking the corresponding exam at another school.

Before creating class sections:

- Ensure that new AP teachers and instructors teaching a new or different AP course this year have added their course(s) in AP Course Audit and that the AP Course Audit administrator has approved the AP Course Audit form for these teachers. (See below.)

BEST PRACTICE: *Refer to a copy of your school's schedule of all AP classes and teachers.*

After you've created class sections:

- Let your school's AP teachers know when you've created class sections. Teachers need to sign in to **myap.collegeboard.org** to retrieve the join code for each class section they teach, and then distribute the join code to the students in each class.
- Ensure that students enroll in class sections by the second day of class.

Helping Students Join Your AP Class Section at the end of this manual provides step-by-step directions for teachers. It can also be downloaded as a standalone resource from **cb.org/apresourcelibrary**.

Confirming AP Course Audit Approvals Before Creating Class Sections

The AP Course Audit administrator at your school is responsible for confirming teacher participation in the course audit system. Ensuring accurate and current information in AP Course Audit is important because your school's AP courses and teachers are listed in AP Registration and Ordering based on the information in AP Course Audit.

If there are any AP teachers at your school not listed in AP Registration and Ordering when you create class sections, contact your AP Course Audit administrator. If you're unsure who the administrator is, ask your school's principal.

NOTE: If your school or test center only administers AP Exams and doesn't offer any AP courses, your school doesn't need to take any action in AP Course Audit.

To be able to create class sections in AP Registration and Ordering, note the following information about course audit:

- **Returning AP teachers:** If an AP teacher at your school taught a course audit-authorized course last year, they'll be listed in AP Registration and Ordering. You or the teacher can create class sections for the teacher's course(s), and the teacher has access to AP Classroom.

  NOTE: The school's AP Course Audit administrator must renew previously authorized courses by **January 31, 2027**, for teachers to maintain AP Classroom access for the 2026-27 school year, to have access to score reporting for the 2027 AP Exam administration, and to access AP Classroom in 2027-28.

© 2026 College Board

- **New AP teachers or those teaching an AP course for the first time:** These teachers won't be listed in AP Registration and Ordering, can't create class sections, and can't access AP Classroom until they've taken these steps in AP Course Audit:
  1. Add their course(s) in AP Course Audit. Then the AP coordinator will be able to create the class sections for the teacher.
  2. Complete the course audit form for each new AP course they're teaching. The course audit administrator is notified when the teacher has submitted their course audit form. Once the course audit administrator has approved the form, the new teacher can access AP Classroom and can also create class sections.

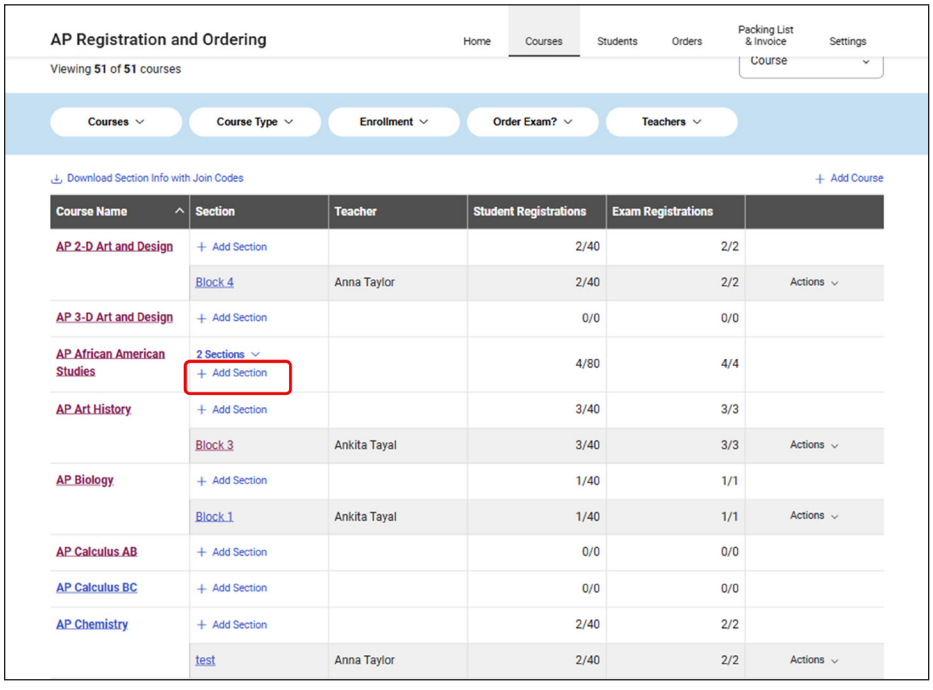
  NOTE: New AP teachers will need to complete the course authorization process in order to maintain access to AP resources after January 31, 2027.

For more information, see the **AP Course Audit Teacher and Administrator User Guide**.

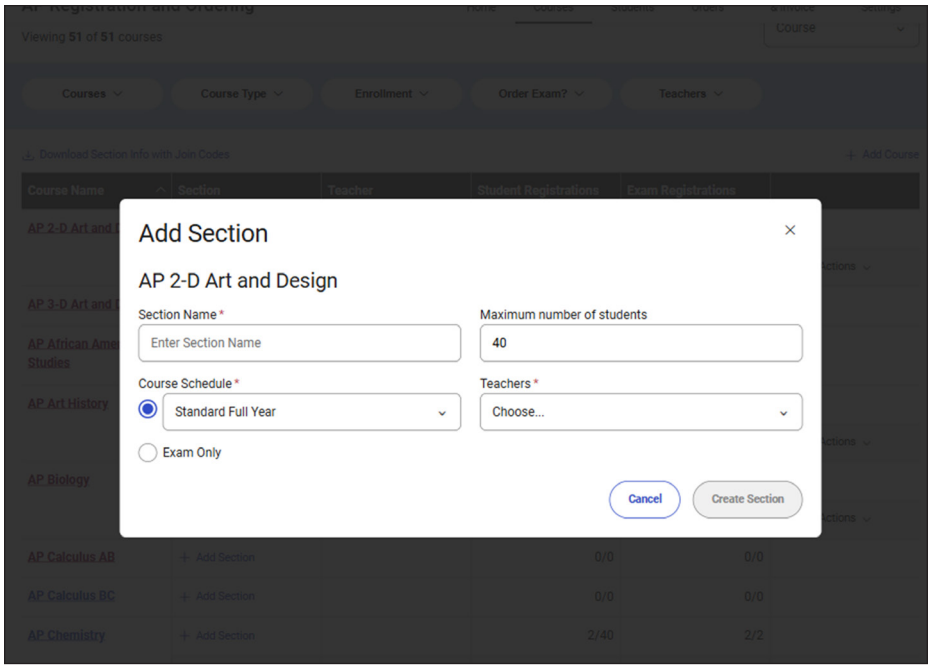
How to Create a Class Section

In AP Registration and Ordering:

- Click **Courses**.
- Click **+ Add Course** on the far right if a course isn't listed. Enter the course information on the next screen.
- Click **+ Add Section** next to the course. Enter the information in the next screen.



© 2026 College Board



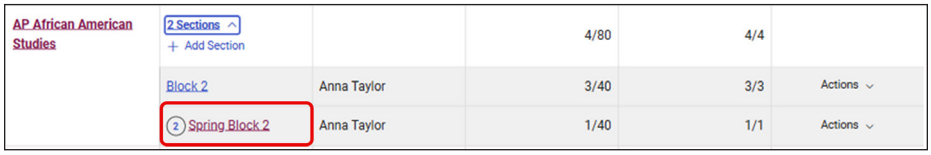
- **Section Name:** Use the naming convention that works best for your school. Class section names should be easily recognizable by students and educators because they'll appear in AP Classroom and AP score reports. The limit for each section name is 20 characters.

BEST PRACTICE: *Name sections consistently and clearly for organizational and score reporting purposes.*

- **Maximum number of students:** This will default at 40, but you can edit this number if necessary. Once the number of enrollments equals the maximum number of students that have been set for that section, no one else will be able to enroll in that section unless you edit the field to increase the maximum number. (Teachers also have the ability to edit the maximum number of students.)
- **Course Schedule:** There are several options for course schedule:
  - **Standard Full Year:** Use this option if the section is held for the whole school year.
  - **Fall Semester Only:** Use this option if the class section begins and ends during the current calendar year. These orders must be finalized by the November 13 ordering deadline so they don't incur a late order fee.
  - **Spring Semester Only:** Use this option if the section begins after the November 13 final ordering deadline **or** is held only during the second semester.
  - **Exam Only:** Use this option to create sections for students taking an exam at your school without taking a corresponding course at your school; for example, independent study students, homeschooled students, or students from another school, including a virtual school. See the next page for more information about exam only sections.
- **Teachers:** The dropdown list shows the teachers at your school who have added the course in AP Course Audit. You can indicate up to three teachers for a class section.
- **For AP Seminar Only:** There's a field for "high school credit type" for Seminar class sections.

© 2026 College Board

After you create class sections, Spring Semester Only class sections are indicated by a number "2" next to the section name in the roster.



Exam Only Sections

For details about which students are considered high-school affiliated, see page **35**.

You'll need to create an exam only section if your school administers AP Exams to high school-affiliated students who aren't enrolled in a course at your school, for instance:

- Independent study students attending your school who want to take an exam for a course in which they're not enrolled.
- Students who attend another school but who will be testing at your school.
- Homeschooled students who will be testing at your school.
- Virtual school students who will be testing at your school.
- Recent high school graduates who need a specific AP Exam for university admission. (See page **35** for details.)

Only AP coordinators can create exam only sections; teachers can't create these sections.

Create an exam only section for each subject for which there are students only taking the exam at your school.

It's recommended you create a separate exam only section for each exam subject that homeschooled, independent study, and/or virtual school students will be taking at your school. You may want to include information—such as "homeschooled"—in these exam only section names to help with your tracking.

Students enrolled in exam only sections:

- Won't have access to AP Classroom resources that require assignment by an AP teacher. These include all assessments and some shareable documents. Note: Students will be able to access AP Classroom resources for the course that don't need to be assigned, such as course project preparation resources and AP videos.
- Aren't linked to a specific teacher's score reports.
- Won't be eligible for exam funding if your state requires that students take a corresponding course unless the student is also enrolled in a class section with another school or provider—see page **32** for details.

If a student is taking the AP course at another school, they'll likely be enrolled in a class section for the course with an Order Exam? status of **No** at the other school.

NEW For AP world language and culture subjects, it's important to ensure that all exam only students enroll in the exam only sections, so the AP coordinator can provide guidance about completing/submitting the project in the AP Digital Portfolio.

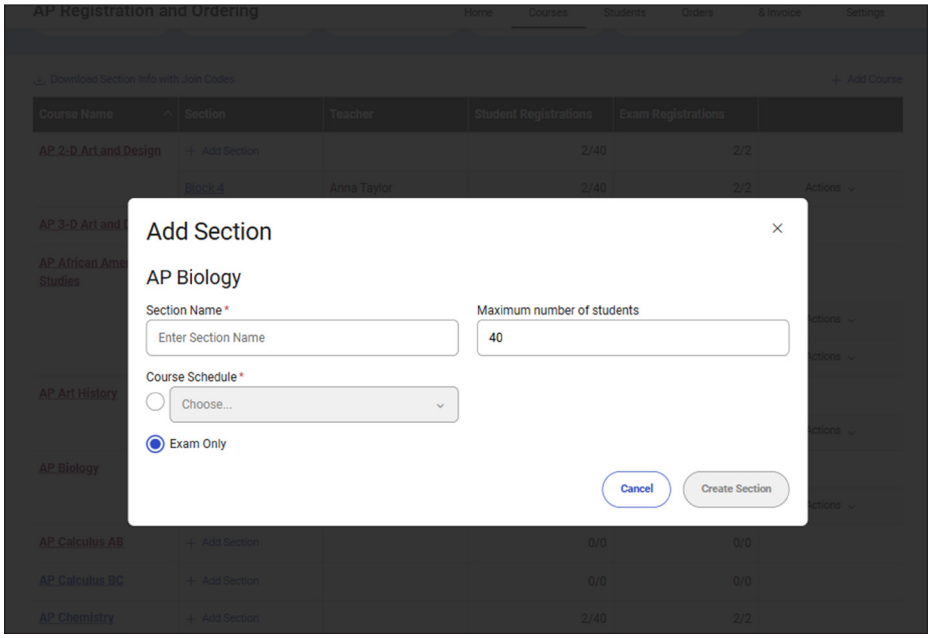
Important:

The ordering deadlines are the same for all students, including those enrolled in exam only sections.

© 2026 College Board

How to Create an Exam Only Section

Click **+ Add Section** next to the appropriate subject on the **Courses** page. On the next screen, select **Exam Only** for the course schedule. Enter the section name. There isn't a teacher field for exam only sections. You may want to adjust the maximum number of students if only a small number of students will be enrolled in the exam only section.



If a course isn't listed for an exam only section you need to create, go to **Courses**, and on that page click **+ Add Course**. Complete the information on the next screen to add the course and create the exam only section.

For Students Taking Courses That Begin After November 13

There's **not** an option for a spring semester exam only section. You may have students from another school—for instance, a virtual school—who are taking an exam at your school but at the school they attend they're taking a corresponding course that begins after the November 13 final ordering deadline. You may need to submit the exam order for these students after November 13.

In this case, the student should be enrolled in both:

- The Spring Semester class section for the subject at the school they attend. The student's **Order Exam?** status should be **No** for this class section.

  AND

- The exam only section for the subject at your school. The student's **Order Exam?** status should be **Yes** for this exam only section.

By being enrolled in both the exam only section and the Spring Semester class section for the subject, the late order fee isn't applied if you submit the exam order for this student after November 13.

BEST PRACTICE: *Make sure the student is enrolled in both the Spring Semester Only class section at the school they attend and the exam only section for your school before you submit the student's exam order.*

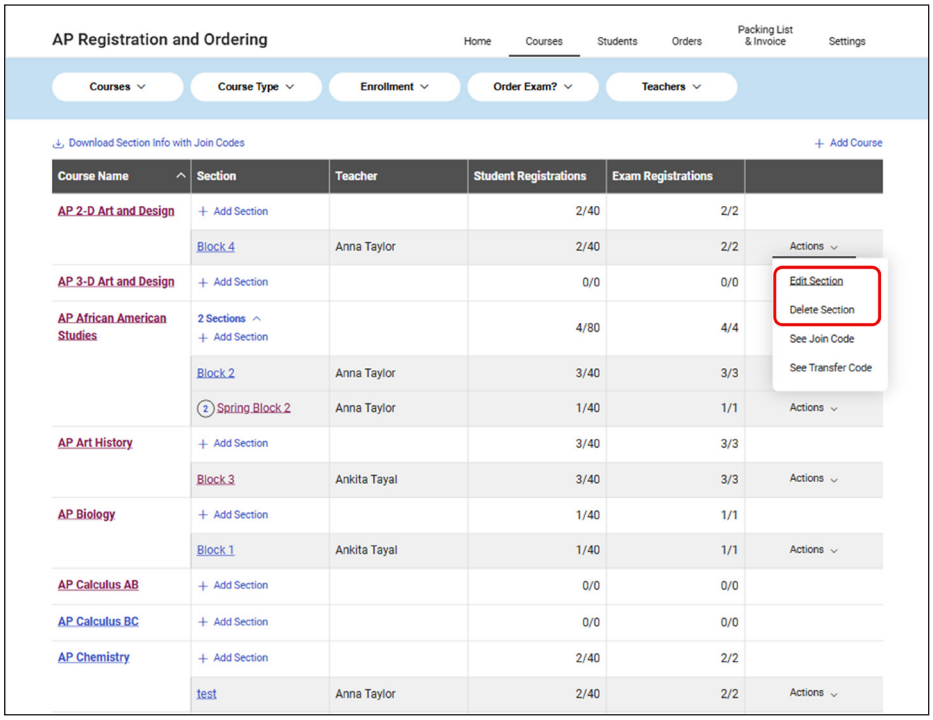
You may still submit an exam order after November 13 for a student who's in a Spring Semester course at the school they attend, even if they're not enrolled in a class section at that school. However, in this case, the $40 per exam late order fee would apply.

© 2026 College Board

Editing and Deleting Sections

Go to the **Actions** column for each class section or exam only section to:

- **Edit Section:** Change the section name, update the maximum number of students, update the course schedule, add a co-teacher, or change the teacher. If teachers have created their own class sections, you may need to edit the section name if they haven't used the class section naming convention you've established for your school.
- **Delete Section:** This permanently deletes the section from your school in AP Registration and Ordering. You can delete a section only if there are no enrollments in the section.



NOTE: If a new teacher is added to an existing class section, that teacher has access to all AP Classroom data associated with that class, including student results.

Join Codes

A unique alphanumeric **join code** is automatically generated for each class or exam only section created in AP Registration and Ordering.

Communicate with your school's AP teachers to let them know when you've created class sections. Teachers then sign in to **myap.collegeboard.org** to access the join code for each class section they teach.

Important:

On the first day of class, teachers need to share the join code for their class with their students so they can enroll in the class section by the next day.

Join codes are generated per class section, not per student or per teacher.

- A student enrolled in multiple AP courses will receive a unique join code for each class.
- A teacher with multiple sections will have a unique join code for each section.

To be accounted for in the exam order, students must use a join code to enroll in a class or exam only section.

You can **view a video** about join codes.

Helping Students Join Your AP Class Section at the end of this manual provides step-by-step directions for teachers. It can also be downloaded as a standalone resource from **cb.org/apresourcelibrary**.

© 2026 College Board

Join codes are unique to the sections created for your school. Your join codes shouldn't be shared outside your school, unless you're providing a join code for an exam only section to a homeschooled or independent study student, or a student from another school taking an exam at your school.

NOTE: Students who transfer to your school after the November 13 final ordering deadline will need a **transfer code** instead of a join code—see pages 81–82.

Only AP coordinators can provide the join code to students in an **exam only section**.

To view join codes:

- **For Coordinators:** After creating a class section, click **Actions** in the last column next to each course and select **See Join Code**. You can also download a list with all join codes. (See the next page for details.)

NOTE: The join code shown in this image is an example. Use only the join code generated for each class section in AP Registration and Ordering.

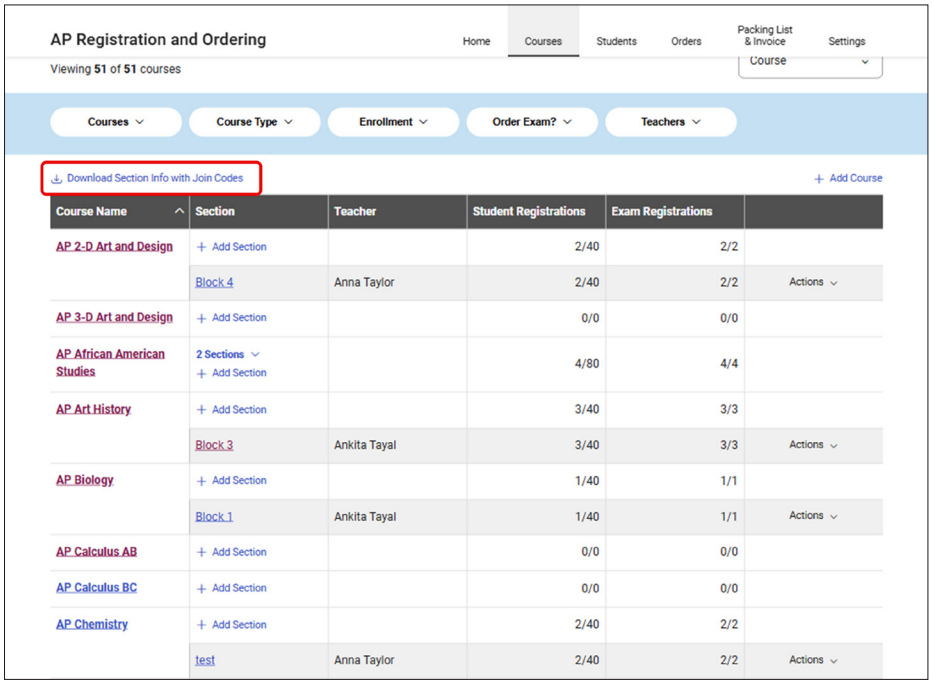
- **For Teachers:** After you create class sections, teachers will see the join codes listed next to their class sections. If teachers create their own class sections, the join code appears immediately after they create the section. (See **Helping Students Join Your AP Class Section** at the end of this manual for details about how teachers view the join code.)

© 2026 College Board

Downloading a List of All Join Codes

On the **Courses** page, click **Download Section Info with Join Codes** to download a spreadsheet listing:

- Course names.
- All section names and types (standard full year, second semester, exam only).
- The corresponding teacher names.
- The active join code for each class section or exam only section.
- The number of student enrollments in each section.



Expiring a Join Code

If the join code for a class section or exam only section is shared outside of your school and unintended students enroll in a section, you can expire the join code. By expiring a join code for a section, that code can no longer be used to join that section, and a new join code is created for that section.

Students who already correctly enrolled in the section previously don't need to take any action; they'll remain enrolled in the section after you expire the join code. If any students are enrolled in a class section who shouldn't be, you'll be able to drop them. (See pages **78–80** for details on dropping students from class sections.)

© 2026 College Board

3. Helping Students Enroll in Their AP Class Sections

Learn how to:

- Advise students and teachers about how students join class sections and exam only sections.
- Manage student enrollment—including transfer students, dropping students from class sections, and moving students between class sections.
- Download a student roster.

Signing in to My AP

Students should sign in to My AP with their College Board login information. This is the same login they may have used to previously access My AP, AP and PSAT/NMSQT scores, or to register for the SAT.

If students don't have a student account, they can click the **Create Account** link.

If students have trouble remembering their account information or whether they have an existing account, they can follow on-screen instructions to try retrieving their information. Students should not create a second account.

You can **view a video** about signing in to College Board Student Accounts.

Joining a Class Section

On the first day of class, teachers provide the join code for each of their class sections to their students. When students have the join code, they can sign in to My AP (**myap.collegeboard.org**) to enroll in the class section.

Students need to enroll in the class section for each AP class they're taking using the unique join code for each class.

BEST PRACTICE: *Students complete enrollment as an assignment, so that they're enrolled in their class sections by the second day of class.*

Joining Your AP Class Section at the end of this manual provides step-by-step directions for students. It can also be downloaded as a standalone resource from **cb.org/apresourcelibrary**.

Joining an Exam Only Section

If you have high school-affiliated students who need to enroll in an exam only section, remember that only the AP coordinator can access and provide the join code for an exam only section. Once you provide a join code for an exam only section, ensure the student completes their enrollment by the next day.

NOTE: For details about which students are considered high-school affiliated, see page **35**.

Indicating Exam Registration (Only for Advanced Student Exam Decision Indicator Setting)

If you've set the **advanced setting** for the student exam decision indicator, tell students the deadline by which they need to indicate whether they intend to take the exam.

If you've left the student exam decision indicator at the **default setting**, students don't need to indicate exam intent; they'll be defaulted to an **Order Exam?** status of **Yes** after they enroll in their class sections.

See pages **60–63** for details about the student exam decision indicator setting.

© 2026 College Board

See the **Resources and Tools for AP Teachers and Students** section of this manual for detailed information, including screenshots, about how students enroll in sections through My AP.

Providing Registration Information

The first time a student enrolls in a class section or an exam only section in My AP for the current school year, they'll provide their registration information. **It's important that they provide their registration information thoroughly and accurately**.

Students only need to provide registration information once each school year. Students need to check the information that's already filled in and provide the remaining information.

- If any of their names (first and last), middle initial, or date of birth need correcting, have them contact AP Services after they've completed their registration to adjust the information.
- If a student updates any other information in their AP Profile, they'll also need to update their College Board account. The updated information in their AP Profile won't automatically carry over to their College Board account.

Important:

Remind students to be careful when selecting their **school name** during registration. If students have to search for their school name, there could be multiple search results of the same school name. The city and state are listed next to the school name; students can also limit their search by zip code (see page **110**). To ensure accurate score reporting, students need to select their correct school.

For some fields, students have the option to select **do not wish to respond**.

Registration information is used to produce an AP ID label sheet for each student and for each hybrid digital or accommodated paper AP Exam included in your school's AP Exam order. (See the **AP ID Label Sheets** section of this manual.)

NEW For AP students at eligible schools, if their AP coordinator has included BigFuture School and Connections, or just BigFuture School, for its AP students, the students will see an option to provide their mobile number to enable their access to the BigFuture School mobile app. See page **56** for details.

Indicating Recipient of Free Score Report

Make sure students understand that if they'd like a college, university, or scholarship program to receive their free score report, they must provide this information at **cb.org/apfreescoresend** by **June 20, 2027**.

A student's score report includes the scores for all AP Exams they've taken, including those from previous years (unless they've chosen to cancel or withhold scores).

Managing Student Enrollment

You can monitor and manage student enrollment in AP Registration and Ordering.

BEST PRACTICE: *Establish a plan with counselors and teachers for tracking student schedule changes so you can update your student roster before submitting your exam order.*

If a student at your school joins an AP class after initial enrollment has ended or after you've submitted your initial exam order, the student will need the join code for the class section to enroll. If you've already submitted your initial order, you'll need to update your order.

You may also need to **drop** a student from a class section or **move** a student to a different class section, and you may have students who **transfer to** or **transfer out of** your school. There are specific actions you must do in AP Registration and Ordering for these scenarios.

© 2026 College Board

Important:

Use the correct action in AP Registration and Ordering to avoid incurring unintended late order or unused/canceled exam fees.

This table provides an overview of these actions. Review details on the following pages.

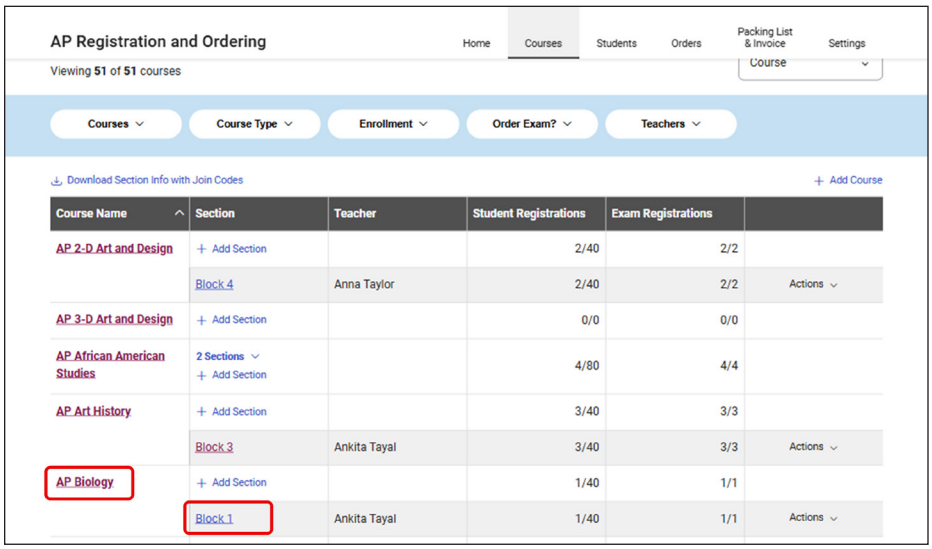
Action	Scenario
Drop a student from a class section. *(See pages 78–80 for details.)*	A student enrolled in a class section but will no longer be taking the course. The student may or may not still be planning to take the exam.
Move a student from one class section to another (change class section or give the student the new join code). *(See pages 80–81 for details.)*	A student needs to be moved from one class section to another class section **for the same course** in their school. For example, a student is currently enrolled in Period 1 of AP Biology and needs to move to Period 2 of AP Biology.
A student **transfers to** your school; provide the student with the **transfer code** for each class section they need to enroll in. *(See pages 81–82 for details.)*	A student transfers to your school at any point during the school year. It's important to provide the student with the unique **transfer code** for each class section they need to enroll in, not the join code. By using the transfer code, the late order fee is **not** applied.
A student **transfers out of** your school; indicate the student as **transfer out** in AP Registration and Ordering. *(See pages 82–83 for details.)*	A student transfers out of your school at any point during the school year. It's important to indicate the student as **transfer out** so your roster will be accurate and the exam fees associated with the student are removed from your final invoice.

You can **view a video** about changing class sections and dropping students.

Viewing Student Enrollment

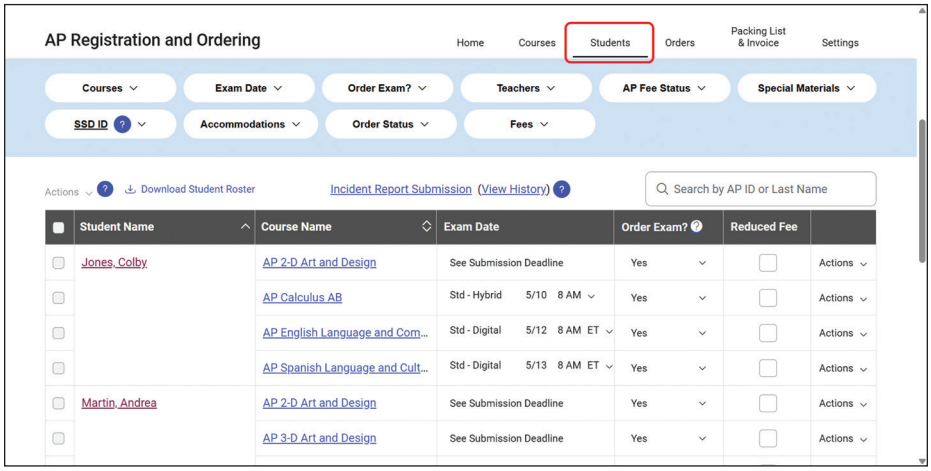
After class sections have been created, you can go to the **Courses** page to:

- Click the **course name** to view a list of students enrolled in all sections for the **course** along with their exam registration and fee reduction status.
- Click the **section name** to view a list of students enrolled in the specific **section** along with their exam registration and fee reduction status.



© 2026 College Board

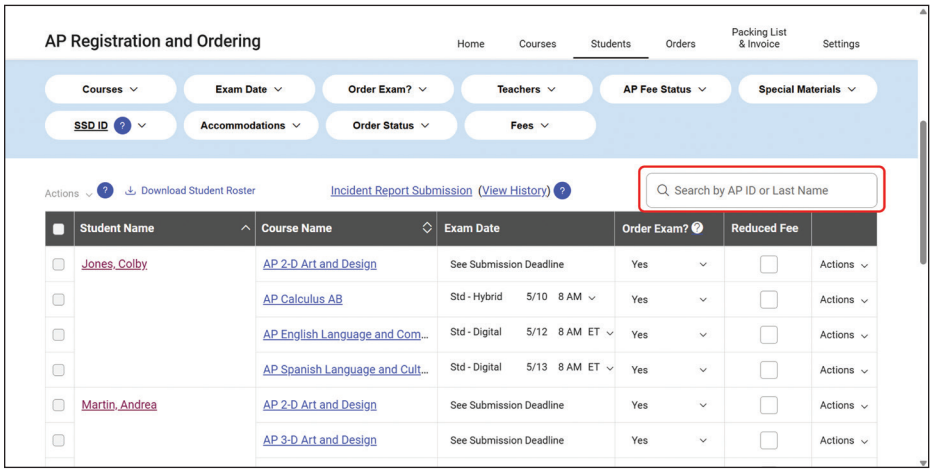
To view all enrollments, not just enrollments for a particular section or course, go to the student roster on the **Students** page.



Search for Students

You can search for a specific student in the roster by typing their last name or AP ID into the search field. You can't search by first name.

You can use the filters at the top of the student roster to view by specific parameters.

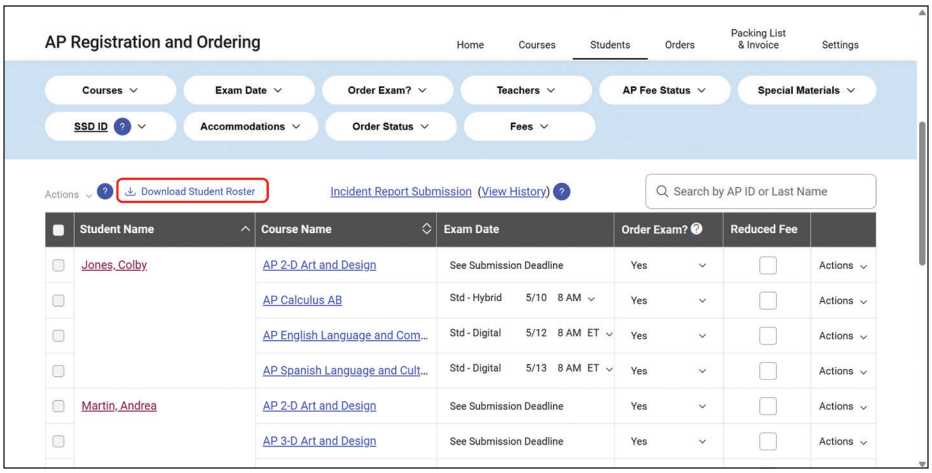


NOTE: The screenshots above are examples and **don't** reflect this year's current exam administration details.

© 2026 College Board

Download Student Roster

From the **Students** page, you can download a list of all students by clicking **Download Student Roster**. You'll also be able to download filtered lists if you'd like to have a roster reflecting certain parameters.



NOTE: The screenshot above is an example and **doesn't** reflect this year's current exam administration details.

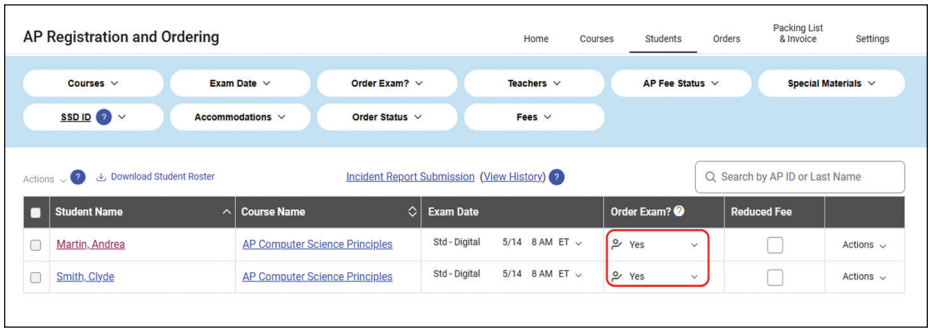
If you download the full (unfiltered) student roster, it will contain the following:

- Student name
- Grade
- School code for the school each student attends
- Email address
- AP ID
- School student ID (if applicable/provided)
- Name of each course and class section each student is currently enrolled in, the class section name, and teacher name (if applicable)
- Enrollment date (the date the student enrolled in a class section using the join code)
- Fee reduction status (Reduced or Standard)
- Any special format exam materials you've indicated for each student
- Approved accommodations
- SSD ID (if applicable)
- Exam registration (Yes, No, or Undecided) for each class section or exam only section each student is enrolled in
- Date and testing window (regular or late) of each exam each student is taking
- Order status (whether the exam order has been submitted) and the latest order submission date
- Information about whether the student has any late order, unused/canceled exam, and/or late-testing fees

If you have two or more students with the same name, click on the student's name on the **Students** page to see details.

© 2026 College Board

In the student roster, if a teacher has confirmed student registration (if that setting was enabled), you'll see a small icon in the **Order Exam?** field for the applicable subject for the student.



Dropping or Moving Students from a Class Section

Drop a Student

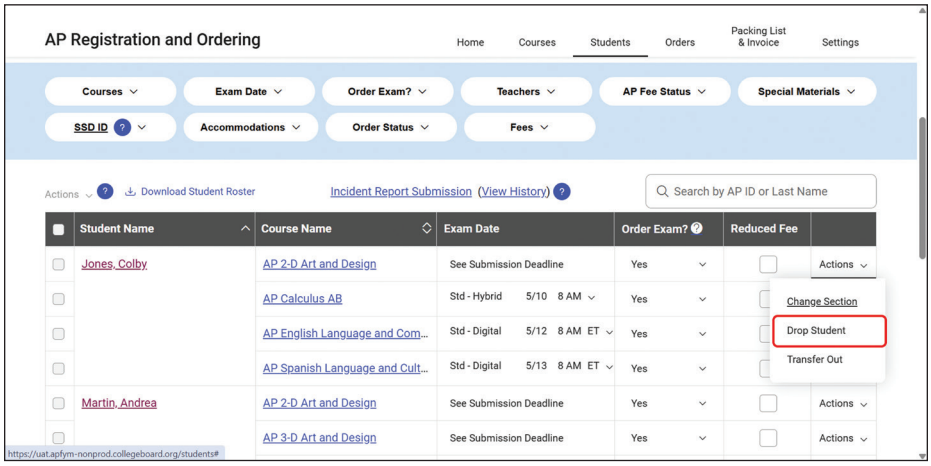
If a student enrolled in a class section is no longer taking the course, you'll need to **drop** the student from the class section in AP Registration and Ordering.

Don't drop a student from a class section if they're transferring out of your school. If a student transfers out, you need to indicate them as **transfer out**, which is a different action than drop. (See pages 82–83 for details about indicating a student as transfer out.)

To drop a student from a class section:

- Go to **Students** in the top navigation menu.
- Click **Drop Student** from the **Actions** column next to the student's name and class section.

NOTE: Students can't drop themselves from a class section.



NOTE: The screenshots above are examples and **don't** reflect this year's current exam administration details.

© 2026 College Board

If a student is dropping a course and the student's **Order Exam?** status is **Yes**, verify if the student still plans to take the AP Exam for the course.

- **If you've already submitted your exam order:** If the student's **Order Exam?** status is **Yes**, and you've already submitted your exam order, you'll need to indicate whether you want to drop the student from the section and remove the exam from the order, or if you want to drop the student from the section but keep the exam in the order.
- **If you haven't yet submitted your exam order:** If the student's **Order Exam?** status is **Yes**, and you haven't yet submitted your exam order, the student is removed from the exam roster once you drop them from the class section. If the student still wants to take the exam without taking the class, don't drop the student from a class section; instead, **move** the student to an exam only section (see pages 80–81).

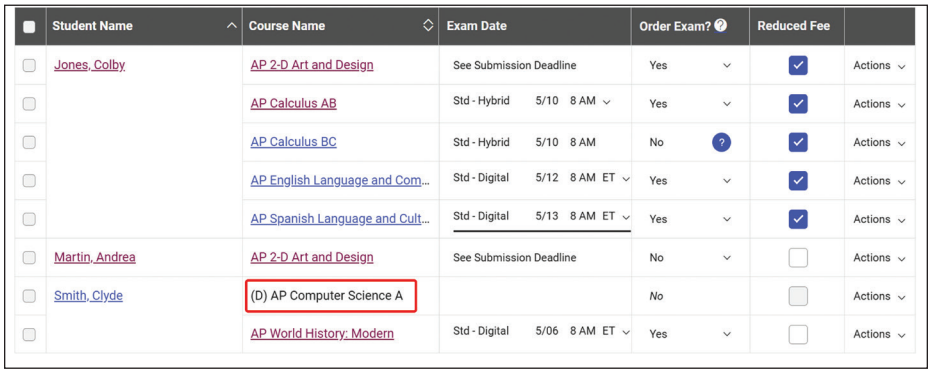
If a student is dropping a class section in one subject and enrolling in a class section in another subject, you must drop the student from the class section in the first subject and give them the join code for the appropriate class section in the new subject.

- For example, if a student is enrolled in a class section for AP Biology and is dropping that course to join an AP Chemistry course, you must drop the student from the AP Biology class section. You or the AP Chemistry teacher can give the join code for the AP Chemistry class section to the student so they can enroll.

After you drop a student, in the student roster you'll initially see a **D** next to the course they've been dropped from. (See example below.)

- If there's no outstanding cost associated with the student, the dropped course will eventually be removed from the student's name in the roster.
- If the course the student was dropped from was their only course, the student will ultimately be removed from the roster.

NOTE: If you submitted the initial order before November 13 **and** already collected exam fees from students, you'll need to have a plan for tracking payments and necessary refunds outside of AP Registration and Ordering.

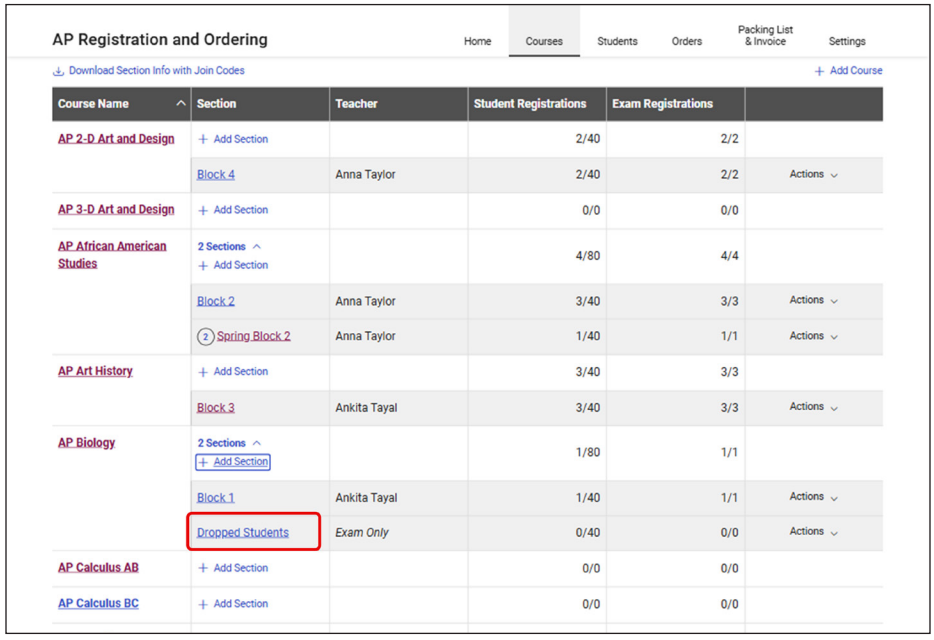


NOTE: The screenshot above is an example and **doesn't** reflect this year's current exam administration details.

© 2026 College Board

NOTE: AP teachers can also drop students from their class sections if you've left that functionality enabled (see page 54). If the student's **Order Exam?** status is **Yes** and the exam order has already been submitted, the student is automatically moved to an exam only section named **Dropped Students** for the course after the teacher drops them from their class section. This section functions like any other exam only section, but is created automatically when a student is dropped. If the student no longer intends to take the AP Exam, you'll need to remove them from your exam order and submit that change to your order. (See **Ordering AP Exams** in this manual for details about submitting changes to your exam order.)

This is an example of a roster with a Dropped Students Exam Only section.



NOTE: For details about what happens next with a student's AP Classroom activity when they drop or change classes or transfer to another school, see the **AP Classroom User Guide for Teachers**, available this fall.

Move a Student (Change Section)

If a student needs to be moved from one class section to another for the same course within their same school, you can either:

- Select **Change Section** from the **Actions** column next to the student's name and class section. (See the next page.)

  OR

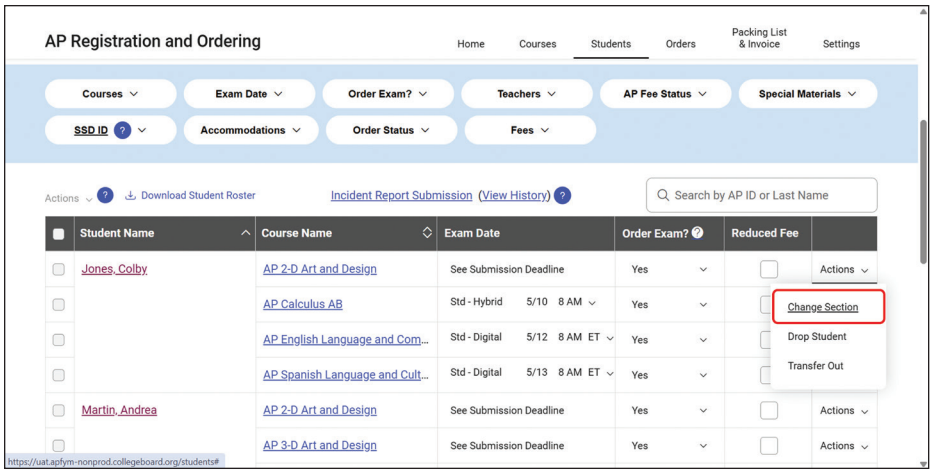
- Have the student enroll in the new class section through My AP using the join code for the new section. By doing this, the student will be moved from the old section to the new section.

When a student changes a class section—either by enrolling in the new section themselves or by the AP coordinator using the **Change Section** action—rather than being dropped from the section, the student's exam decision doesn't change, and no additional costs are incurred regardless of when the student's moved from one class section to another.

Only use the **Change Section** action when a student needs to move to a **different section of the same course**; this includes when a student won't be taking a class but will still be taking the exam, in which case you need to move the student to an exam only section.

If a student is changing from a section in one course to a section in a *different* course, you need to drop the student from the section in the first course and give them the join code for the section in the new course so they can enroll (see **Drop a Student**).

© 2026 College Board



NOTE: The screenshot above is an example and **doesn't** reflect this year's current exam administration details.

If an AP teacher teaches multiple sections of a course, the teacher can move students from one of their class sections to another if you've kept this functionality enabled. (See page 54.) An AP teacher can't move a student to another teacher's class section.

Indicating Transfer Students To or Out of Your School

Students who transfer to or out of your school can be added to or removed from your exam roster without incurring additional fees.

You can **view a video** about transfer students.

REMINDER: This policy doesn't apply to students who transfer to or out of a class, or students who drop a class within your school.

Students Transferring To Your School

Provide the student with the **transfer code** for each class section or exam only section they need to enroll in. The transfer code is a unique code per section that enables the transfer student to enroll in a class section at any time without incurring a late order fee for the exam. When a student uses a transfer code to enroll in a class section at your school, they're also removed from the class sections at their previous school.

Important:

The transfer code is different from the join code. For correct enrollment, give the transfer student the **transfer code** and not the join code for the class section. If you give a transfer student a join code instead of the transfer code, the student might not be able to enroll in the class section, and the late order fee would be applied for each class section they enroll in after November 13 using a join code.

The transfer code can only be accessed and provided by the AP coordinator; teachers don't have access to the transfer code.

To access the transfer code:

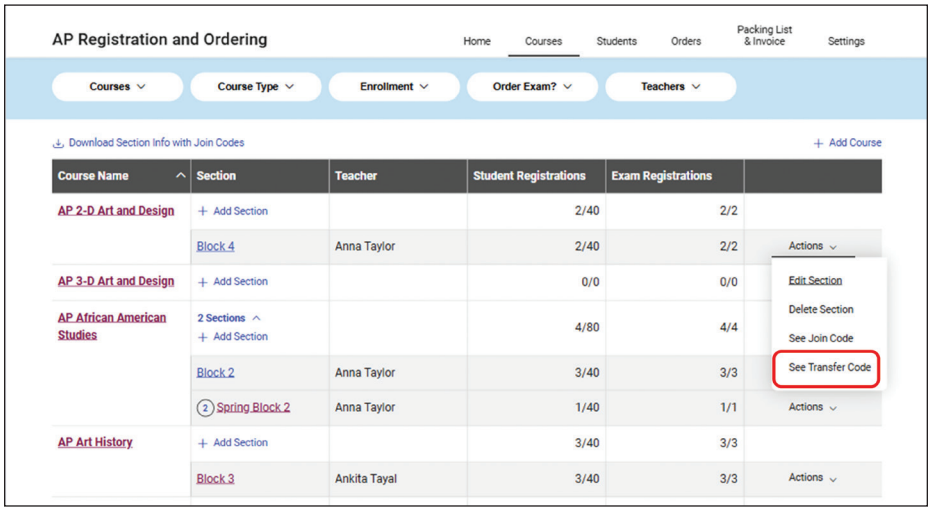
- Go to the **Courses** page.
- Click **Actions** from the appropriate class section name.
- Select **See Transfer Code**.

You can add a student who transfers to your school to your order at any time. After March 12, you'll need to contact AP Services for your exam order to be unlocked so you can make the change.

© 2026 College Board

Important:

You don't need to wait for the student to be transferred out of the class section at their previous school. The student can enroll in a class section at your school using the transfer code even if their previous school hasn't yet switched them to transfer out. Give the transfer code to the student as soon as they enter an AP course at your school.



After the student has enrolled in their class sections and/or exam only sections, review the student's information in your exam roster and order the necessary exams. If the student transfers after you've already submitted your initial exam order, you'll need to submit an update to your order.

NOTE:

- Provide the transfer code for a class section to a transfer student even if the student wasn't enrolled in a class section for the subject at their previous school.
- Using the transfer code doesn't automatically order an exam for a student. If a student enrolls with a transfer code after you've submitted your initial exam order, you'll need to update your exam roster and submit a change to your order.
- Provide the transfer code for each necessary class section to each student who transfers to your school on a one-by-one basis.
- The transfer code can't be used when a student needs to switch class sections within your school. In this case, you need to move the student from one class section to another (see **Move a Student (Change Section)** for details).

Students Transferring Out of Your School

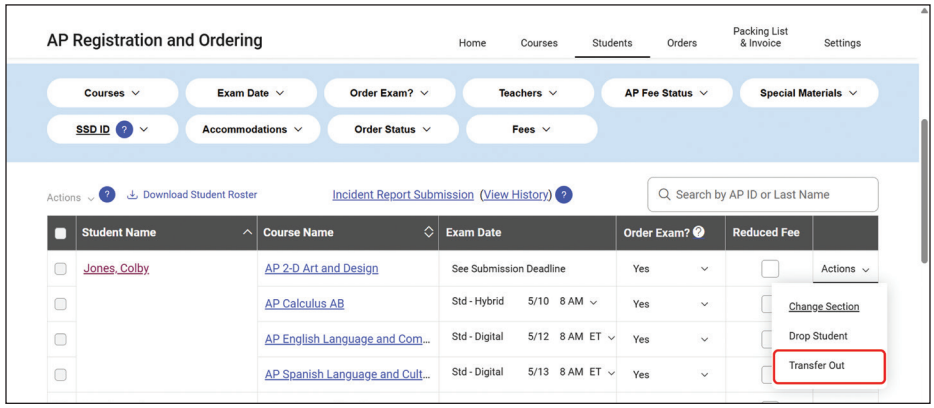
If the student transferring out of your school has already enrolled in class sections through My AP, you'll need to set the student's status to **Transfer Out**.

- Go to the **Students** page.
- Select **Transfer Out** from the **Actions** drop-down list next to the student's name. This automatically drops the student from all sections they enrolled in, removes them from your exam roster, and removes any associated exam fees from your order. The unused/canceled exam fee won't be applied.

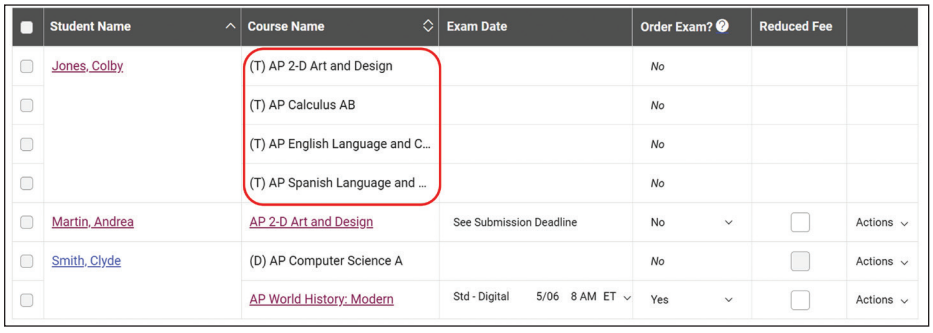
Don't "Drop" the student from a class section.

© 2026 College Board

If you've already submitted your exam order, you need to set the student's status to **Transfer Out** and submit your pending order change so the student's exam(s) and fees will be removed from your exam order. (See pages **98–99**.)



After you indicate a student as **Transfer Out**, a **T** will appear next to their name until you submit or resubmit your exam order. If you indicate the student as **Transfer Out** *after* your exam order has already been shipped in the spring, the **T** will remain next to the student's name.



NOTE: The screenshots above are examples and **don't** reflect this year's current exam administration details.

Important:

Your ability to transfer out the student isn't dependent on their new school enrolling them as a "transfer in." You can select **Transfer Out** in AP Registration and Ordering for the student as soon as they have officially transferred out of your school.

© 2026 College Board

4. Ordering AP Exams

Learn How to:

- Organize the exam roster for order submission.
- Indicate late-testing exams.
- Indicate special materials needed for students with accommodations.
- Indicate students who are eligible for the College Board fee reduction.
- Submit your exam order.
- Submit changes to your initial exam order.

AP Exam orders must be submitted in AP Registration and Ordering by these deadlines:

- **October 2, 2026:** Preferred ordering deadline
- **November 13, 2026, 11:59 p.m. ET:** Final ordering deadline
- **March 12, 2027, 11:59 p.m. ET:** Spring course orders and fall order changes deadline

The first time you click the **Submit** button, you've submitted your initial exam order. If you need to make changes to your order after your initial submission, you'll need to submit those changes. See pages **98–100** for details.

Exam Roster Management

Once students have enrolled, manage changes to your exam roster in preparation for the final ordering deadline of November 13. Any changes can be made until the November 13 deadline without any additional fees.

After November 13, continue to manage necessary changes leading up to the March 12 spring course orders and fall order changes deadline. Fees may apply to changes made after the November ordering deadline (new exam orders submitted or exams canceled). See the **AP Exam Ordering Deadlines, Fees, and Policies** section in this manual for details.

© 2026 College Board

The following table outlines which tasks need to be completed by the November 13 ordering deadline and which tasks can be completed after November 13.

By the Nov. 13 Ordering Deadline	Can Be Completed After Nov. 13
Complete initial setup in AP Registration and Ordering.	Ensure class sections are created and students enrolled for courses that begin after Nov. 13.
Create class sections for all full-year and fall-semester AP courses and exam only sections.	Submit exam orders for courses that begin after Nov. 13 and any fall order changes by March 12, 11:59 p.m. ET.
Ensure students enroll in full-year and fall semester class sections.	If necessary, add homeschooled students or students whose schools don't offer their AP Exam(s) to your exam order by **March 12** *(see pages 38–40 for details).*
Submit exam orders for all full-year and fall-semester courses, and exam only sections.	Collect exam fees *(schools determine when to collect exam fees from their AP students).*
	Indicate or update fee reduction status *(complete by April 30).*
	Switch exam orders to late testing exams, if necessary.
	Update exam orders for special exam formats or materials if needed based on changes to students' accommodations requests.
	Add or remove a transfer student from your order.

Managing Student Enrollment Changes

As you organize your exam order for submission, and even after you submit the order, it's important to manage changes in student enrollment and make necessary updates to your student roster.

- ☐ Students who need to enroll in a class section or exam only section after initial enrollment has been completed or your initial exam order has been submitted *(not transfer students)*
- ☐ Students who **transfer to** your school
- ☐ Students who **transfer out of** your school
- ☐ Students who **move from one class section of a course to another class section of the same course**
- ☐ Students who **drop** a course and who may or may not still be taking the exam

Review the information in **Helping Students Enroll in Their AP Class Sections** in this manual about what to do when students drop a course, move to a different section of a course, or transfer to or out of your school. Make the accurate adjustments in AP Registration and Ordering to avoid unintended fees.

Making Changes After Submitting Your Initial Exam Order

After you submit your initial exam order (i.e., after the first time you click **Submit** in AP Registration and Ordering), you'll need to submit changes to your order anytime you make an adjustment or update. You'll see the message **View unsubmitted changes** on the **Orders** page if you've made changes that need to be submitted. (See pages **98–100** for details.)

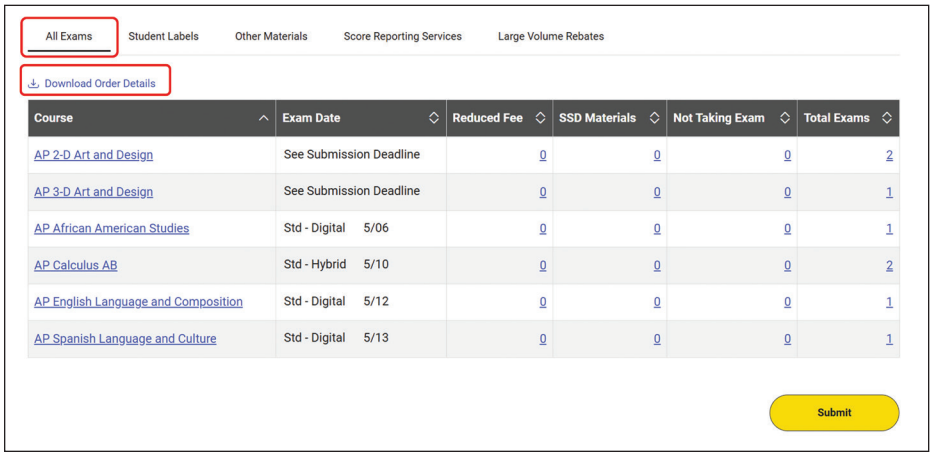
© 2026 College Board

You can download a student roster by clicking the **Download Student Roster** link on the **Students** page in AP Registration and Ordering. See details in **Managing Student Enrollment** in this manual.

Information to Verify in the Exam Roster

On the **Orders** page, review the information in **All Exams**, which displays a summary of all the exams that will be included in your exam order based on information in the **Students** section.

You can download a copy of this exam roster by clicking **Download Order Details**.



NOTE: The screenshot above is an example and **doesn't** reflect this year's current exam administration details.

Click on fields on the **All Exams** page to review and make any necessary changes.

- ☐ **Not Taking Exam:** Verify that students whose **Order Exam?** status is set as **No** don't intend to take the AP Exam. If any students have a status of **Undecided**, check with them to resolve their exam registration (either to **No** or **Yes**) before you submit your exam order. (See page **87** for details about checking for statuses of **No** or **Undecided**.)
- ☐ **Exam Date:** Review the exam date listed for each course. If you know you need both standard and late exams for a particular course but only standard is listed, you'll need to review the exam date listed for students and switch the appropriate students to late testing. You can switch students with existing orders to late testing if needed after submitting your exam order. (See pages **90–91**.)
- ☐ **Reduced Fee:** Account for known fee reductions. You'll be able to update students' fee reduction status after submitting your exam order. The deadline to indicate students' fee reduction statuses in AP Registration and Ordering is **April 30, 2027 (11:59 p.m. ET)**. (See page **97**.)
- ☐ **SSD SSD Materials:** Account for special exam materials for students with approved or expected accommodations. (See pages **93–96**.)

Important:

Submit your order even if you don't yet have final details about students' fee reduction status, students who may need late testing, or students' accommodations approvals. You'll be able to update this information for existing exam orders at a later point without incurring any fees.

© 2026 College Board

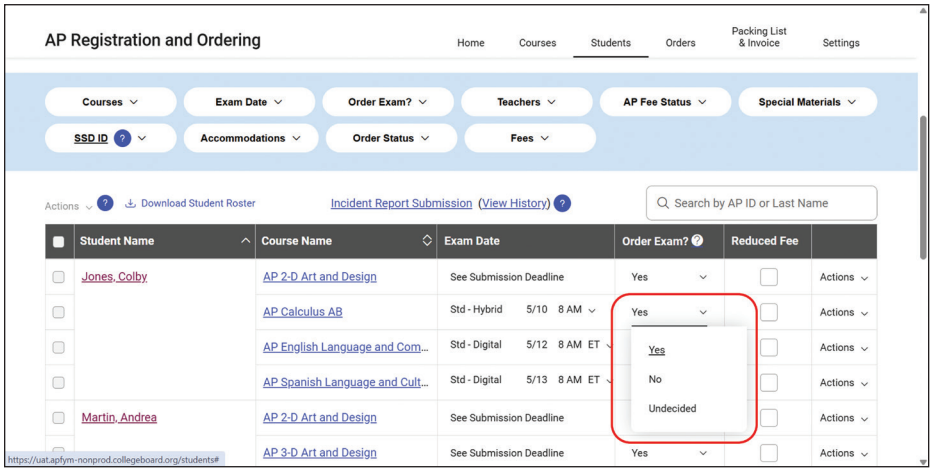
Changing Student Exam Registration

If you need to change a student's exam registration:

- Go to the **Students** page.
- Select the appropriate choice next to the student's name in the **Order Exam?** column.

To cancel a student's exam, change their **Order Exam?** status to **No**. If you're switching a student to **No** after you've submitted your initial exam order, you'll have the option to indicate a reason why the student is no longer taking the exam.

If your school doesn't administer AP Exams but your students go elsewhere to take them, and students are enrolled in class sections at your school (to use AP Classroom resources assigned by their teachers), the **Order Exam?** status must be **No** for the students enrolled in class sections at your school.



NOTE: The screenshot above is an example and **doesn't** reflect this year's current exam administration details.

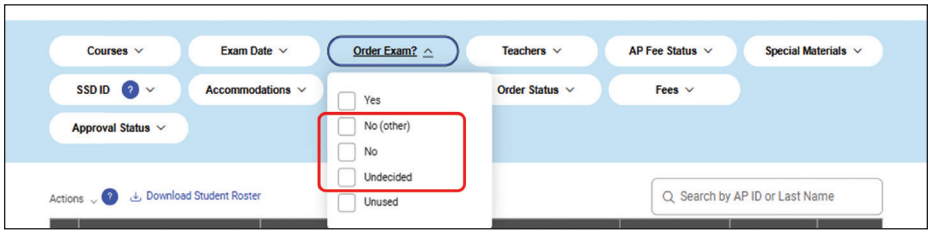
Even if a student isn't taking the exam for an AP class section they're enrolled in, they still have access to AP Classroom resources assigned by their teacher for that class section.

Search for *No* or *Undecided* Exam Registrations

To view a list of all students whose exam registration is **No** or **Undecided**:

- Go to the **Students** page.
- From the **Order Exam?** filter, select **No** and **Undecided**.

Exams for students with **No** or **Undecided** statuses won't be included when you submit your order.

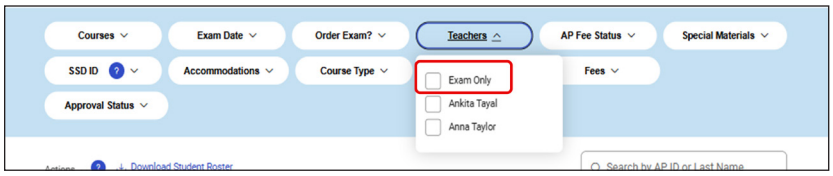


© 2026 College Board

Filter for Exam Only Registrations

NEW To view all students in Exam Only sections:

- Go to the **Students** page.
- From the **Teachers** filter, select "Exam Only."



Exam Orders and Cancellations Are Per Student

Exams are ordered and canceled per student.

If an exam has been ordered for a student and the student decides they would like to take an exam for a different subject, an exam for the new subject must be ordered and the exam for the original subject should be canceled. After November 13, the late order and unused/canceled exam fees would apply.

- For example, if Student A wants to cancel an exam and Student B wants to order an exam for that same subject, you can't switch the exam from Student A to Student B. You'll need to cancel the exam for Student A and update your exam order with the exam added for Student B. If it's after November 13, the unused/canceled exam fee of $40 will be charged for Student A, and the late order fee of $40 in addition to the base exam fee applies for Student B.

Important:

Schools can't give an exam ordered for one student to another student who wasn't part of the exam order. If a student takes an exam that wasn't ordered for them, the student's exam score may not be reported.

Switching Exams for AP Art and Design and AP Calculus

AP Art and Design and **AP Calculus** are the only courses for which you can switch an exam that's already been ordered for a student after November 13 without incurring a late order fee or unused/canceled exam fee.

If you've submitted an order for a student for an AP Art and Design or AP Calculus Exam, and the student wants to switch to another AP Art and Design or AP Calculus Exam, you can make this switch in AP Registration and Ordering by March 12 (11:59 p.m. ET) without any fee.

There are specific processes that must be followed when switching an exam for these subjects.

AP Art and Design:

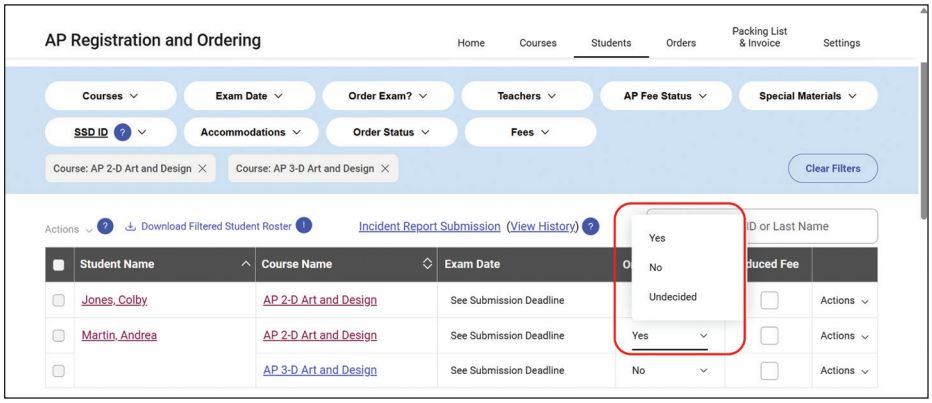
- **Step 1:** Provide the student with the class section join code for the Art and Design subject they want to switch to (the subject they want to submit a portfolio for) and have the student join that class section through My AP. This should be done while the student is still enrolled in their original class section (the one they want to switch out of). Note: If your school has combined Art and Design classes, you need to create class sections in AP Registration and Ordering for each portfolio type offered at your school to order the portfolios. See the **Subject-Specific Information** section of this manual for details about Art and Design orders.
  - For example: A student enrolled in 2-D Art and Design decides they would like to instead submit a portfolio for AP 3-D Art and Design. The student should enroll in the class section for AP 3-D Art and Design **while still being enrolled** in the class section for 2-D Art and Design.

After switching an exam, you need to submit the change to your exam order. See pages **98–100** for details about submitting a change to your order.

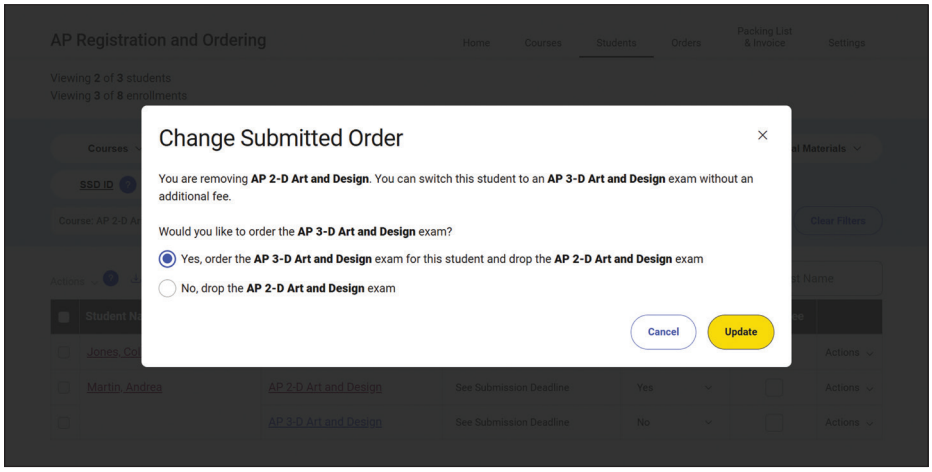
You can view video resources about switching exams for **AP Art and Design** and **AP Calculus**.

© 2026 College Board

- **Step 2:** Once the student has enrolled in the second class section, you'll change the student's **Order Exam?** status for the original class section from **Yes** to **No**.
  - For example: For the student who wants to switch from 2-D Art and Design to AP 3-D Art and Design, you'd switch the student's **Order Exam?** status for **2-D Art and Design** to **No** after the student has enrolled in the class section for AP 3-D Art and Design.



- **Step 3:** When you cancel the student's exam for the first class section (AP 2-D Art and Design), you'll be prompted to confirm if you'd like to order a portfolio exam for the other subject (AP 3-D Art and Design) instead. You'll indicate **Yes**.

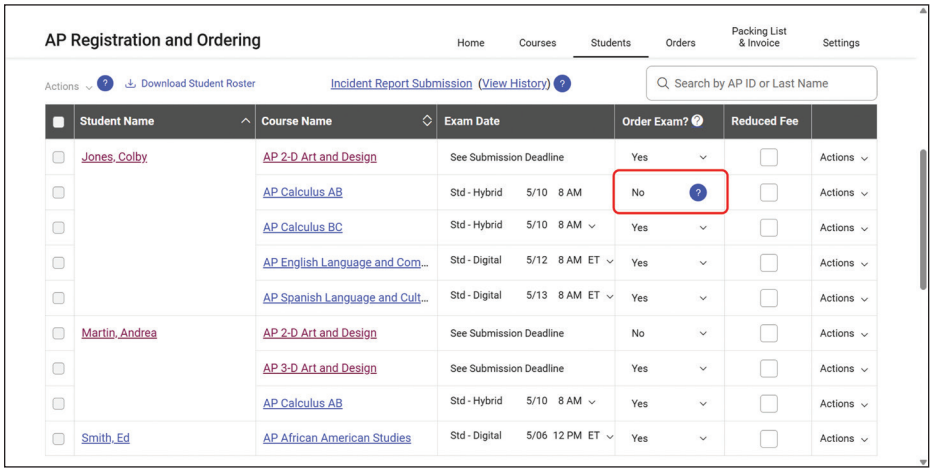


AP Calculus:

- **The student must be enrolled in two class sections:** the one they were originally enrolled in and the one for the exam they would like to switch to.
  - For example: A student enrolled in AP Calculus BC decides they would like to instead take the AP Calculus AB Exam. The student should enroll in the class section for AP Calculus AB while still being enrolled in the class section for AP Calculus BC.

© 2026 College Board

- When the student has enrolled in the second class section, click the tooltip that says **Why can't this be changed?** (the blue question mark) next to the **Order Exam?** field for the class section corresponding to the exam the student isn't taking.
- Select the checkbox to switch the exam.

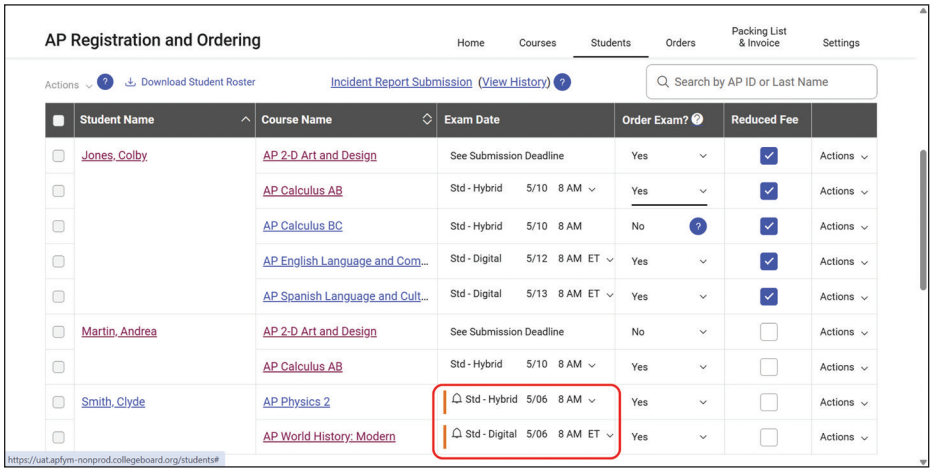


Indicating Late-Testing Exams

You can **view a video** about late testing.

As you organize your exam order in AP Registration and Ordering, indicate any students who will require late testing for 2027 by changing the test date from **Standard** to **Late** for each necessary exam per student.

To help you identify known scheduling conflicts, an alert—a bell icon—is shown when a student has more than one AP Exam on the same date and time.



NOTE: The screenshots above are an example and **don't** reflect this year's current exam administration details.

© 2026 College Board

A filter option enables you to easily find students who have two exams scheduled at the same time. To use the filter:

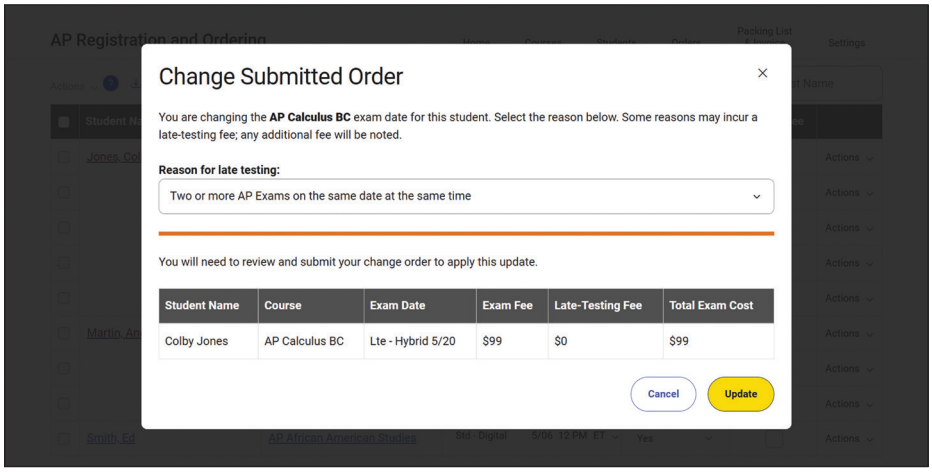
- Go to the **Students** page.
- Go the to **Exam Date** filter.
- Select **Schedule Conflicts**.

The results will bring up all students who have two exams on the same day at the same time. You don't need to scroll through the entire exam roster to find all the students with the bell icon next to their names.

When you select a **Late** exam date for a student, you need to indicate the reason for late testing. If you don't see the student's reason for late testing listed, select **Reason Not Listed**.

NOTE: The late-testing fee is applied if "Reason Not Listed" is selected.

See **Late-Testing Exams** in the AP Exam Ordering Deadlines, Fees, and Policies section of this manual for the AP Program's policy on late testing and a list of reasons that don't incur an additional late-testing fee. Most reasons don't incur the fee.



NOTE: The screenshot above is an example and **doesn't** reflect this year's current exam administration details.

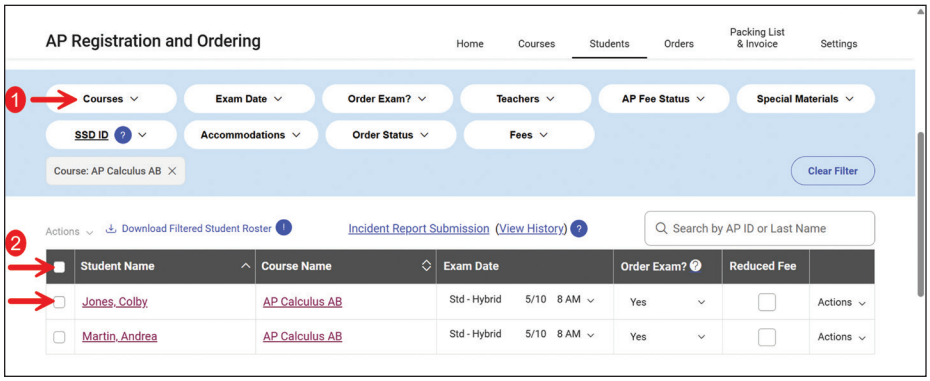
© 2026 College Board

Switching the Exam Date for Multiple Students Per Course

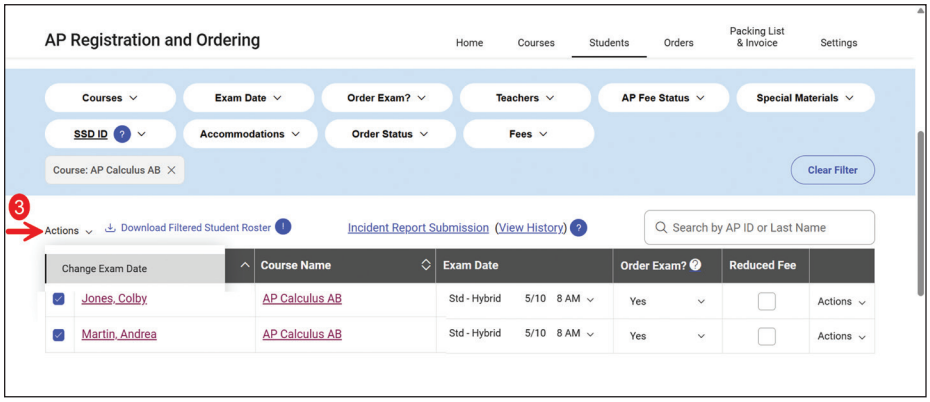
AP coordinators can use the multi-select feature in AP Registration and Ordering to change the exam date for multiple students in a course at once.

To change the date for all students per course:

1. On the **Students** page, first use the course filter to view the roster by a specific course (filter by one course at a time).
2. Select **multiple** students by checking the box next to each student's name, or select **all** students by clicking the box at the top left of the roster.



3. Then, click **Actions** at the top left of the student roster, and choose **Change Exam Date** from the dropdown menu to select the administration you want to move the students to.



4. You'll need to indicate the reason for moving the students to late testing.

NOTE: The screenshots above are examples and **don't** reflect this year's current exam administration details.

After moving students to a later testing date, you'll need to update your exam order if you've already submitted your initial exam order.

© 2026 College Board

SSD Ordering Exams for Students with Accommodations

Work with your school's SSD coordinator to identify all students who will require accommodations for 2027 AP Exams. Assemble a list of these students to refer to when organizing your order in AP Registration and Ordering.

Students can take AP Exams with their approved accommodations. To order paper format exams for a digital subject, the student must have a College Board approved accommodation for paper testing.

There are some details to be aware of regarding **how** you order materials for students testing with accommodations.

Digital AP Exams (Fully Digital and Hybrid Digital)

Most accommodations are automatically applied to the exam order for a digital AP Exam subject based on the student's accommodations on record through the College Board SSD office. There are some steps specific to digital AP Exams with accommodations:

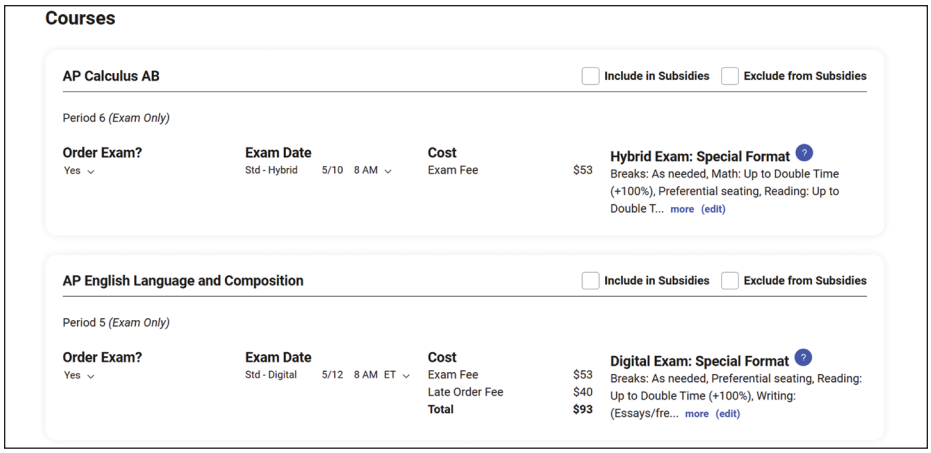
- **Paper Braille Format:** Once a student has been approved by the College Board SSD office for a Paper Braille accommodation, you'll need to update your exam order to indicate paper braille format for the applicable student's digital or hybrid exam subject(s). You won't be able to order paper braille format until the student has received approval from College Board.
- **Paper Format:** Once a student has been approved by the College Board SSD office for a paper testing accommodation, you'll need to update your exam order to indicate that paper format for the applicable student's digital or hybrid exam subject(s). You won't be able to order paper format until the student has received approval from College Board.
- **Large-Print Format:** Unless approved for large-print and paper testing, students won't receive a large-print test book for fully digital exams. Students who have an approved accommodation for Large-Print Test Book and are taking a hybrid digital AP Exam will automatically receive a large-print free-response booklet for the exam(s) ordered for the student by the AP coordinator. The AP coordinator must still be sure to submit the exam order for the student.

Important:

For hybrid digital AP Exams, if a student's large-print test booklet accommodation changes after an order has been submitted (whether due to a new or expired approval from SSD Online, opting out, or opting back in), the AP coordinator will see an "Update Order" prompt on the order screen and must resubmit the order to reflect the change.

- **Multiple-Day Testing:** Multiple-day testing is not automatically applied to a digital exam order. If a student has approved accommodations that make them eligible for multiple-day testing, you'll need to indicate that for the applicable student's digital or hybrid exam subject(s). See details in the ***AP Accommodations Guide***, which will be available in mid-December.
- **Confirming or Waiving Accommodations:** Even though most accommodations are automatically applied, you need to confirm the accommodations that a student will need for their digital AP Exam. This is done per student, per exam in AP Registration and Ordering. Confirming the accommodations is important to ensure students receive the appropriately configured version of the digital exam. You can also waive accommodations for a student's exam if needed. It's best to confirm and waive accommodations in the spring. Details can be found in the ***AP Accommodations Guide***.

© 2026 College Board



NOTE: The screenshot above is an example and doesn't reflect this year's current exam administration details.

Details About Certain Accommodations

- **Multiple-Day Testing:** If a student needs to test across multiple days, due to either approval of limited-time testing or the amount of approved extended time, you'll indicate **multiple-day testing** for the student in AP Registration and Ordering. Extended time doesn't always result in multiple-day testing, and extended time alone doesn't need to be indicated in the system. Talk to the SSD coordinator if you're unsure whether a student with extended time needs multiple-day testing. Students may test across multiple days under either of the following conditions:
  - The student's amount of total testing time, excluding breaks, exceeds 6 hours. For example, if a student is approved for up to double time (+100%) extended time for all parts of an exam and is taking a 3-hour 15-minute exam, total test time exceeds 6 hours with extended time and they may test across 2 days.
  - The amount of testing time is equal to or less than 6 hours, and the student has been approved for limited-time testing. The accommodation of limited-time testing limits the amount of time that a student can spend on testing per day. Not all students with limited-time testing need multiple-day testing for a particular exam; it depends on the length of the exam and the amount of limited-time testing the student is approved for. For example, for a 3-hour exam, a student approved for 4 hours of testing per day wouldn't need to test across multiple days, but a student approved for only 2 hours of testing per day would need to test across multiple days.
- **Braille:** For every braille exam ordered, a corresponding print version of the exam will be included in the braille exam shipment.
- **Large-Print Answer Sheet:** A large-print answer sheet is provided for every large-print paper exam ordered for students who are approved for both large-print and paper testing.
- **Administering Braille or Paper Exam Formats for Digital AP Exams:** Exam day instructions will be provided in the spring about administering braille or paper formats of digital AP Exams.

© 2026 College Board

Additional Information About Special Exam Materials Orders

Orders for special exam materials for students with accommodations are reviewed by the AP Program. If additional information is needed about the order, an email will be sent to the AP coordinator on record. Emails will be sent starting in early 2027. If you receive this email, follow the directions provided promptly.

You can also check the status of special materials orders by clicking **View Approval Requests** on the **Orders** page in AP Registration and Ordering.

Requesting Accommodations and Ordering Exams Are Different Actions

Submitting an order for special exam formats **isn't** the same as submitting a request for accommodations, and vice versa.

- Accommodations **requests** must be submitted through SSD Online by the SSD coordinator.
- Students must be approved by the College Board SSD office in order to take an exam with accommodations.
- Exam **orders** are placed through AP Registration and Ordering by the AP coordinator.

Important:

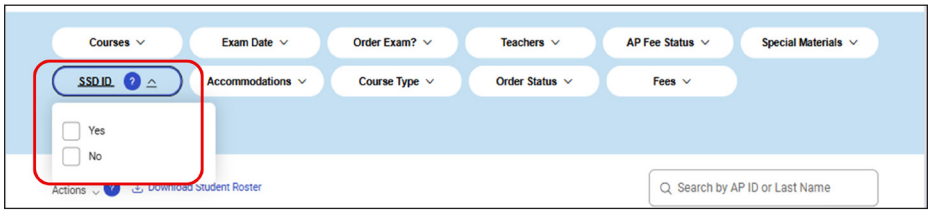
Paper or braille exam materials don't ship automatically based on accommodations approval. They must be selected by the AP coordinator and included in the exam order. Special format exam materials will be shipped **only** if the AP coordinator has indicated this in AP Registration and Ordering and submitted the information as part of their exam order.

Specific steps need to be taken to confirm or edit accommodations for students taking digital AP Exams. Review the **AP Accommodations Guide**, available in mid-December, for more details.

Searching for Students with Accommodations

AP Registration and Ordering and SSD Online are separate systems, but you can filter your student roster in AP Registration and Ordering for students who have an SSD ID. A student will have an SSD ID if they have a record in SSD Online. This filter will distinguish students who have an SSD ID and at least one approved and unexpired accommodation that is AP eligible.

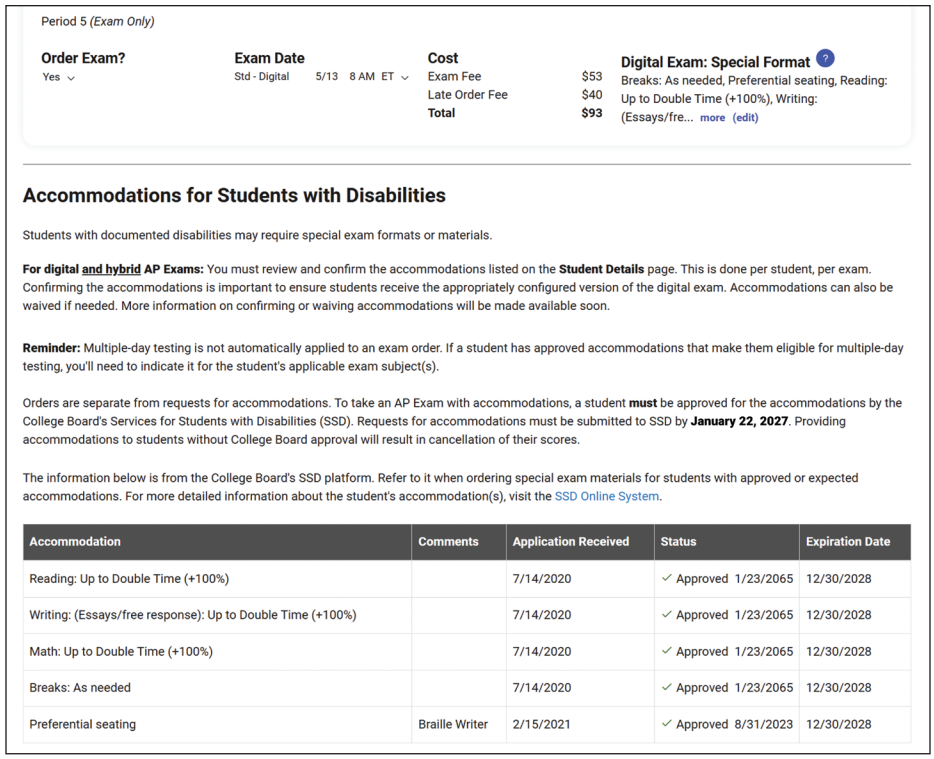
To search for students with an SSD ID, apply the **SSD ID** filter on the **Students** page.



To view a list of the accommodations on record for each student:

- Go to the **Students** page.
- Click the student's name—this brings you to the **Student Details** page, which lists the courses the student is enrolled in.
- At the bottom of the **Student Details** page is a section called **Accommodations for Students with Disabilities**, which lists the status of any accommodations requests for the student in the College Board SSD Online system.

© 2026 College Board



Period 5 *(Exam Only)*

Order Exam?	Exam Date	Cost		Digital Exam: Special Format
Yes	Std - Digital 5/13 8 AM ET	Exam Fee	$53	Breaks: As needed, Preferential seating, Reading: Up to Double Time (+100%), Writing: (Essays/fre... more (edit)
		Late Order Fee	$40	
		Total	**$93**	

Accommodations for Students with Disabilities

Students with documented disabilities may require special exam formats or materials.

For digital and hybrid AP Exams: You must review and confirm the accommodations listed on the **Student Details** page. This is done per student, per exam. Confirming the accommodations is important to ensure students receive the appropriately configured version of the digital exam. Accommodations can also be waived if needed. More information on confirming or waiving accommodations will be made available soon.

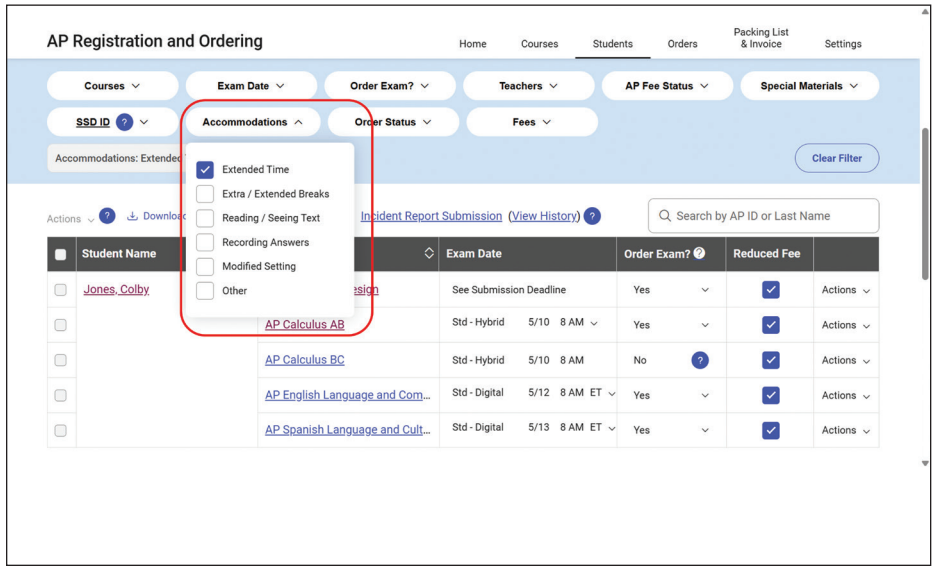
Reminder: Multiple-day testing is not automatically applied to an exam order. If a student has approved accommodations that make them eligible for multiple-day testing, you'll need to indicate it for the student's applicable exam subject(s).

Orders are separate from requests for accommodations. To take an AP Exam with accommodations, a student **must** be approved for the accommodations by the College Board's Services for Students with Disabilities (SSD). Requests for accommodations must be submitted to SSD by **January 22, 2027**. Providing accommodations to students without College Board approval will result in cancellation of their scores.

The information below is from the College Board's SSD platform. Refer to it when ordering special exam materials for students with approved or expected accommodations. For more detailed information about the student's accommodation(s), visit the SSD Online System.

Accommodation	Comments	Application Received	Status	Expiration Date
Reading: Up to Double Time (+100%)		7/14/2020	✓ Approved 1/23/2065	12/30/2028
Writing: (Essays/free response): Up to Double Time (+100%)		7/14/2020	✓ Approved 1/23/2065	12/30/2028
Math: Up to Double Time (+100%)		7/14/2020	✓ Approved 1/23/2065	12/30/2028
Breaks: As needed		7/14/2020	✓ Approved 1/23/2065	12/30/2028
Preferential seating	Braille Writer	2/15/2021	✓ Approved 8/31/2023	12/30/2028

As the exam administration approaches, you can use the **Accommodations** filter on the **Students** page to search for students with accommodations that have been approved by the College Board SSD office.



NOTE: The screenshot above is an example and doesn't reflect this year's current exam administration details.

© 2026 College Board

Indicating Student Fee Reduction Status

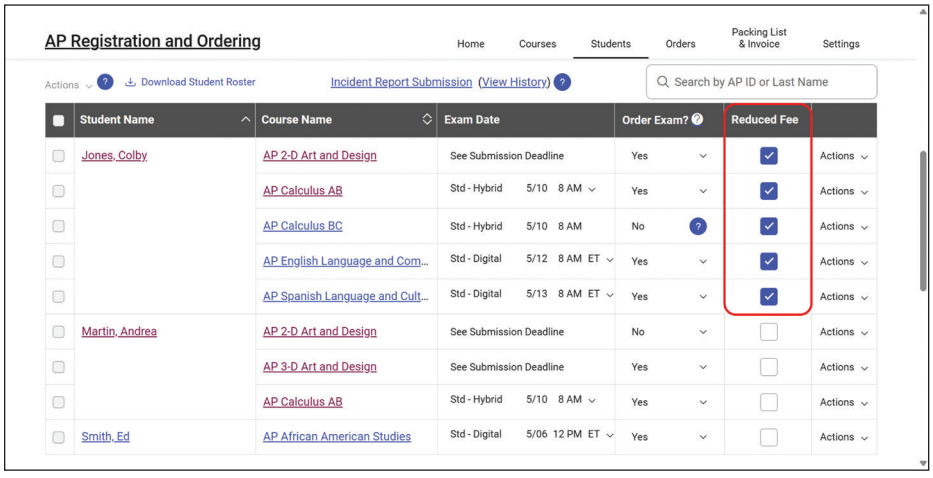
Deadline: You can update students' fee reduction status in AP Registration and Ordering until **April 30, 2027, 11:59 p.m. ET**.

For your invoice to accurately reflect any fee reductions, you must indicate the fee reduction status for each eligible student in AP Registration and Ordering.

Go to the **Students** page:

- For each student who is eligible for the College Board fee reduction, check the box for **Reduced Fee** next to their name in the student roster.
- For students who aren't eligible for the fee reduction, no action is needed.

Fee reduction status is indicated only once per student, not for each exam. If you change the fee reduction status for a student who's taking multiple exams, the fee reduction status change will automatically carry over to all their exams.



NOTE: The screenshot above is an example and doesn't reflect this year's current exam administration details.

You can update students' fee reduction status after submitting your exam order. You don't need to submit a change to your exam order when you update a student's fee reduction status.

See details about the AP fee reduction policy in the **AP Exam Ordering Deadlines, Fees, and Policies** section of this manual.

You can **view a video** about indicating fee reductions.

© 2026 College Board

Submitting the Order

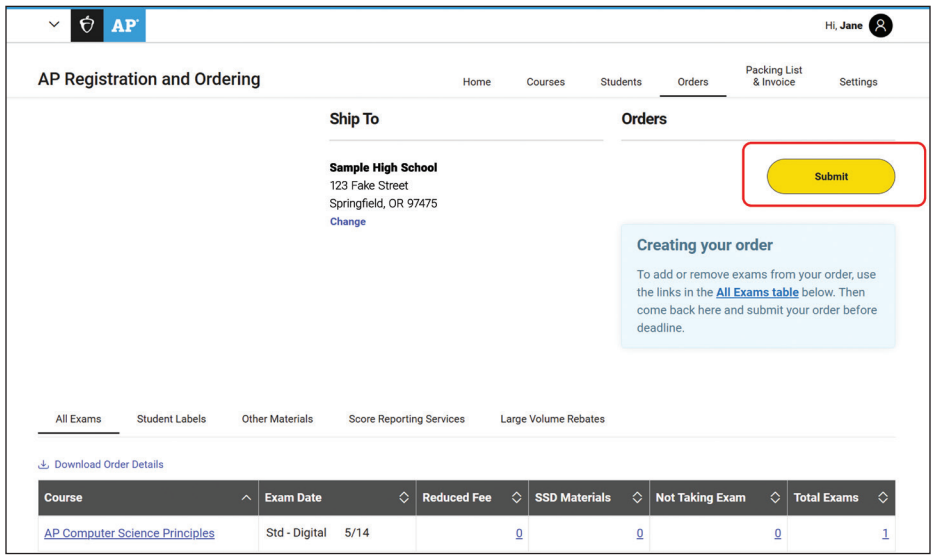
After you've made any necessary adjustments to the order, review the exam information shown on the **Orders** page one final time.

To submit your order, click the yellow **Submit** button. You'll then confirm you want to submit the order.

Important:

You can make changes and click **Submit** as many times as needed up until 11:59 p.m. ET on November 13 without incurring additional fees.

As a best practice, after you've submitted your initial exam order, it's recommended you click **Submit** any time you make a change to your order.



NOTE: The screenshot above is an example and **doesn't** reflect this year's current exam administration details.

Important:

You won't be able to submit your exam order if you:

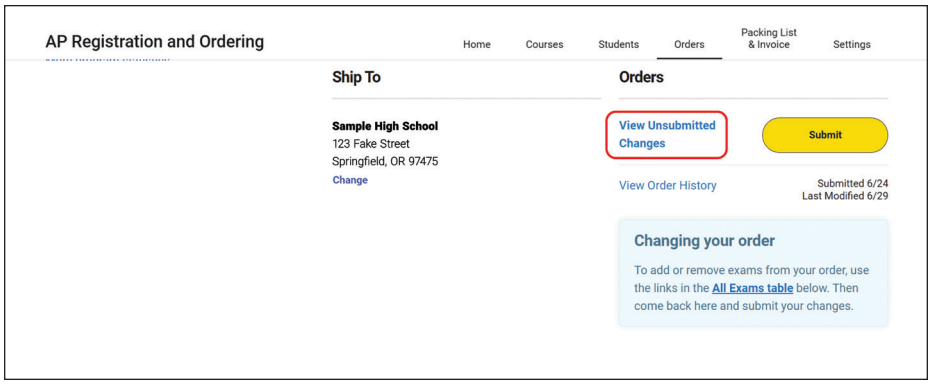
- Haven't completed setup of AP Registration and Ordering.
- Have an outstanding balance from a previous AP Exam administration.
- Have a security hold.

Submitting Changes to Your Initial Exam Order

The first time you submit your exam order in AP Registration and Ordering is considered your initial order. If you make updates after submitting your initial exam order, you need to submit these changes. Changes could include new student enrollments, students transferring to or out of your school, late-testing exams, or special exam materials for students with accommodations. If you have unsubmitted changes, you'll see the message **View Unsubmitted Changes** on the **Orders** page.

BEST PRACTICE: *Check for unsubmitted changes anytime you're in AP Registration and Ordering.*

© 2026 College Board

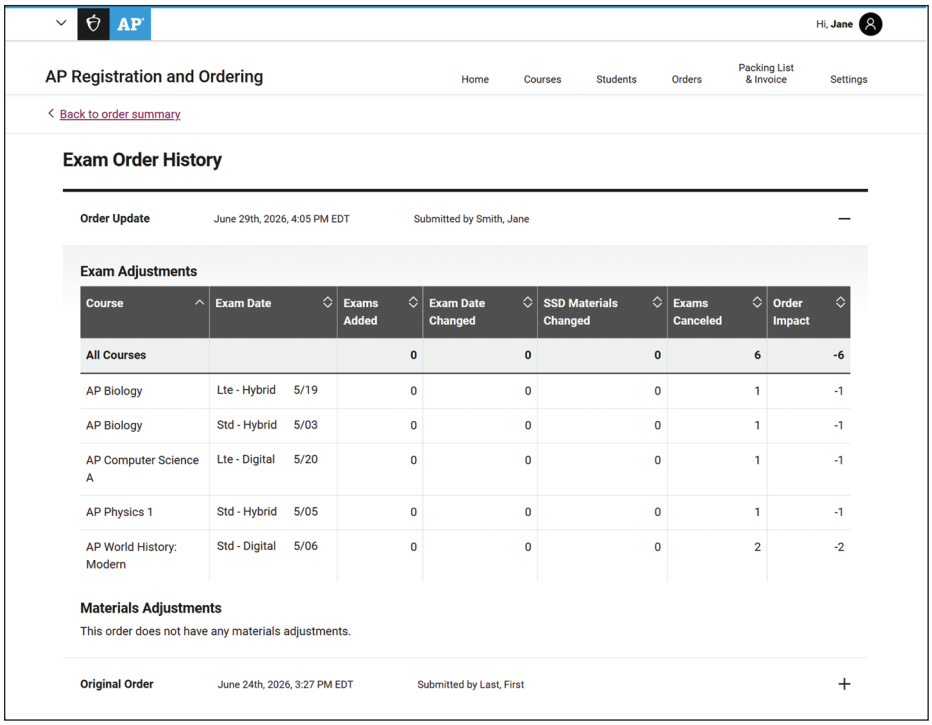


Important:

You can submit changes to your order as many times as needed until the November 13 final ordering deadline without incurring any additional fees. Changes submitted after November 13 and by March 12 may incur late order or unused/canceled exam fees.

BEST PRACTICE: *Check the status of any approval requests by selecting* ***View Approval Requests*** *from the* ***Orders*** *page. There may be additional actions noted that need to be taken for an order.*

On the **Orders** page, click **View Order History** to see the record of your initial order submission and all subsequent changes you've submitted to your order.



NOTE: The screenshot above is an example and doesn't reflect this year's current exam administration details.

© 2026 College Board

Next Steps

Once you've submitted your AP Exam order through AP Registration and Ordering by the November 13 final ordering deadline, you've completed the necessary steps for the fall. After November 13, manage updates to your exam order.

Please continue to access available resources and trainings. If you have a specific question about your order, refer to the information on the inside front cover of this manual to contact AP Services.

Ongoing Exam Order Management

Between November 14 and March 12, manage any updates to your exam roster leading up to the spring course orders and fall order changes deadline of **March 12 (11:59 p.m. ET)**. Areas to account for are:

- ☐ Exam orders for courses that start after the November 13 ordering deadline.
- ☐ Student enrollment changes: students who transfer to or out of your school; students who drop a course; students who move to a different class section of a course.
- ☐ Late exam orders (i.e., exam orders submitted after November 13 for full-year or fall-semester courses or for students in exam only sections).
- ☐ Known exam cancellations (you're encouraged to submit known cancellations by March 12—doing so simplifies the invoicing and return shipment processes; you won't receive exams for students you already know don't plan to test).
- ☐ SSD Any special exam formats or materials needed due to updated accommodation requests.
- ☐ Orders for late-testing exams for students with known testing conflicts.

Submitting Order Changes

If you make any changes to your exam order after you've submitted your initial order, you'll need to submit these changes in AP Registration and Ordering. Go to the **Orders** page. If you have the message **View Unsubmitted Changes**, you must submit your changes.

Plan to organize updates to your exam order ahead of the March 12 deadline.

BEST PRACTICE: *Even if you've been organizing and submitting changes to your exam order before March 12, check AP Registration and Ordering on March 12 before 11:59 p.m. ET to make sure you don't have any unsubmitted order changes.*

© 2026 College Board

Indicating Student Fee Reduction Status

The deadline to indicate students' fee reduction status through AP Registration and Ordering is **April 30, 2027 (11:59 p.m. ET)**. See page 97 for more information.

Check Students' School Code

For accurate score reporting, it's critical that students correctly select their school when they provide their registration information. Once students are enrolled in their class sections, download the student roster, and look at the school code for each student to ensure students have indicated the correct school. If you see any errors, let the students know that you cannot update the student's school code for them, but that they must correct their information in their **AP Profile** in My AP (**myap.collegeboard.org**).

You can **view a video** about school codes.

Receive AP ID Label Sheet Shipments

For schools administering hybrid digital and/or accommodated paper AP Exams, AP coordinators should receive their shipment of AP ID label sheets between late March and mid-April. Label sheets will be sent in a separate shipment from your school's AP Exam materials.

If you don't receive the shipment of AP ID label sheets by mid-April, you can check the shipment tracking through AP Registration and Ordering. The *2026-27 AP Coordinator's Manual, Part 2* will have details about tracking and receiving the updated AP ID label sheets.

NOTE: The AP Program can't guarantee that AP ID label sheets can be produced for students added to your exam order after March 12, 2027.

Exam Administration and Post-Exam Tasks

Details about administering AP Exams and post-exam processes will be in the *2026-27 AP Coordinator's Manual, Part 2*.

© 2026 College Board

Resources and Tools for AP Teachers and Students

This section gives AP coordinators an overview of AP Classroom and My AP for teachers and students, including the resources and tools available to them. Details about AP Classroom are at **cb.org/apclassroom**, including AP Classroom user guides for teachers and students.

Guides with information about getting started are available for teachers and students. See **Helping Students Join Your AP Class Section** and **Joining Your AP Class Section** at the end of this manual.

Teacher Access to AP Classroom

See pages **65–66** for details about the course audit steps.

Reminder About AP Course Audit

To access the AP Classroom resources and for class sections to be created (either by the coordinator or by the teacher), new AP teachers and those teaching a new or different AP course for the first time in 2026-27 must add their course(s) and have the course audit form(s) approved by an administrator in AP Course Audit. If teachers have any questions about this process, they should contact your school's AP Course Audit administrator.

Signing In

AP teachers can access AP Classroom directly by going to **apclassroom.collegeboard.org** or by going through AP Central (see next page).

Teachers sign in using the same login information they use with AP Course Audit, the AP Community, and AP Score Reports for K–12 Educators.

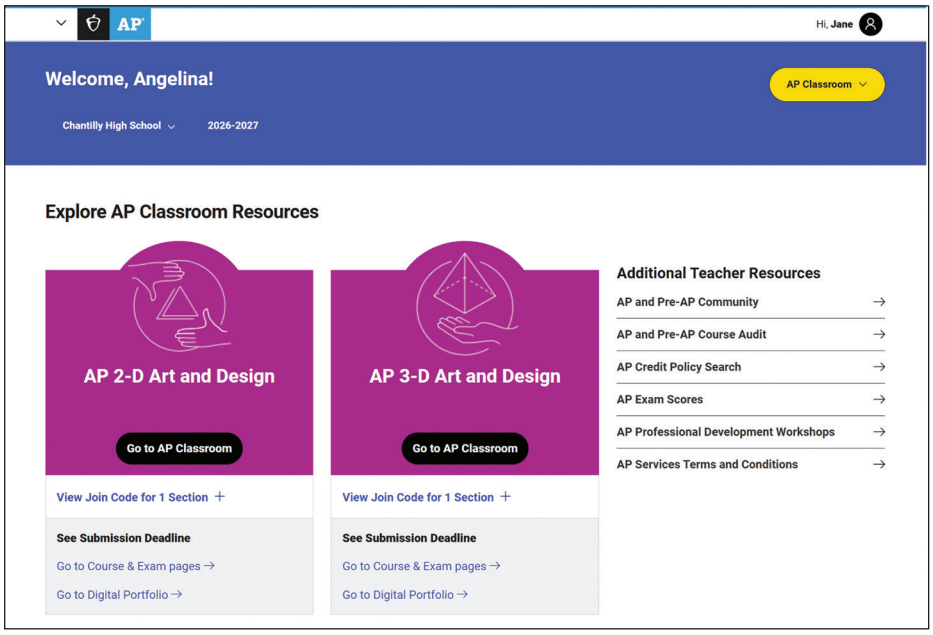
It's important that teachers don't create multiple College Board accounts.

Teachers need access to a computer or tablet (minimum resolution 1024 × 768) that supports the latest version of Chrome (preferred), Safari (preferred), Firefox, or Edge and is connected to the internet.

© 2026 College Board

If teachers sign in to AP Classroom by going through AP Central at **myap.collegeboard.org**, they'll see their personalized homepage with a card for each course they teach. To access AP Classroom, teachers can click **Go to AP Classroom** below each course or the yellow **AP Classroom** link at the top right to select from a list of their courses. To bypass this AP Central page, teachers can access AP Classroom directly by going to **apclassroom.collegeboard.org**.

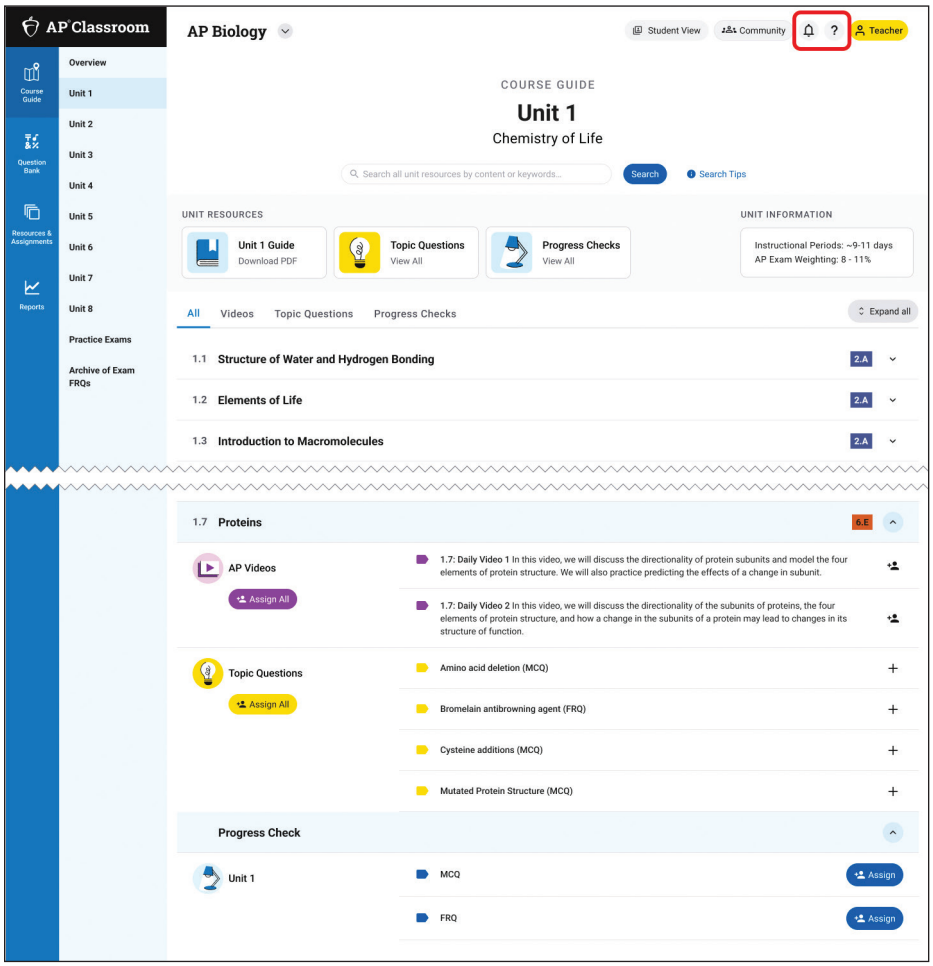
The AP Classroom user guide for teachers is available at **cb.org/apclassroom**.



© 2026 College Board

AP Classroom

Once in AP Classroom, teachers can access AP resources to support their course(s) and students.



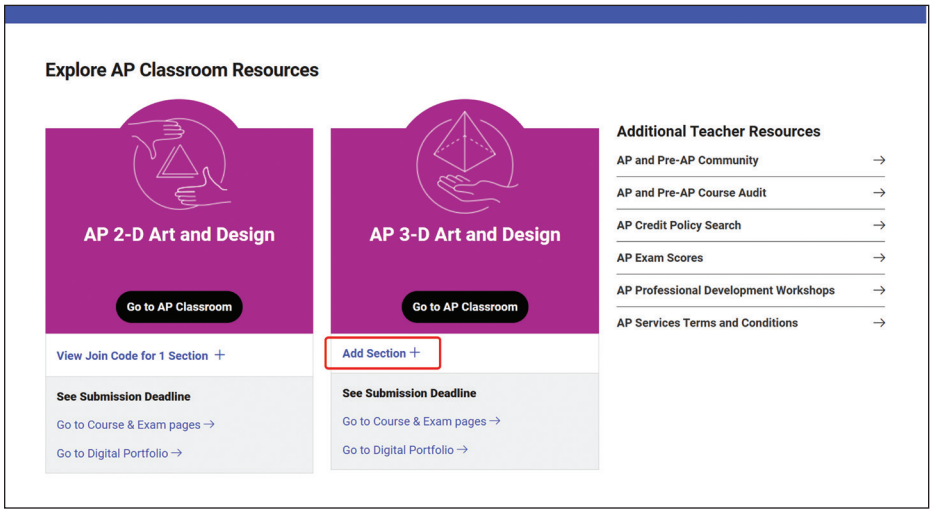
For step-by-step guidance on how to get the full benefit of the resources available in AP Classroom, teachers can access FAQs, interactive tutorials, and detailed user guides by clicking the **?** (Help) at the top right of the screen in AP Classroom. Click the **bell** icon to see recent announcements of updates.

© 2026 College Board

Creating Class Sections

This information applies if teachers are creating their own sections. It's recommended that AP coordinators create class sections, so that section names are consistent for organizational and score reporting purposes for the entire school. If the coordinator is creating class sections, teachers only need to know how to view the join codes for their sections (see the next page). Communicate with AP teachers to let them know if they should create their own class sections.

If class sections haven't been created yet, the teacher can sign in through **myap.collegeboard.org**, and click **Add Section +** below the course card on their personalized homepage.



After clicking **Add Section +**, complete the information on the next screen:

- **Section Name:** Use the naming convention that works best for your school. Class section names should be easily recognizable by students and educators because they'll appear in AP Classroom and AP score reports. The limit for the section name is 20 characters.

BEST PRACTICE: *Name sections consistently and clearly for organizational and score reporting purposes.*

- **Maximum Number of Students:** This will default at 40, but the teacher or AP coordinator can edit this number as necessary. Once the number of enrollments equals the maximum number of students, no one else will be able to enroll in that section unless the coordinator or teacher edits the field to increase the maximum number.
- **Course Schedule:** There are several options for course schedule.
  - **Standard Full Year:** Use this option if the section is held for the whole school year **or** only during the first semester.
  - **Fall Semester Only:** Use this option if the class section begins and ends during the current calendar year. These orders must be finalized by the November 13 ordering deadline so they don't incur a late order fee.
  - **Spring Semester Only:** Use this option if the section begins after the November 13 final ordering deadline or is held only during the second semester.
- **Teacher(s):** Co-teachers can be added if applicable.

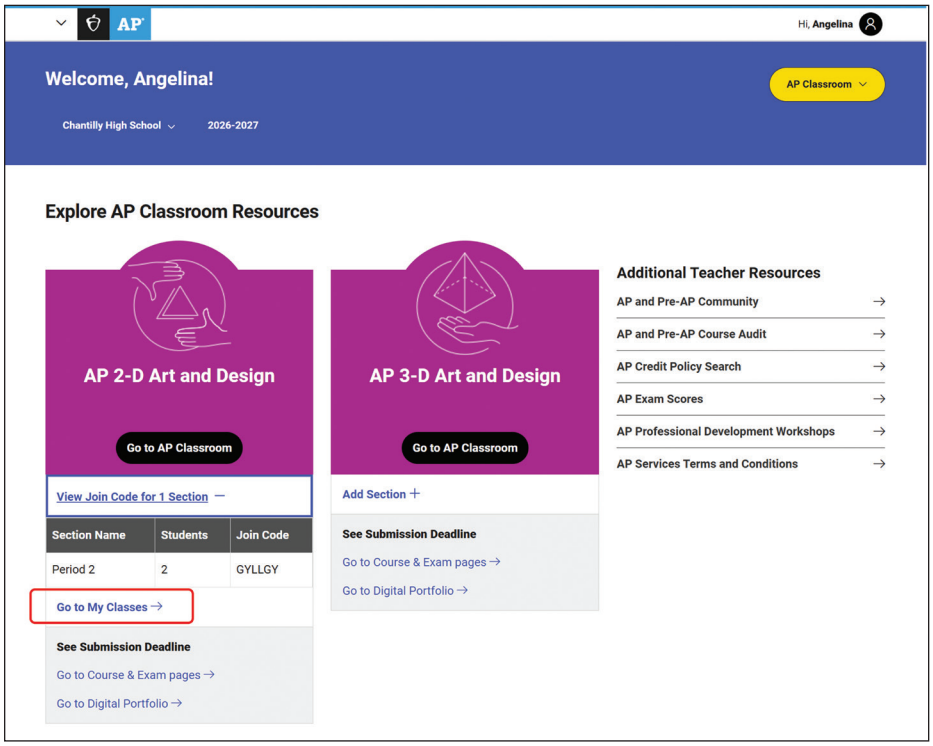
BEST PRACTICE: *Set up unique class sections for each class period taught so teachers can assign resources and get feedback on student performance per class.*

© 2026 College Board

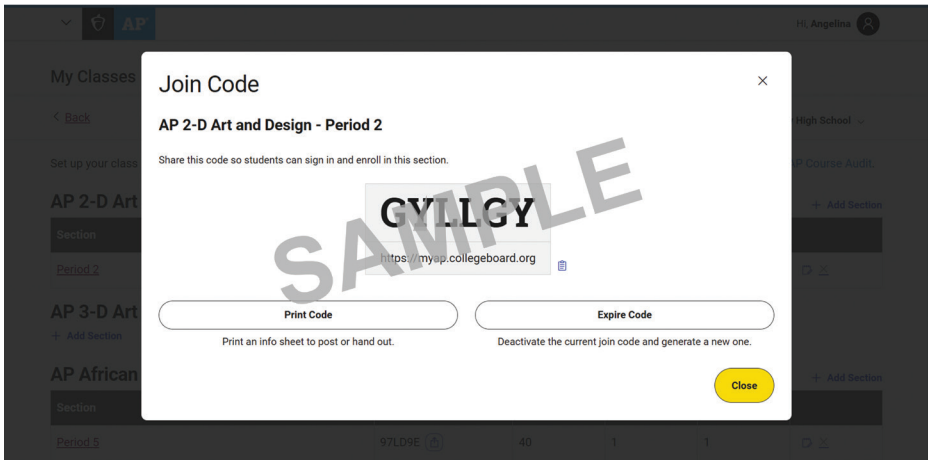
Viewing the Join Code

Once a class section has been created, the join code can be accessed through the **View Join Codes** link on the course card on the teacher's personalized homepage. Teachers can also click the **Go to My Classes** link to manage their classes.

Helping Students Join Your AP Class Section at the end of this manual provides step-by-step directions for teachers. It can also be downloaded as a standalone resource from **cb.org/apresourcelibrary**.



To open a printable view of the join code for a particular section, navigate to **My Classes**, and click the **arrow** icon next to the join code.



Important:

Join codes are generated per class section, not per student or per teacher. Therefore, if a teacher has multiple sections, the system will generate a unique join code for each section for the teacher to provide to their students. Students must have a join code for each class they're taking to enroll in the system and to be accounted for in the exam order. Students also need to be enrolled to access AP Classroom "resources" (or "resources and assignments") for every AP course they're taking.

As students enroll, teachers can view the enrollments and students' exam registrations.

© 2026 College Board

Confirming Students' Exam Registrations

If you've selected the **advanced student exam decision indicator setting** and have also enabled the teacher confirmation setting, AP teachers can update students' exam registrations up until the student decision deadline. (See pages **62–63**.) Teachers can confirm that all of their students' exam registrations are updated; when a teacher does this, students in the teacher's class section can no longer adjust their exam registration. Teachers should inform students about any changes to their exam registration; the system doesn't send notifications to students if a teacher changes their exam registration for a course.

After the student decision deadline, which is set by the AP coordinator, only the coordinator can adjust students' exam registrations.

Accessing AP Classroom Resources

Teachers can use AP Classroom resources for their students.

NOTE: Available AP Classroom resources vary by course. They can include the following.

- **Unit Guides** outline all required course content and skills covered on the AP Exam, organized into commonly taught units. Unit Guides will suggest sequencing and pacing of content, scaffold skill instruction across units, and provide tips on taking the exam.
- **AP Videos** are a series of on-demand, short videos that cover selected content and skills from the AP Course and Exam Description and are available in AP Classroom for students to watch anytime, anywhere.
- **Topic Questions** are formative assessment questions that help teachers check student understanding as they teach each topic (or skill, task model, or required reading, depending on the structure of the AP course). They include rationales to explain correct and incorrect answers to students.
- **Progress Checks** are unit-based formative assessments that provide feedback on student progress with course content and skills through:
  - Multiple-choice questions with rationales explaining correct and incorrect answers.
  - Free-response questions with scoring guidelines to help teachers evaluate student work.

  Teachers also have the flexibility to include Progress Check questions in quizzes they assemble from the Question Bank.
- The **Question Bank** is a searchable library of all AP questions that teachers can use to build customized practice for their students. Teachers can create and assign assessments with formative and summative questions, including questions from official practice or released AP Exams.
- The **Reports** section of AP Classroom provides teachers with a one-stop shop for student results on all assignment types, and by specific course components. Teachers can:
  - See a summary of student completion and performance on all assignments.
  - Chart class and student performance on Progress Checks throughout the year.
  - View a snapshot of student performance on specific course components, like topics and skills, over a chosen date range.

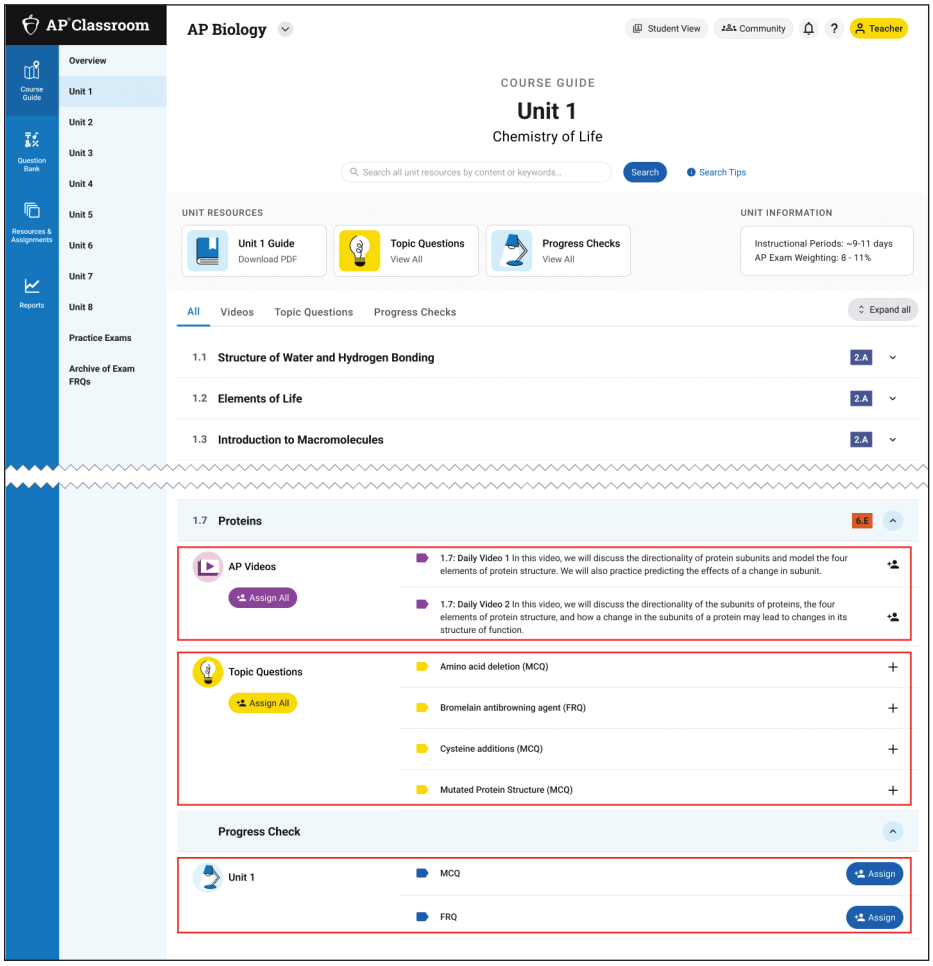
Teachers can access these resources by clicking on the AP Classroom links on their personalized homepage on AP Central. Teachers can assign resources after class sections have been created.

© 2026 College Board

When teachers click **Go to AP Classroom** from the course card on AP Central, they'll go to the course's Course Guide on AP Classroom, where they'll see the same topics and skills outlined in the AP Course and Exam Description. Teachers can click on a topic to expand it and see the associated resources, including AP videos and Topic Questions they can assign.

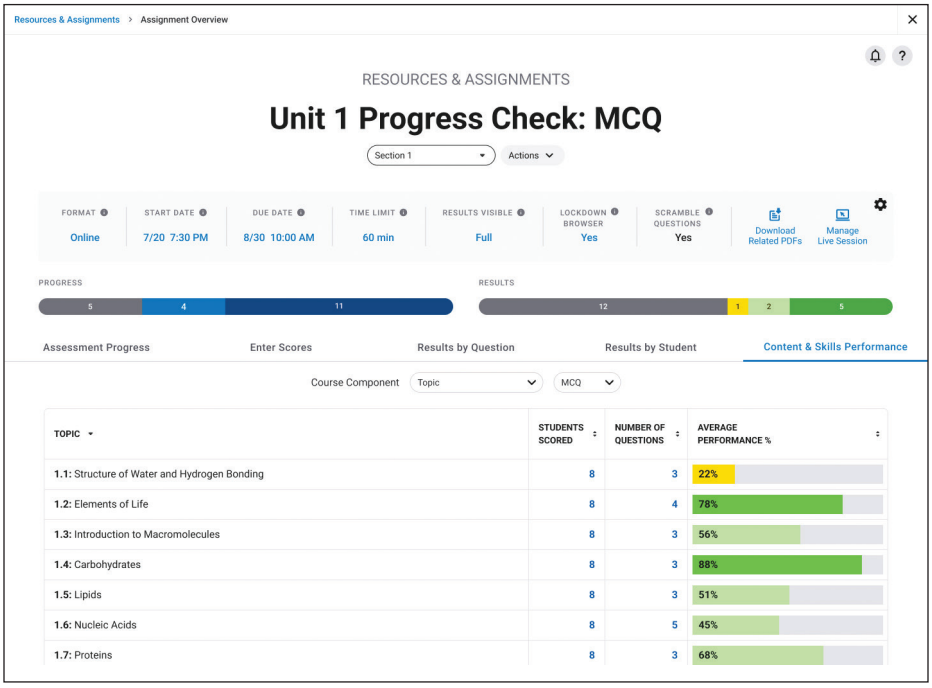
At the end of each unit, teachers can find a Progress Check, which they can assign to check for student understanding of the content and skills of the unit. As the Progress Checks are assigned from unit to unit, teachers can analyze the results using Reports to chart student learning across the entire course. If the teacher does not follow the suggested unit and topic sequence, they can edit the Progress Checks or assemble their own from the question bank.

After students sign in to My AP and enroll in their AP class sections, they'll be able to access AP Classroom resources for their classes.



© 2026 College Board

This example shows a feedback report for the first Multiple-Choice Question (MCQ) Progress Check.



© 2026 College Board

Student Access to My AP and AP Classroom

Joining Your AP Class Section at the end of this manual provides step-by-step directions for students. It can also be downloaded as a standalone resource from **cb.org/apresourcelibrary**.

To access **My AP**, all AP students go to **myap.collegeboard.org** and sign in with the email address and password associated with their College Board account. This is the same login they may have used to previously access My AP, AP and PSAT/NMSQT scores, or to register for the SAT. If students don't have a student account, they can click the **Create Account** link. (Students will also use these credentials to log in to the AP Digital Portfolio and Bluebook for digital AP Exams.)

Students need access to a computer or mobile device that supports the latest versions of Chrome (preferred), Safari (preferred), Firefox, or Edge and is connected to the internet.

After signing in, students see their personalized My AP homepage. They must enter the join code provided by their AP teacher or AP coordinator for each of their AP classes. This enrolls them in the course, facilitates exam order identification and submission, and allows them to access AP Classroom coursework their teacher assigns.

If a student is just taking an AP Exam without taking the corresponding class, they must enter the join code provided by their AP coordinator for each exam only section. This will add the student to your order for you to submit. All students—including those in exam only sections—can access AP videos and some high-level course resources if they are available, such as course project preparation materials.

Important:

Join codes are generated **per class or exam only section**, not per student or per teacher. If a student is enrolled in multiple AP courses and/or exams, they'll receive a unique join code for **each class or exam only section**. To be accounted for in the exam order, students must enroll in their classes or exam only sections through My AP. They also must be enrolled in class sections to access the available AP Classroom resources for every AP class they're taking.

Joining a Class or Exam Only Section

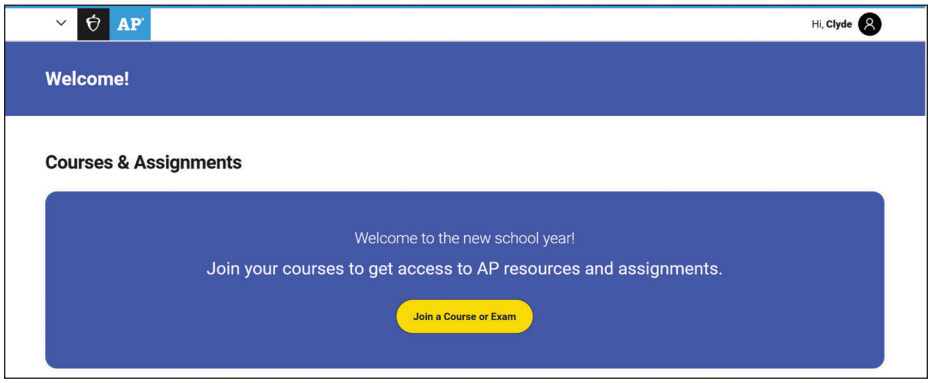
On the first day of class, teachers provide the join code for their class section to their students. Remember, only the AP coordinator can access and provide the join code to a student for an exam only section.

To join a class or exam only section, students:

- Sign in to **myap.collegeboard.org**.
- Click **Join a Course or Exam**.
- For each class section or exam only section, enter the join code provided by the AP teacher or AP coordinator to enroll. If a student is taking AP Exams at multiple locations, they need to get the appropriate join codes from the AP coordinator at each location where they'll be testing.

© 2026 College Board

- Complete their registration information. Students do this once, after entering the join code for their first section.



Registration Information

When a student signs in and enters a join code for the first time, they'll be prompted to provide registration information. Students should be sure that this information is accurate. For some fields, students have the option to select **Do not wish to respond**.

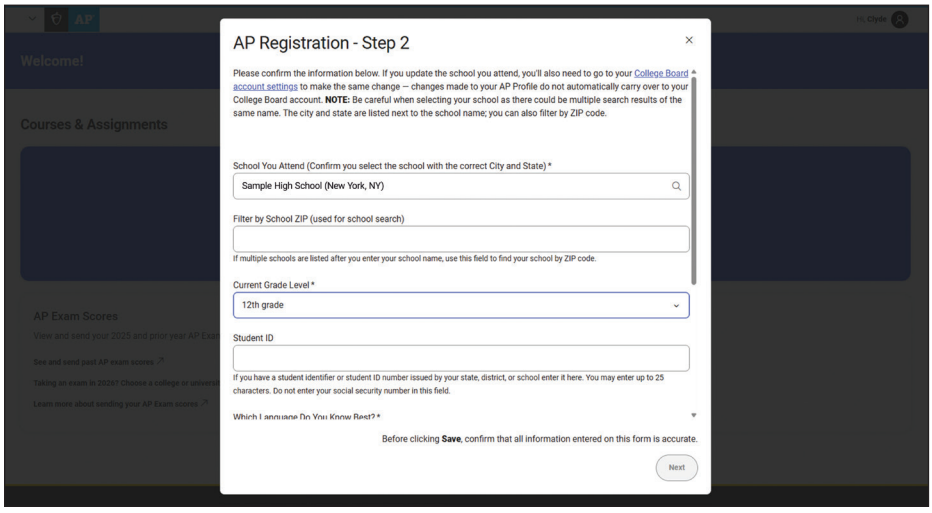
Students need to check the information that's already filled in and provide the remaining information. If any of their names (first and last), middle initial, or date of birth need correcting, have them contact AP Services after they've completed their registration to adjust the information. If a student updates any other information in their AP Profile, they'll also need to sign in to their College Board account to make the same updates. The updated information in their AP Profile won't automatically carry over to their College Board account.

Students may have questions about a few fields.

- **School You Attend and Filter by School Zip Code:** The school's city and state will be displayed next to the school name when students search for their school. Students only need to enter a zip code if their school name isn't already listed and they can't find it by searching by school name. This could be the case if there are multiple schools with the same name. In this case, students can use the school's zip code to find the correct school. Students may need a reminder about their school's zip code.
  - A homeschooled student can search for their state or country plus "home school" (e.g., New Jersey Home School) and select this entry. If they can't locate their school through the school name or zip code search fields, they can select **I can't find my school**. If a student selects this, their mailing address is designated as their homeschool.
- **Parental Level of Education:** If a student isn't sure of their parents' level of education, advise them that it's OK to select **Do not wish to respond.**

© 2026 College Board

- **Student ID:** This optional Student ID is included in AP Classroom report exports of individual student data and can be used to facilitate importing AP Classroom data into school systems (for example, an SIS or LMS) or associating it with other data sources.

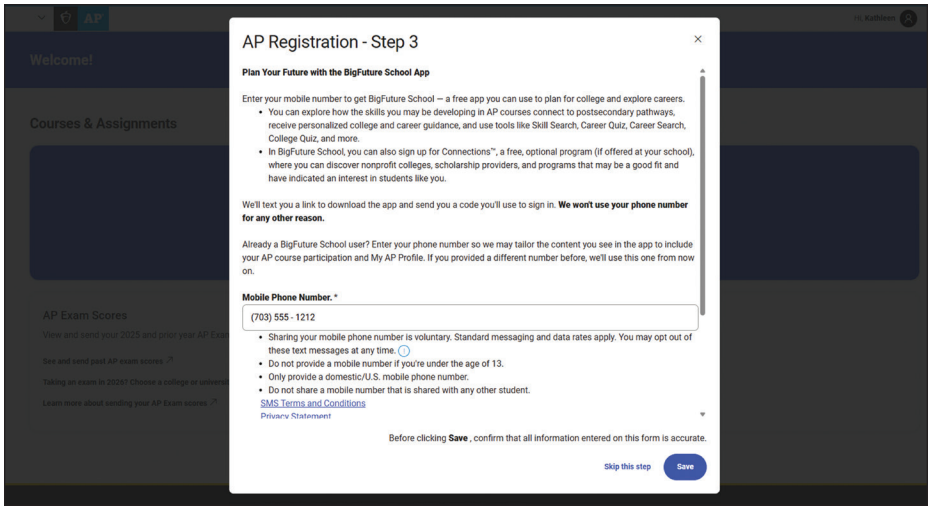


Indicating Free Score Report Recipient

Every student can have one free AP score report each year sent to any college, university, or scholarship program of their choice. Students indicate the recipient of their free score report at **cb.org/apfreescoresend**. The deadline for students to indicate or change their free score report recipient is **June 20, 2027**.

BigFuture School

NEW If the AP coordinator at an eligible school has enabled access to the BigFuture School app, students can choose to participate by providing their mobile number specifically and only for BigFuture School purposes when completing registration in My AP. By providing their mobile number, College Board will text them a link to download the app and send them a code they'll use to securely sign into the BigFuture School app. If a student skips this step during registration, they can provide their mobile number to access BigFuture School through their My AP profile at any time.



© 2026 College Board

Connections

NEW If the AP coordinator at an eligible school has enabled access to Connections in conjunction with BigFuture School, a student will have the ability to opt in to Connections during the BigFuture School mobile app onboarding process. If a student wants to use Connections, they will need to provide a mobile number and download the BigFuture School app first before they see the option to opt in to Connections. Students can update their choice to opt in or out of Connections at any time from the BigFuture School app settings.

Indicating Exam Registration (for Advanced Student Exam Decision Indicator Setting Only)

If you've selected the advanced student exam decision indicator setting, advise AP teachers and students that students need to indicate their exam registration through My AP. If you leave the exam decision indicator at the default setting, students don't need to indicate their decision to take the exam in the system; the default setting includes all students who enroll in class sections before the November 13 final ordering deadline with an **Order Exam?** status of **Yes** in the exam roster.

See pages **60–63** for details about the default and advanced settings.

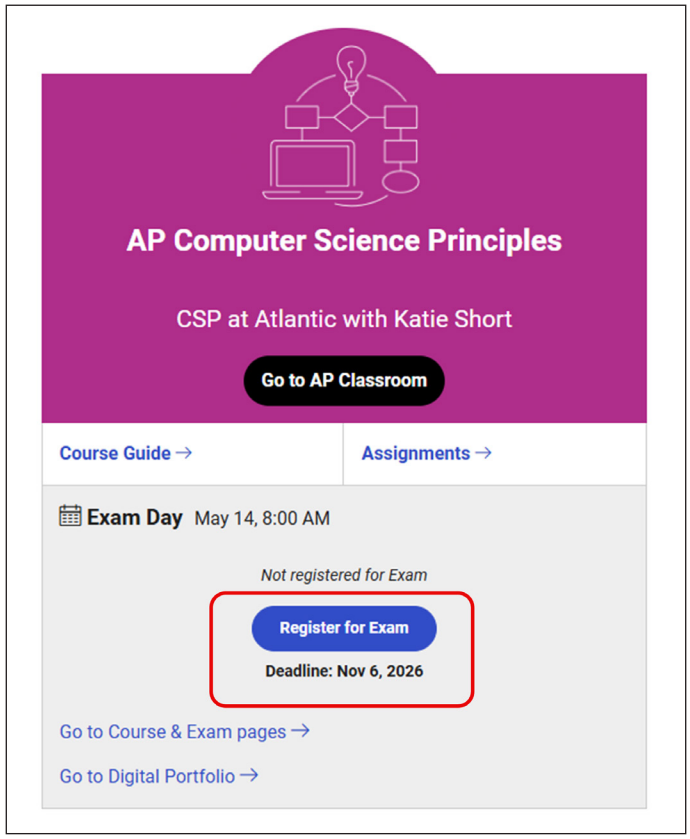
If you've selected the advanced exam decision indicator setting:

- Coordinators or teachers should tell students the deadline.
- In **My AP** the student clicks **Register for Exam** for each class section they're enrolled in.
- From the next screen, the student selects either **Confirm Registration** (if they're taking the exam), or **No, I wish to remove myself from taking this AP Exam**.
  - Students who are taking the exam at a school other than the one at which they're taking the class should select **No** for the section at the school where they're taking the class only. This will enable them to register for the exam at the other school.
- The student should make sure the school indicated is the school where they plan to take the exam; if it's not, they should contact you.

The screenshot on the next page is just an example. The deadline shown below the **Register for Exam** button will be the date you set as the student decision deadline when you select the advanced decision indicator setting.

© 2026 College Board

Once the student has registered for the exam, the name of the school where the student will be taking the exam is listed.



NOTE: The screenshot above is an example and doesn't reflect this year's current exam administration details.

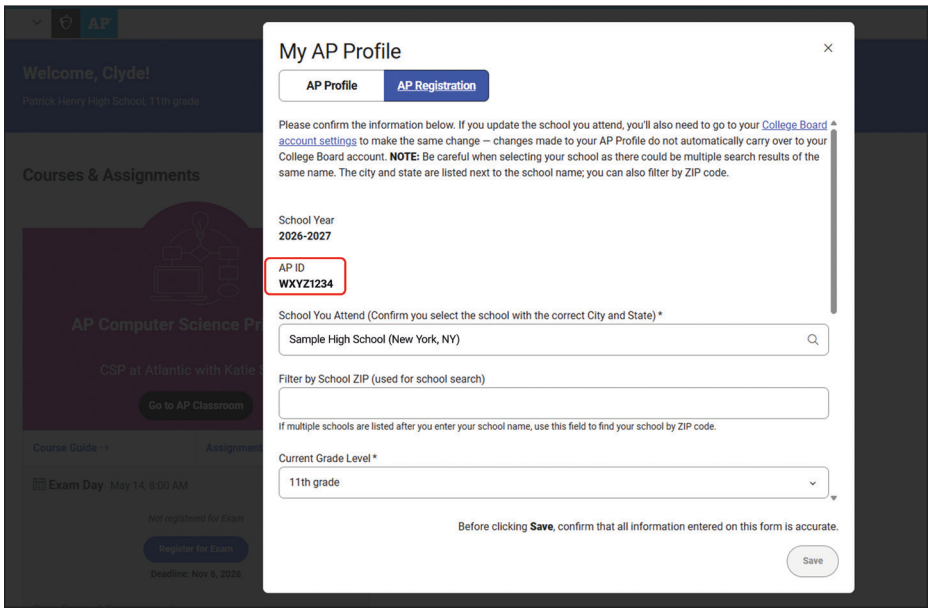
Viewing the AP ID

After completing their registration information, students can locate their AP ID if necessary.

- Students go to their My AP homepage.
- They click the link for **My AP Profile** in the top right.
- Then they click the **Registration** tab.



Accessing AP Classroom Assignments

Students can click **Go to AP Classroom** to access resources for their course, **Course Guide** for an outline of all required course content and skills covered on the AP Exam and to access any AP videos available for their course, and **Assignments** to access the specific assignments from their teacher.

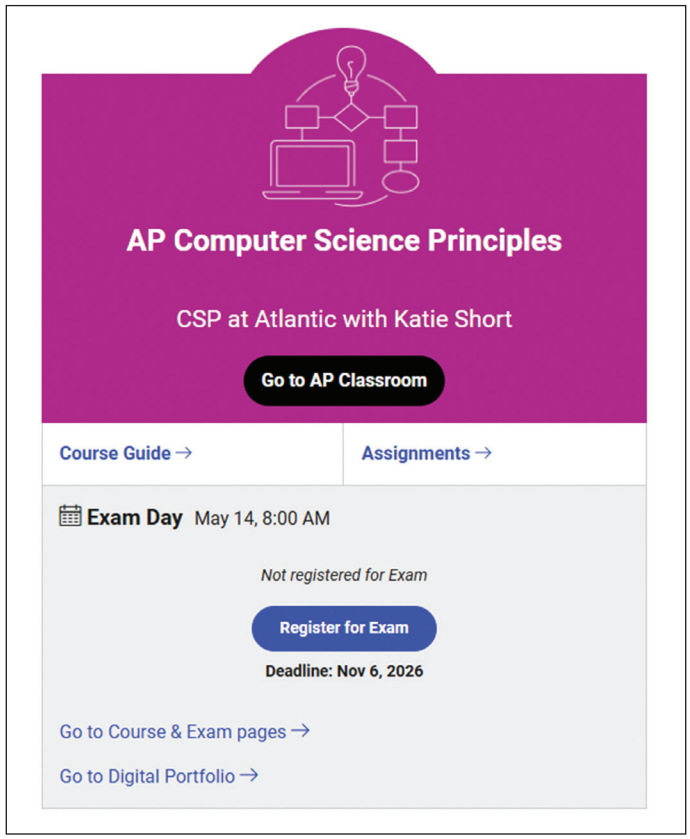
AP Classroom's online test-taking experience closely matches the look, feel, and features of Bluebook, the digital AP Exam application, helping students become familiar with the digital question-response experience they'll encounter on exam day. While AP Classroom assessments—including those delivered with the optional LockDown Browser—are separate from the Bluebook application, they provide students with valuable opportunities to practice navigating and responding in a digital testing environment. For the most accurate representation of the AP Exam experience, students should also download the Bluebook application and explore the available Test Previews.

Students should talk to their AP teachers if they have questions about accessing or completing their AP Classroom assignments.

The AP Classroom user guide for students is available at **cb.org/apclassroom**.

© 2026 College Board

If a student enrolled in a teacher's class section cancels an exam, they'll still be able to access AP Classroom assignments from that teacher.



NOTE: The screenshot above is an example and doesn't reflect this year's current exam administration details.

AP TEACHERS

Helping Students Join Your AP Class Section

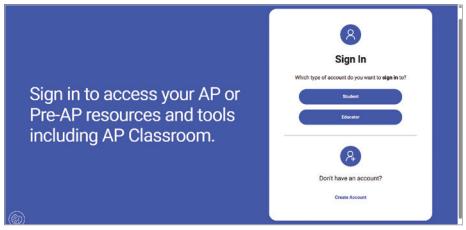
At the start of the school year, your students take five minutes to join your class section online and access AP resources.

Before classes start

Find the six-character join code for each of your class sections.

1 SIGN IN

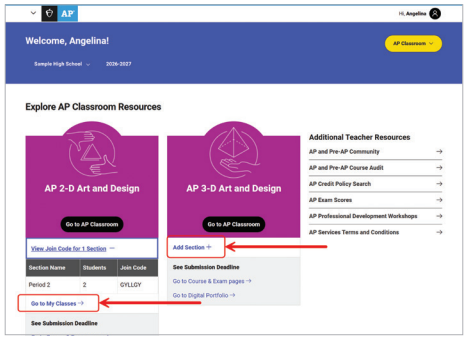
Sign in to **myap.collegeboard.org** using your College Board login. This is the login you use to access AP® course audit, the online teacher community, and score reports.



2 GET JOIN CODE(S)

You'll see a card for each course you're approved through AP Course Audit to teach, with quick access to AP resources for you and your students. If you're teaching a new course this year, submit your course audit form for approval by your course audit administrator first.

Click **View Join Code +** for the join code students will use to join this year's section in your course card(s). Don't distribute last year's join code. If you don't see your section, click **Add Section +**. Check with your AP coordinator about your school's naming convention for sections.



On the first day of class

- ☐ Distribute the "join code" assignment to students.
- Download the assignment, Joining Your AP Class Section, at **cb.org/joinapclass**.
- ☐ Share your join code with your class, and encourage students to write it on their assignment or save it. Review the assignment together. Tell students to sign in to **myap.collegeboard.org** and join your class section before the next class.

On the second day of class

- ☐ Sign in to **myap.collegeboard.org**, click **View Join Code +** and then **Go to My Classes**. Check your class roster(s) to see which students still need to join.
- ☐ If any students aren't on your class roster, take a few minutes to have them sign in with their College Board login and join your class section.
- ☐ Click **Go to AP Classroom** to begin using AP Classroom resources with students!

Write your join codes here:

Build and Check Student Understanding All Year

Use **AP Videos** in class, as homework, for additional practice, or as review.

Use **Topic Questions** and **Progress Checks** to give you and your students real-time feedback to help you address common misunderstandings.

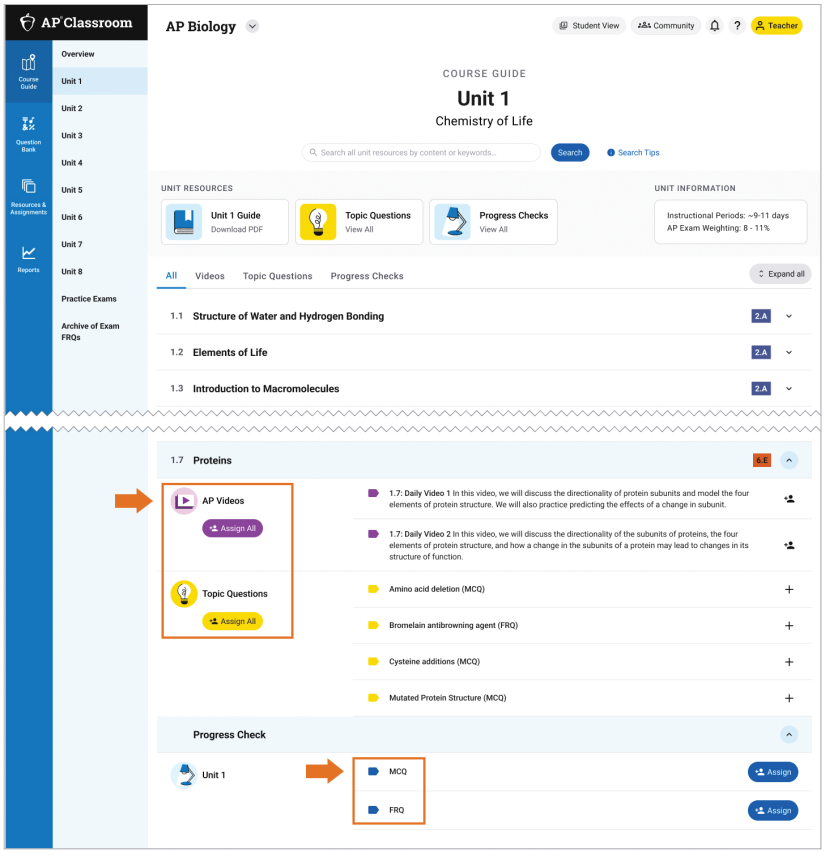
NOTE: Available AP Classroom resources vary by course.

WHEN TEACHING A SPECIFIC TOPIC:

Flexibly incorporate AP Videos into instruction. Support student learning of course content and skills by assigning these short videos for students to watch in class, as homework, for additional practice, or as review. The short videos cover selected content and skills from the AP Course and Exam Description and are always visible to students in AP Classroom.

Check student understanding as you teach. Assign Topic Questions (approximately three per topic) as homework or as an in-class assignment using AP Classroom. Students can answer these questions on desktop or laptop computers, mobile devices, or paper.

Use results to focus instruction. Review explanations of incorrect answers to reveal misunderstandings and identify specific content and skills to emphasize as you teach. Enable student access to results so they can gain insights into their performance.



Remember: These questions are formative. They're designed to help reveal gaps in knowledge and skills that can be addressed through additional instruction and practice.

WHEN YOU COMPLETE A UNIT:

Assign the Progress Check. Assign multiple-choice and free-response sections by unlocking the assignment Progress Checks to help students see their progress toward understanding course content and skills for each unit. Additionally, Progress Checks are editable. You are able to:

- Copy and edit full Progress Checks.
- Access individual questions directly in the Question Bank.
- Create custom quizzes that combine Progress Check questions with other questions in the Question Bank.

Use results to prioritize additional practice. Share assignment results and have students review reports so they can understand their personal strengths and improvement areas. You'll be able to use student and class reports to identify common strengths and weaknesses, as well as find related questions and videos to assign as additional practice.

AP STUDENTS

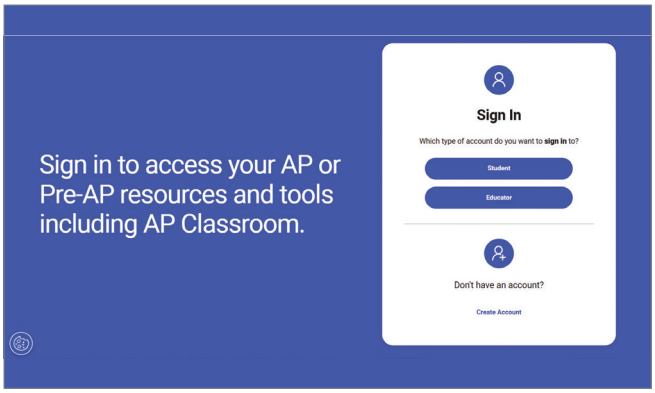
Joining Your AP Class Section

Join your AP® courses online, so you can get feedback on your progress and register for AP Exams.

Write your join code(s) here:

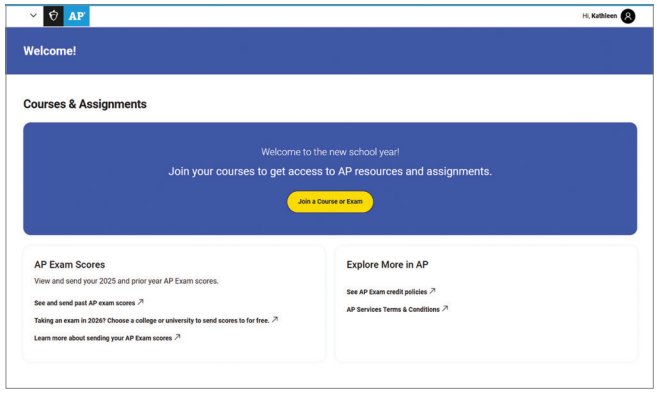
Course _____ Course _____ Course _____ Course _____

Code ___ ___ ___ ___ ___ ___ Code ___ ___ ___ ___ ___ ___ Code ___ ___ ___ ___ ___ ___ Code ___ ___ ___ ___ ___ ___



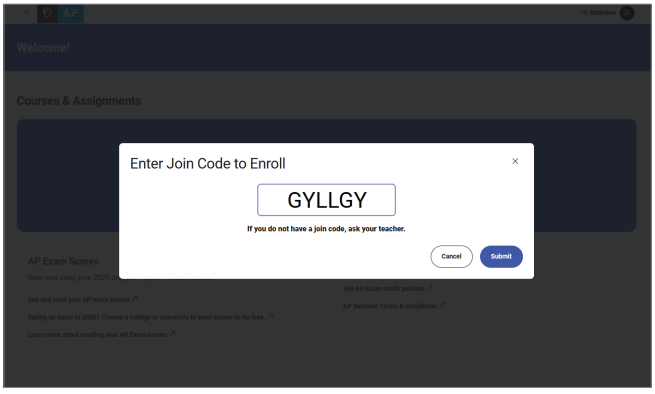
1 SIGN IN

Sign in to myap.collegeboard.org with your College Board account. This is the same login you use to access your AP scores, PSAT/NMSQT® scores, or register for the SAT®. If you don't have a student account, click the **Create Account** link.



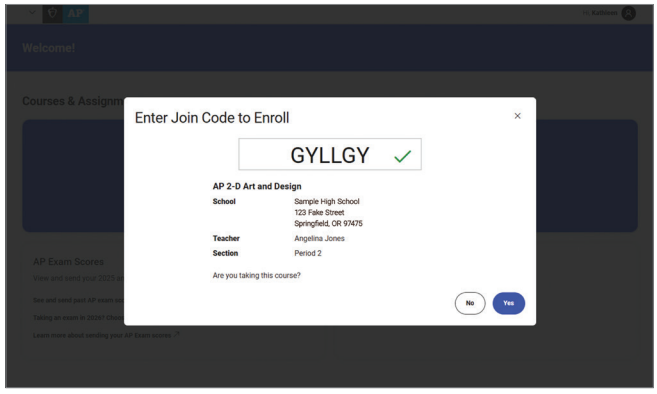
2 JOIN A COURSE

Click the **Join a Course or Exam** button. Before you do this, make sure you have the six-character join code from your teacher. You'll need it to join a class section.



3 SUBMIT YOUR JOIN CODE

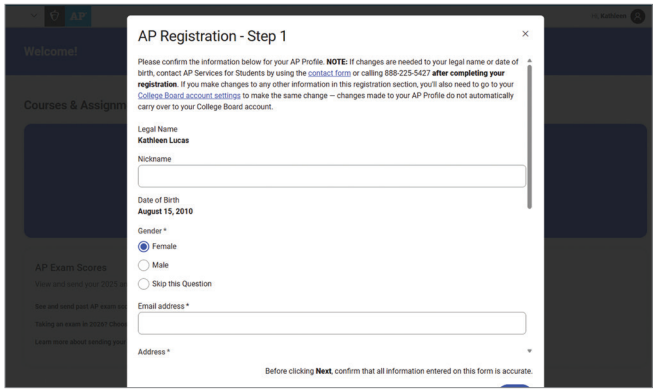
Enter the join code your teacher gave you and click **Submit**.



4 VERIFY COURSE INFORMATION

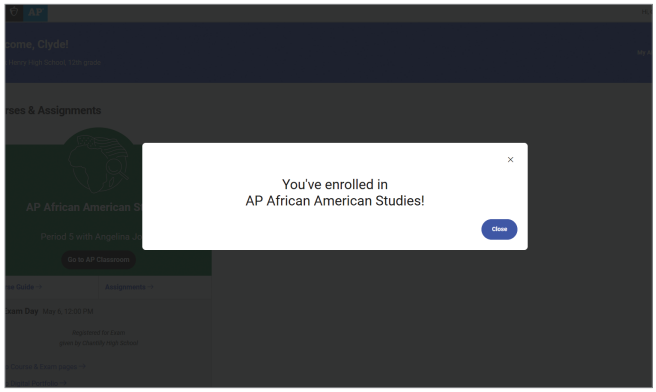
Make sure the information that comes up is for the course you're taking. If it is, click **Yes**.

© 2026 College Board.



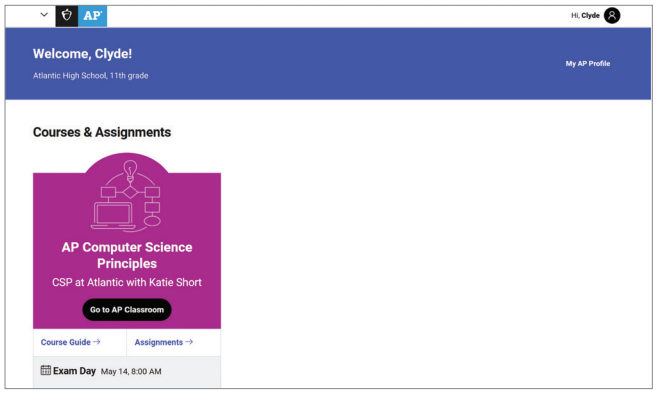
5 FILL OUT REGISTRATION INFORMATION

When you first join an AP course in My AP, check your registration info and fill in what's missing. To fix your name, middle initial, or birth date, contact AP Services after registering. For other changes you make to your AP Profile, make sure to also update that information in your College Board account. If your school has included BigFuture® School for AP students, you can choose to provide your mobile number to access the BigFuture School app.



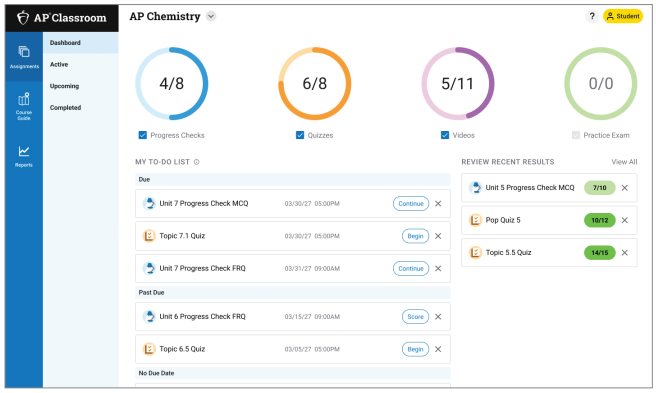
6 CONGRATULATIONS!

You're enrolled in your AP course. If you're taking multiple AP courses, repeat steps 2–4 for each course you're taking this year, using the unique join code for each course.



7 GO TO AP CLASSROOM

Now that you're enrolled, click **Go to AP Classroom** to access resources for your course. Click **Assignments** to see assignments from your teacher.



8 ACCESS COURSE RESOURCES AND ASSIGNMENTS

In AP Classroom, you'll have a **Course Guide** section that shows you the scope and a suggested sequence of the content and skills covered by the exam and any resources provided by default, which may include AP videos. Go to the **Assignments** section to see the resources, including quizzes and assessments, that your teacher assigns to you.

College Board Account Tips

You need a College Board account to join your AP class section, receive AP assignments from your teacher, and register for AP Exams. If you don't already have an account, please sign up at **collegeboard.org/register**. A family member shouldn't create an account for you. Keep your account information in a safe place only you can access.

DO YOU ALREADY HAVE AN ACCOUNT?

All College Board programs are connected through one account, so if you created one for AP, PSAT/NMSQT, SAT, or BigFuture® Opportunity Scholarships, you're all set.

IF YOU HAVE TROUBLE SIGNING IN TO YOUR ACCOUNT

If you can't remember your login information, follow the **Need help signing in?** links at **myap.collegeboard.org**.

- If a family member set up your account, ask them for the login information. You may want them to sit with you while you sign in.
- If you can't remember the answers to your security questions, see if a family member has them.
